Trace \$1,000,000 Insull Bank Account

SECRET FUND IS HELD IN CHICAGO, SUIT TO CHARGE

Demand U. S. Seize Hidden Money.

Samuel Insull, deposed utility magnate who is a fugitive in Greece, maintains a secret bank account in Chicago, containing more than \$1,000,000 in securities and gold bullion, according to charges made in a suit which will be filed today in the federal court, income from the bank account provides Mr. Insull with funds in his exile, the suit will charge.

The court action is to be filed by Attorneys Samuel and Leonard Ettelson, representing Gus Lowry of Sullivan, Ind., holder of \$6,000 in debentures of the bankrupt Insull Utility Investments, Inc. Samuel Ettelson, former corporation counsel, who confirmed reports of Insull's secreted funds, said that the suit would name the Harris Trust and Savings bank as the Insull depository.

Ask Impounding of Account.

Mr. Ettelson also announced that he will go before Federal Judge John P. Barnes this morning with a motion to restrain the bank from permitting withdrawals from, or a transfer of, the Insull account, and to impound the account pending a determination of the manner in which it should be apportioned to Insull creditors.

The petition alleges that Insull changed the name in which the account had been maintained from his own to that of Constantine S. Eftax, shortly before he left the country in June, 1932, and that no such person as Constantine S. Eftax exists.

"Said name," states the bill, "was merely a name used by Samuel Insull and said bank for the purpose of wrongfully and fraudulently concealing the fact that said monies, bonds, securities and gold bullion were deposited to the account of said Samuel Insull and held by said bank for the individual uses and purposes of the said Insull."

Cites Federal Charges.

The bill recites the charges that have been brought against Insull in the federal court (violation of the bankruptcy act) and states the belief that all or a large part of the funds in the alleged Insull account will shortly be withdrawn for his defense, both in Athens on the extradition proceedings now pending, and in Chicago if the extradition proceedings now pending are successful and he is brought to trial here. On this ground the court is asked to restrain the bank from permitting any withdrawals and to impound the funds.

Mr. Ettelson declared that efforts had already been made by Insull to have the gold bullion, said to be in excess of \$500,000, shipped to him in Athens, but that he was unsuccessful because of the embargo on gold exportations under the emergency monetary laws.

Speculate on Insull's Motive.

There are special provisions, however, under which a person who intends to make his residence abroad permanent, may have up to \$50,000 in gold sent to him, according to Mr. Ettelson. This led to speculation as to Insull's motive when, at his previous hearing before the Greek court that set him free on embezzlement charges brought by the state of Illinois, he announced his intention of becoming a citizen of Greece. The Greek court asked Insull specifically whether he intended to become a Greek citizen, and his reply was "Yes."

The bonds and other securities allegedly deposited by Insull in the Harris bank are said to have been placed in trust, the interest from which, according to Mr. Ettelson, is credited to the personal checking account of Constantine S. Eftax. Insull, or Eftax, is charged, is notified in Athens whenever interest deposits are made in his checking account. The trust is reported to yield from \$150 to \$400 a week.

Deposits of "Huge Funds."

The petition also states that Insull, prior to his flight to Paris and thence to Athens, after the crash of his billion dollar utility empire, deposited huge sums in "diverse banks and institutions among which was the bank of the Harris Trust and Savings bank."

If these charges are proved to be true, it will be a surprise to the thousands of creditors of the Insull hold-

LOS ANGELES HIT BY EARTHQUAKE; DAMAGE LIGHT

Shock Rocks Other California Cities.

Los Angeles, Oct. 2 (Monday).—A short, sharp earthquake in Southern California at 1:10 a. m. today caused residents to flee to the streets in night clothes and resulted in minor property damage.

A check up by the sheriff's office through all of its substations located in various parts of the county showed the damage was slight and there had been few injured.

The quake appeared to be as intense as the March 10 shock, in which more than 100 persons lost their lives and property damage mounting to millions resulted. Officials of the Pasadena seismological laboratory said that while the quake was a severe one, its center was probably at sea.

Old Police Station Wrecked.

A market building at 64th street and Central avenue was reported by police to have collapsed and more than a ton of brick from the front of the old Central police station in Los Angeles fell into the street.

The quake was felt throughout Southern California. Long Beach, Santa Barbara, San Bernardino, Whittier and points throughout the San Fernando valley reported feeling the shock.

Many residents, fearing to reenter their homes or hotels for the night, paraded the streets in their nightclothes with only coats thrown over them. The quake was felt strongest in downtown Los Angeles.

Residents Rush to Streets.

The seismological laboratory in Pasadena was to report at 7:30 a. m., on the possible center of the shock, the instruments being so timed that a reading before that hour is not available.

Los Angeles residents rushed from their beds to investigate the shock. In residential sections automobiles appeared on the streets as residents, finding no damage in their immediate sections, set out to see how their neighbors fared.

Several Persons Injured.

Los Angeles, Oct. 2. (Special.)—Several persons were injured in the 8-second tremor that damaged Los Angeles buildings this morning, but no deaths were reported here or in other cities where the shock was felt. The most severely hurt was Mrs. Jeanette Jordan, 2648 Sichel street, who suffered a possible skull fracture when she tried to run from her home and was struck by falling brick. No estimate of the damage, police said, could be made until a daylight check was possible.

The center of the disturbance apparently was nearer to Pasadena than the disturbance on March 10, according to preliminary reports from Dr. Harry O. Wood, in charge of the Carnegie seismological laboratory at Pasadena.

HIT BY STEAM, ENGINEER SAVES LIVES ON TRAIN

Brookfield, Mo., Oct. 1. (AP)—Elmer Gordon, 50, scalded by escaping steam, groped his way from the cab to the pilot of a runaway locomotive in darkness early today to save the passengers of his nine car train from disaster.

Explosion of a boiler pipe as the Burlington's American Royal raced at 50 miles an hour along the North river bottoms hurled the engineer back and steam prevented him from reaching either the emergency brake or the throttle. He was burned on a hand, head and shoulders.

"I knew," Gordon said, "that in a few minutes, if the derail was set against us, the train would be wrecked."

Hence he headed for the angle cock of the locomotive pilot, feeling his way to the swiveling gateway, clinging along the outside of the cab and boiler.

"I reached for the angle cock and turned on the air," he said. "There was a roar and shock and sparks as fire as the brakes were slammed on."

OUR GUEST

SKY RAINS CAT, BUT NOT DOG AT PROVIDENCE

Providence, R. I., Oct. 1. (Special.)—A valuable Persian kitten dropped from the sky here today into the back yard of Miss Mary E. Makepeace, librarian of the Rhode Island College of Education.

It made a deep imprint in the ground and lay unconscious for hours. Later it ate heartily and purred in gratitude.

An airplane had been circling overhead and a Boston-New York air liner had just passed before the kitten fell into the yard, which is inclosed by a high wire fence, with no trees or poles near.

"I am positive that the kitten fell from a plane," Miss Makepeace said, adding that she was trying to find its owner.

Great Dane Sets Record; Mother of Twenty Pups

Glens Falls, N. Y., Oct. 1. (AP)—Theda Bara 2d, Great Dane owned by Dr. W. F. Jones of Miller Hill, set what Dr. Jones believes to be a world record when she gave birth to 20 puppies. Two died, but the other 18 are doing well. The previous record in the Great Dane line was 14 puppies.

THE WEATHER

MONDAY, OCTOBER 2, 1933.

Sunrise, 5:48; sunset, 6:30. Moon sets at 5:45 a. m. tomorrow. Venus and Mars are evening stars. Saturn is an evening luminary, visible in the southeast after dark.

Chicago and vicinity: Fair, with gentle to moderate winds; cloudy; temperature generally fair and slightly warmer. Illinois—Fair, slightly warmer. West portion Monday: Tuesday generally fair and somewhat warmer.

Taxi Careens on Curb, Kills Louderback Jr.

(Picture on page 9.)

William J. Louderback Jr., 32 years old, 18 East Elm street, a bond salesman and socially prominent, was killed yesterday as a result of a collision between an automobile and a taxicab at Walton place and Rush street.

Louderback, who was standing on the curb waiting to cross the street, was struck by the cab when it careened over the curb after the collision. Police held the cab driver, Sol Levin, 3526 West 13th place, and Edward Huguette, 20 years old, 114 East Delaware place, who was driving the other car. Huguette said that he saw the cab too late to avoid a collision.

Son of Late Realty Man.

Louderback was a son of the late William J. Louderback, who was president of the Miami corporation, director of the First National bank, the International Harvester company and the Chesapeake and Ohio railroad, and a prominent Chicago real estate operator. He died in 1926.

One man was killed and three others were injured yesterday when, it was charged, Antonio Genzelba, 3225 Auburn avenue, drove his automobile past a stop sign at 55th street and Kostner avenue and struck another automobile.

Paul Paulus, 60 years old, a companion of Genzelba, was killed, and Alex John, 44 years old, of the Auburn avenue address, incurred internal injuries. Mr. and Mrs. Fred Metta, 1180 South Taylor avenue, Oak Park, occupants of the other car, suffered minor injuries. Genzelba was arrested.

Two Killed in Crash.

Two young men were killed and two others were critically injured last night when the automobile in which all four were riding crashed into the rear of a National Tea company truck on St. Charles road in Villa Park.

Those fatally injured were Gilbert Kelly, 19 years old, and Jack Brady, 20 years old, both of Wheaton. The injured are Alfred Rogers Jr., 17 years old, of Wheaton, and Oscar Breault, 20 years old, of Villa Park. Rogers and Breault were taken to the Elmhurst hospital, where little hope was held for their survival.

Year's Toll Rises to 779.

The deaths of Louderback and Paulus and three others raised the Cook county motor toll for 1933 to 779. The victims' names were: Sol Levin, 3526 W. 13th, 21 years old, a chauffeur, 186 West 105th street, killed early yesterday when a motor-

FIVE MADE HEROES AS MAN TUMBLES FROM RIVER DOCK

New York, Oct. 1. (AP)—Andrew Hyklor fell asleep on a dock before dawn today and awakened in the East river. His plunge made heroes of five men.

Nicholas Hochhold saw him fall and jumped after him. Hyklor headlocked Hochhold and both went under.

John Patco went to their aid and was dragged down.

In jumped Frank Rye and all four sank.

Patrolman Edward Toomey was the next in, and Hyklor, Hochhold, Patco, Rye, and Toomey went down.

Patrolman Anthony Batto dived in. He had his night stick in his hand and when an emergency squad arrived, Batto had the situation under control.

His report to headquarters: "Four men, one policeman, found in East river, off pier. All rescued."

cycle on which he was riding crashed into a parked truck at 95th and Halsted streets.

Ben Van Hycwyc Jr., 16 years old Thornton, died in Ingalls Memorial hospital, Harvey, of injuries incurred Thursday when he fell from the running board of a truck driven by his father.

Unidentified man, apparently a Mexican, about 30 years old. Instantly killed when he was struck by a hit and run motorist driving west in 98th street between Essex and Philip avenues.

(Continued on page 4, column 5.)

16 N. Y. CLUBS FOR ROOSEVELT BACKING M'KEE

New York, Oct. 1. (Special.)—Joseph V. McKee, independent candidate for mayor, won the support today of sixteen clubs which were formed to back Franklin D. Roosevelt for President. The clubs, operating under the name of the Liberal Democratic league, announced the adoption of a resolution pledging support of McKee and denouncing both Tammany and the fusion movement as equally odious. The statement read in part:

"The fusion leadership is just as odious to us. We have no hesitation in branding fusion as a reactionary Republican camouflage behind which lack of leadership, Ruth Pratt, Ogden Mills, and the upstate Bourbon leaders, these are part of the villainous crew that plunged the city and the country into the worst depression in history."

PRESIDENT TO ADDRESS LEGION THROUGHS AT NOON

Convention and City Complete Plans for Welcome.

Sudden Trip Viewed as His Answer to Challenges.

Today's Program

Following are the chief events on the American Legion convention program for today:

CHICAGO STADIUM.

9:30 a. m.—Call to order by National Commander Louis Johnson. Address of welcome by Gov. Horner and Mayor Kelly. Response by National Commander Johnson. Committee reports.

12 noon—Address by President Roosevelt.

1:00 p. m.—Memorial services.

4:00 p. m.—Meetings of convention committees.

7:00 p. m.—National commander's dinner.

OTHER EVENTS.

1:30 p. m.—American Legion auxiliary convention convenes at Auditorium theater.

2:00 p. m.—40 and 8 convention convenes in Medinah Michigan Avenue club.

7:00 p. m.—40 and 8 parade up Michigan avenue from Balbo avenue (7th street) to Ohio street. Special rules restricting traffic in the heart of the Chicago business district will go into effect for the parade.

BY PHILIP KINSLEY.

(Picture on Back Page.)

President Roosevelt and Mrs. Roosevelt will arrive in Chicago at 11:30 o'clock this morning.

At noon the President will face members of the American Legion in the formal opening of their fifteenth annual convention at the Chicago Stadium.

This will be a dramatic moment in the history of the Legion and also in the history of the nation, for the President comes to face an audience which, while entirely sympathetic with his broad aims, still stands sternly against weakness of the national defense and seeks restoration of about \$150,000,000 in veterans' benefits which were cut out under the national economy act.

Plain Speaking Expected.

The national economy act originally cut \$400,000,000 in government benefits to veterans, but after appeals by Legion committees the President restored \$96,000,000 in payments. The President is expected to admit that the economy act resulted in certain inequities, and he will offer to right them, but he is also expected to back up what he did with plain talk and also have a few plain words to say about the future.

An indication that Mr. Roosevelt intends to defend his economy program before the veterans appeared last night as the presidential train crossed New York state. It was reported on the train that Lewis Douglas, national director of the budget, who put the teeth in the economy act, has been summoned from Washington by the President to meet him in Chicago and appear on the platform with him.

Ominous Outlook for Economy.

In view of the temper of the Legion convention and the word that comes from the political field, however, the future is ominous for economy. The congressmen who voted for the economy act and have felt the sting of the local Legion post disapproval are reported to be ready to introduce a flood of bills restoring money to the veterans. The veterans fear this will put them in a bad light with the country and are ready to insist on their 4 point program of restoration.

What the President will say about this and other issues, including the NRA, which the Legion is largely supporting, can only be guessed at. It is not, however, in the nature of an appeal to the veterans not to press for immediate payment of the bonus, such as former President Hoover made two years ago at the Legion convention in Detroit.

Trip a Reply to Critics.

President Roosevelt, incidentally, visits Chicago at this time against the advice of many of his friends. Mr. Hoover was here last week and was cordially received everywhere he went. The President's action is regarded as an answer to a challenge, not only in the Legion situation but in that of the middle west, where he will appear at a time when his recovery and farm programs are not as popular as they are in the east.

The invitation to attend the convention sent to the President by Legion

\$10,000 IN CASH AWARDS

For Best Answers to

THE 1933 CONQUEST OF THE AIR

For Particulars See NEXT SUNDAY'S TRIBUNE

Commander Louis A. Johnson was supplemented by several other messages which went to the White House, some of which put the matter more in the light of a dare.

There was a hasty gathering of executive and other committees of the Legion yesterday afternoon when the official announcement was made at the summer White House in Hyde Park, N. Y., that the President and Mrs. Roosevelt, with a staff of secretaries, had boarded a special New York Central train for Chicago.

Unusual precautions had been taken to keep this decision secret. The Legion officials have felt sure that the President would come and made their program preparations with this event in view, but there was no announcement of the actual decision until shortly before the train's departure from Hyde Park.

As late as Saturday night there was a possibility the trip would be canceled because of state affairs, and more particularly the Cuban situation. Throughout the period of indecision it was President Roosevelt himself who insisted on coming to Chicago.

400 Trains Bring Veterans.
The Legionnaires who arrived in Chicago all day yesterday on 400 special trains will gather at 9:30 o'clock this morning for the opening session of their convention. This session is in the nature of a keynote to the serious business of the convention which will be undertaken in the Civic Opera House on Wednesday and Thursday.

After the call to order and addresses by Gov. Horner, Mayor Kelly, and James P. Hingley, commander of the Illinois department of the Legion, National Commander Johnson will speak and committee reports will be heard. President Roosevelt's address is set for noon. After he has spoken there will be a memorial service and then adjournment. Tomorrow there will be nothing but committee meetings and the big all day parade.

Hundreds of Resolutions.
Analysis of the hundreds of resolutions reported to this convention shows the temper of the delegates clearly. The four point program has been approved by a majority of the state posts and stands in advance as the policy of this convention. This really represents, according to Commander Johnson, "little more than the government promised in passing the economy act."

"The legislation built up during the last 15 years has been destroyed," Commander Johnson said. "The Legion program would round out an intelligent veterans' policy."

With the prospect of opening headquarters in Washington and establishing a permanent staff there the Legion may be found at the next session of congress in sharp opposition to the congressmen who present measures, perhaps generous in themselves, but contrary to the Legion program.

The Four Point Program.
The four point rehabilitation program is summarized by Commander Johnson as follows:

1. That no war veteran disabled in the line of duty suffer any reduction of those benefits granted such veterans in the world war veterans' act as in effect prior to March 20, 1933.
2. That hospitalization under federal government auspices be afforded to all war veterans not honorably discharged who require hospital treatment and who are not able to reasonably pay for their own treatment.
3. That perpetuation of service connection for all veterans properly granted such connection under laws in existence prior to March 20, 1933, be recommended as an item of Legion policy.
4. That the benefits provided for dependents of veterans as established in the world war veterans' act be resumed and maintained as the government's policy, and that in no event shall widows and dependent children of war veterans be without government protection.

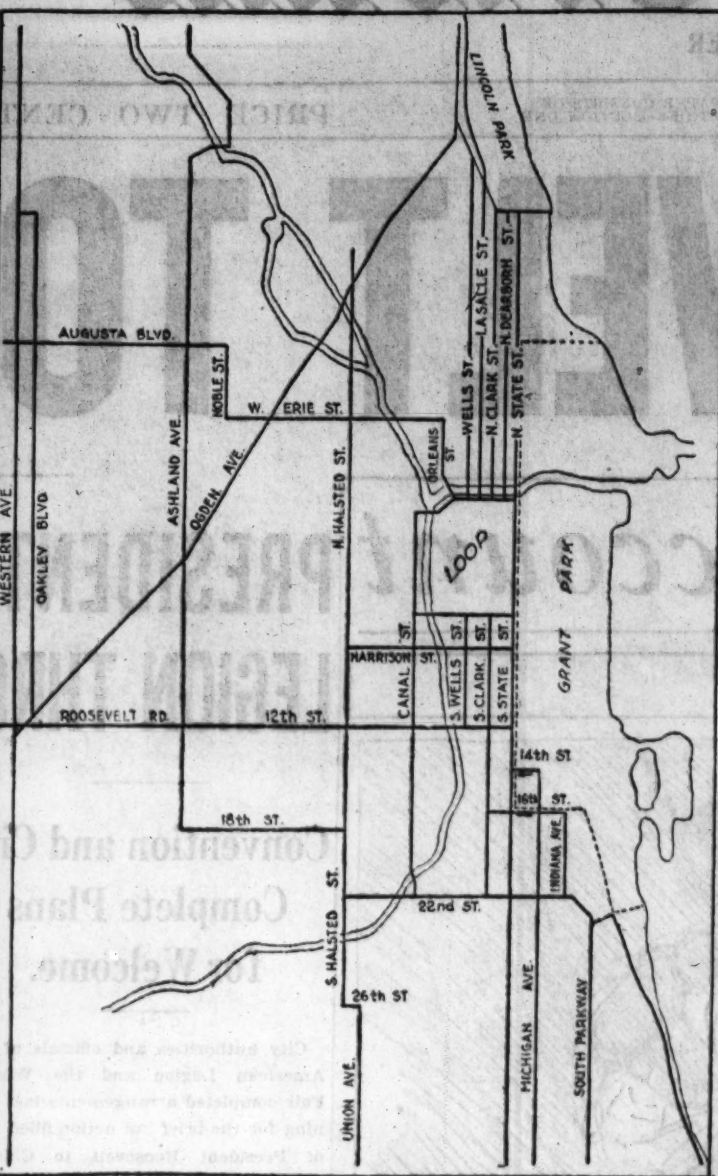

"Adequate National Defense."
Second in the list of approved projects is "an adequate national defense," which is to be interpreted in various resolutions, all bearing on the common purpose. Along this line are resolutions denouncing propaganda which seeks to undermine the government, and opposition to the recognition of Russia.

Economy in government as a general proposition has the support of various posts, while the national economy act is opposed by a greater number. There is a strong feeling against tax exempt securities and in favor of organized warfare against crime.

The NRA is approved by ten state organizations. There are five resolutions seeking the removal of Frank T. Hines as director of the veterans' bureau. Gen. Hines is expected to make an appearance at the convention and defend his policies.

Last night from sources close to Commander Johnson it was learned that a fight is being waged to defeat a movement by a minority to join three other veterans' organizations in

ROUTES TO AVOID TRAFFIC TIEUP

These are recommended as optional routes for motorists in avoiding the congestion of downtown while Michigan avenue is closed tonight for the 40 and 8 parade and all day tomorrow for the American Legion parade. The map was prepared by Leslie Sorenson, city traffic engineer, and George Barton, Chicago Motor club engineer.

direct opposition to the national economy act. This battle may never reach the convention floor, but it is a red hot issue nevertheless, it was said.

Legionnaires Fill Loop.
The loop yesterday was the scene of hundreds of reunions and gay parties as the veterans came marching to their various hotels. It was a gay and good natured throng, amused at the antics of various posts with mascots and antiquated cars and snappy drum majors. The hotel lobbies were cleared for action, most of the furniture and ornaments being put safely out of the way. Here there were serenades that made the ceilings tremble.

An invitation to the public to enjoy the Legion events was issued yesterday by John Gullivan, chairman of the contest committee for the convention. "The Legion parade on Tuesday," he said, "will be the greatest peace time parade in history, something that every one in Chicago should see. Take

ing ten hours to pass a given point, with 135,000 men in line and about 600 musical organizations and drill teams, it will provide an unforgettable day in the city's history. The public is urged to view this triumphal march at the official reviewing stand in Soldiers' field.

Three Musical Contests.
The musical contests, that of the drum corps on Wednesday at Soldiers' field, and the band contest at the Grant park bandstand opposite 11th street on the same day, and the drum and bugle contests at the Board of Trade building on Monday, are all open to the public and well worth attending.

"In addition there will be drill team contests on Wednesday at 8th street in Grant park at 1:30 p. m., a golf tournament at Olympia Fields Country club on Monday, and a bowling tournament at the Recreation alleys, 131 South Wabash avenue, during the convention."

WELCOME—LEGIONNAIRES
Introducing...for the first time...the most sensational of all fabrics...
4-PLY WORSTED TWISTS

FALL SUITS
FEATURED IN BENSON & RIXON'S
Special at \$21

Worsted twists have been the sensation among fabrics—due to their non-wrinkling and long-wearing qualities. Benson & Rixon decided that if 2-ply and 3-ply twists were so good—4-ply twists must be still better. Months of experiment proved that 4-ply Worsted Twists exceeded all expectations on every score—and they rise to new heights of luxury in appearance and "feel." For a limited time, Benson & Rixon are offering these amazing suits at an introductory low price of only \$21.

It is natural that Benson & Rixon bring you this new development in Twists—because Benson & Rixon have consistently been the biggest sponsors of this type of fabric and have probably sold more Twists than all other clothiers in Chicago put together!

Fall Topcoats.....\$15, \$20, \$25

SPECIAL PARADE TRAFFIC RULES IN EFFECT TODAY

Establish Restricted Area in Business District.

Special traffic and parking orders for the 40 and 8 parade tonight will go into effect this afternoon. All parking will be prohibited in Michigan avenue, Wabash avenue, and State street and in all east and west streets from the lake as far west as State street and from Chicago avenue to 16th street.

An hour before the 40 and 8 parade, scheduled for 7 o'clock tonight, Michigan avenue will be closed in the restricted area, east and west streets will be closed and Wabash avenue will be reserved for street cars and buses only. The streets will not be reopened to traffic until about 10 p. m.

For the great American Legion parade tomorrow these regulations will be in effect from 9 a. m. until about 9 p. m., with one difference. This is that the north boundary of the restricted area will be Oak street instead of Chicago avenue.

The main Legion parade is scheduled to leave the Michigan avenue bridge at 10 o'clock tomorrow morning. The line of march is south to Jackson boulevard, east to the lake front, south into Soldiers' field, back north in the inner drive and across the Congress street viaduct, where the 120,000 marchers will disband.

Police headquarters has assigned 2,375 men to handle the crowds and traffic. Of this number 1,650 will be on duty along the line of march. The remainder will be directing and rerouting normal traffic over an area of sixteen square miles bordering on the parade zone.

CITY'S SCHOOLS TO CLOSE FOR LEGION PARADE

Mayor Kelly has proclaimed a civic holiday in honor of the Legion parade tomorrow. Business enterprises of the city will be suspended generally, and the public schools will be closed. County Superintendent of Schools Otto F. Aken said yesterday that he is in favor of closing the schools in the rural and suburban districts of the county so that these pupils may also witness the parade, but he pointed out that the power to declare the holiday rests with the trustees of the individual school districts throughout the country, and not in his office.

Postmaster Hangs Himself in Barn on His Iowa Place
Woodbine, Ia., Oct. 1.—(AP)—Bruce Mills, 65, postmaster here 13 years and former state representative, today hanged himself in a barn at the rear of his home.

John E. Newcomb, 72 years old, of Augusta, Ill., member of the Quincy Forty and Eight, who is said to be the oldest member of the 33d division to see action in France, will be among the 65 sergeants-at-arms on floor duty at the Stadium this morning. He is

NOTES OF THE LEGIONNAIRES

A jury of prominent Chicagoans will occupy a reviewing stand in Soldiers' field in relays during tomorrow's parade. Because of the length of the parade they will take turns in judging the marchers and will pick the best costumed drum and bugle corps, best drum major, best drill team, most authentic and attractive historical float, funniest clown, and most amusing costumes. The jury includes Mrs. John Alden Carpenter, Andrew Behor, Knowlton L. Ames, Edgar S. Cameron, Melvin L. Straus, and others.

Tickets for seats in Soldiers' field for the parade tomorrow will go on sale tomorrow morning at Soldiers' field. Tickets are \$1, with admission for children 25 cents.

Chief event of the reunion of Negro troops who served in the war will be the grand Negro military ball to be held tonight in the Savoy ballroom, South Park way at 47th street. An orchestra of 100 pieces will play. Regiments of the 35d and 95d divisions will be held in the 8th Infantry armory tomorrow.

Members of Edward Peterson post of Rockport, Mass., drove into Chicago yesterday with a 27 foot float which will appear in the parade tomorrow. The float is a reproduction of the ancient stock dock and fishhouse at Rockport, with two painted schooners alongside, which has been the subject of numerous paintings by members of the artists' colony there.

The dignified atmosphere of the Palmer house lobby was changed to one of hilarity last night as one drum and bugle corps after another marched in and played old tunes and military airs, the crowds singing and an occasional Legionnaire grabbing a dancing partner and performing. The Square post of Chicago and the DuPage county Forty and Eight drum and bugle corps were among the noisiest.

Spry and fit in a new uniform of gray, Lieut. Gen. Harry Rene Lee of Nashville, Tenn., chief of staff of the United Confederate Veterans, who says he is 83 years old, appeared in the Palmer house lobby and was greeted by many Legionnaires. "I'm from Jersey, the wettest state in the Union; will you have rye or bourbon?" asked one Legionnaire of the general. The general drew himself up and replied with dignity, "I'm from the south; I'll take bourbon."

Seen in the loop last night: A Legionnaire insisting on helping a traffic policeman direct traffic at Randolph street and Michigan avenue; an Indian wearing a suit of beads in a design of birds and butterflies, a member of the Idaho delegation; overseas nurses registering from Panama and Paris; three Legionnaires bending over a large sleeping tomcat in front of a Dearborn street store, urging it to wake up; a gray haired Legionnaire sitting on the steps leading from a hotel lobby, smiling and bowing to all who passed.

John E. Newcomb, 72 years old, of Augusta, Ill., member of the Quincy Forty and Eight, who is said to be the oldest member of the 33d division to see action in France, will be among the 65 sergeants-at-arms on floor duty at the Stadium this morning. He is

a Spanish-American war veteran as well. Mr. Newcomb served 18 months in France with the 123d machine gun battalion.

Led by the fifty-five piece eastern championship drum and bugle corps of the Herbert F. Akroye post No. 132, of Marlboro, Mass., a Legion parade was staged yesterday in Oak Park, in which nearly 1,000 persons participated. A coffert was held in Gunderson park, East avenue and Garfield street, Oak Park, and later a dinner, presided over by Village President Willis McFeely, was held at the Masonic temple.

Sidewalks of the loop were crowded last night with throngs which moved from hotel to hotel watching the antics of Legionnaires. Five hundred persons lined Randolph street near the county building watching windows of the Hotel Sherman, where Legionnaires hung out shouting greetings to new arrivals below.

One hundred and seventy-five Idahoans, including the Idaho Falls drum corps, arrived on a special Chicago and North Western train yesterday. They brought along 36 tons of Idaho russets, which make the world's best baked potatoes, they claim. They will pass them out in 10 pound sacks during the parade.

Among the rank and file of Legionnaires seen in the loop: Two sunburned Minnesotans, of a party of 15 from Pipestone county, which has its name from the rock used in Indian pipes of peace and mined by the Sioux Indians still.

Seen here and there: A long Legionnaire from Three Links [Ill.]; Charles Kaye of Sweetwater, Tex., where there's good cattle country; the state champion bugler in the prize winning bugle corps of Fort Arthur, spick and span buglers from Lakeland, Fla., in pearl gray, orange and green uniforms.

Detroit has the largest quota of French war brides registered to date: Mme. Anna Marie Eschbach, Mme. Marinette Maley, and Mme. Marcelle Rogers being the first to sign the register on the fourth floor of the Palmer house. Mrs. Almée André Shaw of Oak Park presides over the register.

Among the trophies to be given participants in the parade tomorrow will be a cup donated by Mayor Kelly to be given to the best drum and bugle corps, and a cup offered by Gov. Horner to the best Illinois drum and bugle corps. Fred L. Boissy, trophy chairman, explained that Gov. Horner's award was made because no Illinois corps can compete in the finals Wednesday because they are hosts.

Members of the service committee, the red capped official Legion police, were on duty throughout the night in the loop.

VETERANS GREET GEN. CHAMBRUN, ENVOY OF FRANCE

Noted Soldier Arrives for
Legion Convention.

(Picture on back page.)

Count Adolphe de Chambrun, a general of the French army and commander of the 15th army corps at Bordeaux, arrived in Chicago yesterday to extend the greetings of his country and 4,000,000 French veterans to the American Legion convention.

The general said he was delighted with his twofold mission, officially representing his government and the Anciens Combattants of France, and happy to be in Chicago again for his first visit since the 1912 Republican convention, when President Taft was renominated.

Resplendent in the uniform of the French chasseurs (Blue Devils) the general was the center of interest and admiration as he walked through the crowd of convention delegates and well-wishers at the Union station. His party came in the private car of Gen. W. W. Atterbury, president of the Pennsylvania road, on a special train from New York.

French Consul Greets Him.

On the platform to meet Gen. Chambrun were Rene Weiller, French consul general; Lieut. Gen. of Militia Milon J. Foreman, chairman, and C. Wayland Brooks, vice chairman of the distinguished guests committee, and their aides from the convention headquarters. The general was accompanied by his wife, Countess de Chambrun, who is the former Clara Longworth, sister of the late speaker of the national house of representatives. His party also included Maj. Michel de l'Epinay, his aide de camp, and Robert E. Condon, vice chairman of the national Legion distinguished guests committee.

To questions about the time and place of the next war, Gen. Chambrun replied that his mission was one of peace and good will, and that he did not wish to think of war.

Doubts That There Will Be a War.

"Nobody knows whether there will be another war; but personally I don't think so," he said. "If there is it will not be the fault of France or America. But I am here for the Legion convention, and very happy to be, for I was with the Americans from their arrival in France to the armistice. Besides representing my government I have been asked by the French veterans' organization, the Anciens Combattants, to express their greetings to the Legionnaires."

Gen. Chambrun, who will remain here during the convention, will go to Cincinnati after his close for a visit with his sister-in-law, Mrs. Nicholas Longworth, and then to Washington, where he was born in 1872 while his father was consul to the French embassy.

Although belonging to the general staff, Gen. de Chambrun obtained permission to remain with the troops throughout the war, and commanded an artillery division which was engaged three times at Verdun. When the American troops arrived in 1917 he was attached to Gen. Pershing's staff and served as liaison between the American commander in chief and Marshal Petain.

Distinguishes Self in Morocco.

From 1920 until 1923 he served in Morocco, and his command, with reduced effectives, sustained the attack of Abd-El-Krim and kept the enemy at bay on a 300 mile front until reinforcements arrived. He later distinguished himself in the civil development of northern Morocco.

Last night the general and Countess

3,000 VETERANS ATTEND SERVICE FOR WAR DEAD

Kelly, Bishop Stewart,
McNutt Speak.

(Picture on back page.)

Members of the American Legion last night paid their respects to their departed comrades in a memorial service on Navy pier. More than 3,000 persons filled the pier and auditorium for the two-hour service of music, tributes, and prayer.

A recital by the Women's Symphony orchestra opened the service, followed by the posting of the colors by the combat medal men, the tribute to the flag by Mrs. S. Alford Blackburn, national president of the Legion auxiliary, and the invocation by the Rev. Dan Daley, chaplain of the Chicago Police post of the Legion.

Keep Ideals Alive, Kelly Urges.

Mayor Kelly then delivered an address in which he urged all to remember the heroic dead in an effort to carry out the vital principles of liberty for which they fought.

Bishop George Craig Stewart of the Episcopal church, another speaker, cited a similar memorial 2,300 years ago when the Athenians held a service for those who had fallen in war, honoring their unknown soldier. Quoting Pericles, who addressed that gathering, the bishop said: "The bravest are those who have the clearest vision of what is before them." Such words, the bishop added, will never die.

Asks the Living to Fight On.

Gov. Paul V. McNutt of Indiana, past national commander of the Legion, in the memorial address pointed out that the Legion's dead comrades entered the war because the honor of the country was at stake. "The struggle to restore economic equilibrium is as grim and as real as any war," Gov. McNutt continued. "The times call for patriotic leadership of the highest order. The Legion can furnish that leadership."

At the close of the service the Legionnaires and their friends stood in silence, then their hands were sounded. Prayers were offered by Rabbi Solomon B. Freehof and the Rev. Irvin Q. Wood, Legion national chaplain.

WAR NURSES FIND TRACE OF MEDALS DUE ON NOV. 11, 1918

Fifteen years ago the armistice interrupted delivery of two medals conferred by King George of England on two Chicago nurses who had distinguished themselves in nursing the wounded in France. Yesterday the two recipients, Miss Minnie Rettke of 3445 Elaine place and Miss Louise Hostman, night supervisor at Albert Merritt Billings hospital, found out what happened to the decorations that never caught up with them.

Both were attending the tea given by the Chicago posts of the War Nurse association for visiting members at 8 South Michigan avenue, when in walked a brawny Legionnaire. He was looking, he explained to Mrs. Ada Crocker, commander of Jane A. Delano post, for some girls he knew at a base hospital during the war.

"I'm Willis Strange, sheriff of Creek county, Sapulpa, Okla.," he said.

He didn't get any further. Nurses Hostman and Rettke swooped down on him with cries of greeting. They asked about the medals they never got. Strange blushed and confessed.

"I've got 'em—somewhere," he told them. "They came after the armistice was signed and everybody just forgot about everything."

He brought them home with him to America, he related, but became engrossed in his own affairs and in raising a family, and getting elected sheriff. He didn't know where to find the nurses, and so the medals have been put away and all but forgotten. When he came to Chicago he decided to make an effort to deliver them. He did.

SUNDAY EVENING CLUB OPENS; GIVE BARNES OVATION

The crowd that filled Orchestra hall last night at the opening of the 27th season of the Sunday evening club gave an ovation to Clifford W. Barnes, the club president, as he assumed his active leadership again after absence of more than a year due to illness.

Last night's session was dedicated to good will among the nations with Bishop George Craig Stewart of the Episcopal diocese and Rabbi Solomon B. Freehof of K. A. M. temple, the speakers.

Bishop Stewart asserted that the only people who want war are the munitions makers, professional warriors and "incendiary newspapers."

Rabbi Freehof declared that two lies threaten the peace of the world. The first of these lies he said is that one race is superior to another. The second lie, Rabbi Freehof said, is the belief in special destinies for certain nations. The result of this belief, he pointed out, made it possible for a demagogue to spread the doctrine that his nation has been "marked out by fate to rule the world with every other nation an enemy of that destiny."

NEW MEXICO'S UNIT OF LEGION FACES CHARGES

The filing of formal charges against the New Mexico department of the American Legion was authorized last night as the result of alleged participation in state politics by Osborn C. Wood, commander of the department and adjutant general of the state. He is the son of late late Maj. Gen. Leonard Wood.

The authority for filing the charges was given by the national executive committee of the Legion after a closed session lasting several hours, at which the members heard the report of a committee sent to New Mexico to investigate the case. The charges will be tried before a special Legion court.

Wood declared that the present affair is the result of a political fight three years ago between him and Roy Cook, national Legion committee man from New Mexico. Cook brought the charges on the ground that Wood's state position violated the Legion constitution forbidding Legion officials to hold governmental office.

"I don't believe that will take New Mexico's Legion charter away," Wood said.

UNITE FOR PEACE, M'NUTT PLEADS TO EX-FIGHTERS

Urges Fidac to Work for Defense, Patriotism.

BY KATHERINE KELLEY.

Fidac, international peace federation formed thirteen years ago by fighting men of the allied armies of the world war, were told yesterday by Gov. Paul V. McNutt of Indiana, who is a former national commander of the American Legion, that a national defense must be maintained by all nations and patriotism fostered among their citizens until international peace is a certainty. Gov. McNutt addressed the annual Fidac breakfast in the Congress hotel, held in conjunction with the American Legion national convention.

The word "Fidac" is formed from the first letters of the Federation Internationale des Anciens Combattants, its membership of some millions composed chiefly of the American Legion and auxiliary in this country and similar ex-service groups in other lands. Mrs. Joseph H. Thompson, national Fidac chairman, presided at the breakfast. Greetings were given by consuls of other countries and national officers of the American Legion and Fidac.

Urges Uniting to Insure Peace.
"Armed force may win a war and politicians may lose a peace," Gov. McNutt told the group. "Those who once constituted armed forces must unite now as citizens to insure the peace which their victory made possible. In this sense the world war is not done."

"We have been told the guarantee of peace we seek is to be found in written agreements. I grant the usefulness and necessity of solemn covenants, but we are not to be lulled into a false sense of security. A treaty did not help Belgium in her darkest hour. History is full of broken contracts of nations. Assertions of propaganda of the 'professional' pacifists convince us there is no certain formula of peace. It must be earned by fair dealing, tolerance, good will, sacrifice, self-control, and respect for the rights of others."

"Those who served in the armed forces know war is a practical thing and peace is equally practical and has come to be exemplified in Fidac. Permanent peace with honor and security must be based on justice to all, but a better method must be found for dealing with international disputes."

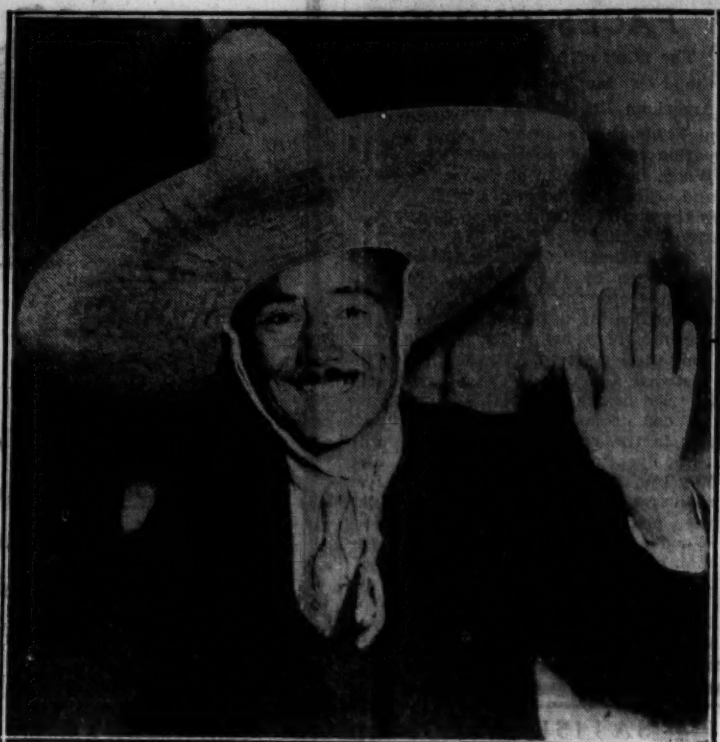

Calls Defense a Necessity.
"Until that time comes each nation to protect its integrity and its existence must preserve adequate national defense. We provide police protection for families, and it is equally necessary for the government. Such precaution will be necessary until man becomes more in the image of his maker."

"Patriotism is likewise necessary," Gov. McNutt continued. "The sort of patriotism that is needed, he said, is that which gives all to the nation without hope of reward. A solution of post-war problems must be marked by mutual assistance and cooperation, he added."

Among others at the speakers' table were Mrs. S. Alford Blackburn, national president of the American Legion auxiliary; Louis A. Johnson, national commander of the Legion; Rene Weiler, French consul; Charles Hann Jr., and Miss Pat Allen, American vice presidents of Fidac, and Princess Cantacuzene, one of the distinguished guests of the Legion convention.

PLANE HITS FENCE; PILOT UNHURT.
Easton, Pa., Oct. 1.—(AP)—Freed down by heavy fog, Samuel Sarge, Cleveland aviator, escaped injury tonight after the wheels of his airplane caught in a fence at the edge of the Easton airport.

Autographed Hat Here for Legion

Ed Hickey of San Antonio, Tex., wearing his large size hat upon which are scores of autographs. He is here for the Legion convention. (TRIBUNE Photo.)

Congressmen Sign

Ed Hickey of Alamo post, No. 2, of San Antonio, Tex., today will visit the national commander and all of the state commanders of the American Legion to collect autographs on another of his collection of 14 "patriotic hats." The hats are "ten gallon" white sombreroes inscribed with the name of governmental officials, athletes, and celebrities. The last hat, the one Hickey calls his masterpiece, has the names of all of the members of the 72d congress and of President Roosevelt and Vice President Garner.

3 CHICAGOANS WIN IN LEGION RIFLE CONTESTS

Three Chicagoans were among the winners yesterday in the American Legion national convention rifle match held at Fort Sheridan. They are Stephen D. Monahan of the North Shore post who tied for first place with a score of 85; Karl W. Selander of the Bell Telephone post, whose 90 tied for fourth place, and E. J. Teberg of the Castle post, who tied for fifth place with a score of 89.

First prize was shared by John W. Fehrmann of the Harold A. Taylor post in Elgin, who also had a 95. Six other men won prizes. They are Conrad E. Nordhus, North Shore post, Highland Park, who scored 94; Fred Ruffolo, Racine post at Racine, Wis., 92; John Anderson of Sturtevant, Wis., member of the Racine post, 90; E. R. Sellick, Des Plaines post, Des Plaines, Ill., 89; Nels Madsen, Racine post at Racine, Wis., 89, and E. Hawcock of Monmouth, Ill., of the Marion-Fletcher post, 88.

OREGON VETERAN GETS IMPORTANT COMMITTEE POST

Carl R. Moser of Silverton, Ore., was appointed chairman of the permanent committee on organization of the American Legion convention last night.

Committee business of the convention will get under way at 4 p. m. today with the meeting of eleven groups on the third floor of the Palmer house, organization headquarters.

'40 AND 8' TRAINS MOBILIZED FOR PARADE TONIGHT

Vets Vie to Reproduce French Cars.

(Picture on back page.)

With bells clanging the motorized imitations of French locomotives and "freight cars" were arriving yesterday and last night for the promenade nationale of the Forty and Eight society of the American Legion. The remodeled automobiles, each vying with the next for originality, slowed down as they reached the Tribune Tower and a few hundred feet north discharged their passengers at the doors of the Medinah Michigan Avenue club, headquarters of the society. The floats, strikingly similar to the "40 homes and 8 heaux"—freight cars which carried American veterans to the front during the world war—will be the outstanding feature of the organization's parade (promenade nationale) tonight. There will be nearly one hundred of the trains, each blazoned with the "volture" to which it belongs, and some daubed with the crazy patterns of camouflage.

Voyageurs in Smocks.
Adding to this riot of color will be the red railroad flares held by the train crews and passengers, "voyageurs militaires," who will be clad in smocks of their respective units and the overseas cap of the American Legion. Then there will be drum and bugle corps and other noise making devices of the Forty and Eight which is known as the "playground of the American Legion."

With William D. Lyons, chef de chemin de fer passe, as grand marshal, and Louis D. Mack, chef de gare of the Chicago volume, No. 220, as marshal, the parade will swing north from Balbo avenue (formerly 7th street) in Michigan avenue at 7 o'clock this evening.

The line of trains and marchers will continue north over the mile and a half stretch to Ohio Street, where it will turn east. At the Chicago Riding club, at McClurg street, the parade will disband for the annual "national wreck" or initiation ceremony.

Review Stand at Washington.
The reviewing stand will be at Michigan avenue and Washington street.

Judging of the "locomotives" and "box cars" will be a preliminary to the parade this afternoon at 3:30 o'clock. Columbian county, O., has a regulation size "engine" and car entered in the contest. The builders, who boast "we didn't have a nail driven until a week ago," are sure their entry will win. A full size dummy horse stands in the car to add to the realistic effect.

A Kentucky volume has a locomotive which sends exhaust gas through the smoke stack—a feature that will be copied by other car builders who saw it yesterday. "This is where we stop at realism," explained one engineer. "We won't carry 40 men or 8 horses like the Frenchies did."

Celebrate 60th Anniversary of Their Wedding Today

New York, Oct. 1.—(Special.)—Mr. and Mrs. Isidor Bloch, who were married in New York during the decade following the civil war, will celebrate their sixtieth wedding anniversary tomorrow. They are each in their eightieth year. Their families emigrated from Koenigsberg, Germany. They had eleven children, eight of whom are living. There are fifteen grandchildren and two great-grandchildren.

200,000 VISITORS ALREADY HERE FOR LEGION CONVENTION

A survey made last night showed that at least 200,000 persons had arrived in Chicago over the week-end for the American Legion's big show and others were still coming. The throngs arrived by automobile, railroad, bus, and airplane.

The rush of visitors will continue throughout today, tonight, and even tomorrow morning, when last minute Legionnaires will hasten into town in time for the parade. The North Shore lines expect their heaviest load, about 4,000, today and tomorrow from Milwaukee, Racine, and Kenosha.

The New York Central lines used 44 extra sections and special trains yesterday to bring visitors to the Legion convention and the Fair. The total number of passengers carried here for the week-end will be greater than 30,000, officials of the railroad predicted.

The Pennsylvania railroad brought in 25,000 visitors in 50 special trains. Twelve extra sections and special trains were used by the Baltimore and Ohio railroad. All the lines reported that there has been no parallel for the traffic movement except last Labor day, when all records were broken.

CHICAGO READY WITH WELCOME FOR ROOSEVELT

He Will Visit Fair and Cermak Grave.

(Continued from first page.)

tury of Progress, and other officials at the Fair, is scheduled for 1 p. m. Commander Johnson and Mrs. Johnson will be guests there at the special request of President Roosevelt.

Troops from Camp Whittier at the Fair will be drawn up for review in the Court of Honor when the presidential party enters the 14th street gate to the accompaniment of a 21 gun salute and the playing of The Star Spangled Banner by an army band.

May Give Up Fair Tour.

Mr. Dawes is desirous of escorting President and Mrs. Roosevelt for at least a short inspection trip of the Fair grounds after the luncheon. That trip, however, may have to be abandoned due to the President's desire of returning to his special train and starting back to New York at 4 p. m.

It was at the President's own request that arrangements were made for him to motor to the Bohemian National cemetery before his departure. There he will lay a wreath upon the grave of the late Mayor Cermak, victim of one of the assassin's bullets that were fired at Mr. Roosevelt in Miami last spring.

President Bids F.A. Delano, His Uncle, Join Party Here

A telegram asking him to join the presidential party at the Stadium at noon today was received last night by Frederic A. Delano, 731 Prospect avenue, Winnetka, an uncle of the President. The message also invited Mr. Delano to make the return trip east in the evening.

LEGION AUXILIARY OPENS SESSIONS THIS AFTERNOON

Old Auditorium to Glow with Color.

BY KATHLEEN M'LAUGHLIN. (Picture on back page.)

Bugles and drums and banners will signalize the opening of the convention of the Legion auxiliary in the Auditorium theater at 1:30 o'clock this afternoon. Mrs. S. Alford Blackburn of Versailles, Ky., national president, will preside.

The historic Auditorium will glow with color during the inaugural tabernacle. A hundred pages, young girls dressed uniformly in white, will pass down the aisles and up on the stage, bearing the flags of the nations and of various units, to be grouped at the back of the stage. Members of the national staff, each draped with the sash of varicolored ribbon symbolizing her office, will be waiting to salute Old Glory as it is borne to the music of Man of War post drum and bugle corps of Lexington, Ky., Mrs. Blackburn's official band.

Princess to Speak.
On the platform also will be Princess Cantacuzene, granddaughter of Ulysses S. Grant, who will address the convention on national defense; Miss Alice Mock, who will launch the ceremonies by singing the "Star Spangled Banner"; the Countess de Chambrun, and others.

The main floor of the theater has been reserved for the 632 accredited delegates and their alternates. The balcony and remainder of the Auditorium will be open to visitors and the public.

Even before the gavel has fallen at the opening session the convention is historic by reason of the action of the national executive committee yesterday in voting the distinguished service medal—the highest honor in its power to bestow—to Mrs. O. D. Oliphant of Trenton, N. J. The decoration has been conferred only twice before.

Mrs. Oliphant, who was head of the auxiliary in 1925, has long been prominent for her work in behalf of national defense. She is the founder of the Women's Patriotic Conference on National Defense, which meets annually in Washington, D. C., and includes in its membership practically every feminine patriotic organization in the country. She was decorated because of her national defense efforts.

Two Others Wear Medals.
Lady Edward Spencer Churchill, who was elected international head of the Fidac auxiliary in Morocco last month, was the first to receive the medal some years ago for her efforts in behalf of disabled veterans. Mrs. Calvin Coolidge received it during her late husband's occupancy of the White House, the citation being for the same achievement—work for wounded and hospitalized veterans.

Several hundred persons attended a reception held by the national officers of the auxiliary in the tower room of the Stevens hotel last night, at which Princess Cantacuzene stood in the receiving line with Mrs. Blackburn. The princess wore a gown of flowered tulle and a silver ornament in her hair.

Former Head of Indiana Board of Health Is Dead

Tucson, Ariz., Oct. 1.—(AP)—Word was received here tonight of the death in San Diego of Dr. James S. Boyers, 81, former president of the Indiana state

board of health and 50 years a physician in Decatur, Ind. For the last four years he had lived in San Diego and Tucson. Dr. Boyers was born in Morgantown, W. Va., July 17, 1852, and was graduated from the Jefferson Medical college. Surviving are his widow, a son, and a daughter.

MARCONI FACES FESTIVE WHIRL AS HE ARRIVES

Crowds Luncheon, Cruise,
Banquet Into First Day.

(Pictures on back page.)

Guglielmo Marconi, the inventor of wireless telegraphy, stepped from a Pennsylvania railroad train in the Union station to embark on a series of receptions, dinners and other functions in his honor. He is here with his wife to visit A Century of Progress and participate in the American Legion convention.

More than a thousand persons gathered at the station to cheer the inventor upon his arrival. He was met by a reception committee of civic leaders, officials, prominent Italian citizens and Legionnaires.

"It seems good to be in Chicago again," he said. "The last time I visited here was in 1917."

His wife, who is tall, blonde and youthful, added, "This is my first trip to America and Chicago. I am, as you say in English, 'thrilled'."

Wife in Blue Traveling Suit.

The inventor, who is a marchese and a senator of Italy, wore a knitted sweater-vest under his blue suit. His wife wore a dark blue wool traveling suit, a snug red and black hat and sandal-type shoes.

From the station the Marconis went to the Drake hotel. A few minutes later they attended mass at Holy Name cathedral. After mass they paid a call upon Cardinal Mundelein. After luncheon at the Casino club they were guests of Commodore Eugene MacDonald for a short cruise on his yacht, *Miznah*. Both Senator Marconi and his wife remarked on the city's skyline. The senator was impressed by the growth of the city since his preceding visit here.

Senator Marconi confessed himself wearied by travel and declared he would like to rest, but would not disappoint those who had made arrangements to attend functions for him. He attended a reception in the afternoon at the Knickerbocker hotel given by the Sons of Italy.

Addresses 2,500 at Banquet. Last night Senator Marconi addressed 2,500 persons at a banquet in the Drake hotel given by the Italians and Americans of Chicago. Gov. Henry Horner, Mayor Edward J. Kelly, Consul General Giuseppe Casaraccio, Dr. Italo F. Volini, dean of medicine at Loyola university, and the Rev. Samuel Knox Wilson, president of Loyola university, were among the speakers.

Gov. Horner paid tribute to Senator Marconi as "the greatest scientist who has forced the elements to bow to his will" and "one of the very great benefactors of the human race." He spoke of the recent visit of Gen. Italo Balbo and the royal Italian air fleet to Chicago and its contribution to Italian-American understanding, and declared Americans regarded Italy as "the mother of art, literature and science."

This morning Senator Marconi will deliver a formal address in behalf of the Italian government at the opening of the Legion convention in the Chicago Stadium. In the afternoon he will be honored for his contributions to science and the development of radio at the Fair. The day has been set aside as Marconi day.

World Broadcast from Fair. The principal event in his appearance at the Fair will be a world-wide broadcast from the court of the Hall of Science from 5:30 to 6 in the afternoon. During the broadcast he will send the letter S around the world.

Countess Szechenyi Visitor in Chicago

Countess Szechenyi, the former Gladys Vanderbilt and wife of Count László Szechenyi, Hungarian minister to England, with her children as she arrived yesterday at the La Salle street station.

(TRIBUNE Photo.)

To Visit Fair

Countess Szechenyi, the former Gladys Vanderbilt, who is the wife of the Hungarian envoy to London, arrived in Chicago yesterday for a two-day visit to the Fair. She was met at the station by U. Grant Smith, protocol officer of the Fair and an old friend of the countess, who escorted her on a tour of the grounds. Count Szechenyi was Hungarian envoy to the United States for twelve years, being transferred to the London post a year ago.

through a chain of radio stations. The letter has been chosen because of its historical significance in wireless. Thirty-two years ago the letter was transmitted in the first signals received across the Atlantic. After the broadcast the star Arcurus will yield to the star Capella as the official illuminator of the Fair grounds in honor of the inventor. Light which left this star 59 years ago—the year of Marconi's birth—will set the Fair ground ablaze with light. Rays of light from the star are to be received in an Italian observatory and transmitted here by radio impulses.

Robber Who Fired Last Shot Into Own Head Dies

Stanley Wonsowski, 18 years old, 3106 West 32d street, a young bandit, died yesterday at the Bridewell hospital of five bullet wounds sustained Sept. 22 at the hands of robbery victims and a sixth wound he inflicted in his own head when trapped. The hold-up was that of Otto and Rudolph Miller, owners of a furniture store at 3030 West 26th street. Wonsowski was fleeing with \$125 when one of the brothers picked up a revolver and shot him. The bandit returned the fire but missed and, after being shot five times, fired his last bullet into his head.

JURY QUIZ SEEN IN AUTO KILLING BY BUBS QUINLAN

Crime Foes Aroused by
Evasion of Penalty.

Grand jury investigation of the means used by Michael (Bubs) Quinlan to escape prosecution on a charge of manslaughter was regarded certain yesterday following the revelation that coroner's records of the case are missing.

Quinlan, a beer gangster who has figured in many south side gun battles, is listed as a public enemy. Recently a warrant was issued for his arrest as a vagabond. The charge was not pressed a week ago last Friday.

The Chicago Crime commission's committee on police, coroner, and sheriff, of which Prof. Ernest W. Puttkammer of the law school of the University of Chicago is chairman, is to meet this week to consider a recommendation in the Quinlan case. A recommendation that prosecution be instituted immediately is expected to be made.

Drives Over Safety Island.

Quinlan drove his automobile over a safety island at 65th street and Ashland avenue on the evening of Jan. 14, 1932, fatally injuring James Borkovic, 45 years old, 6508 Justine street, and permanently injuring Borkovic's wife, Julia. Witnesses and police said at the time that Quinlan was drunk.

After several continuances an inquest conducted by Coroner Frank J. Walsh returned a verdict which, according to health department records, called the death of Borkovic "probable manslaughter." It does not appear, however, that Coroner Walsh issued a mittimus holding Quinlan to the grand jury on that verdict and all the records of the inquest were said to have mysteriously disappeared from the coroner's office in the county building.

All that remains is a routine entry of the death of Borkovic. Originally Quinlan's name appeared on the entry in pencil as responsible for the death, but this later was erased.

Drop Manslaughter Charge.

Records showed that the charge of manslaughter in the Municipal court had been dismissed presumably because the victim's widow refused to prosecute. At the time it was intimated that Quinlan had made a cash settlement with the widow, who is crippled for life.

It developed, however, that Quinlan had not even paid the hospital bills.

PRISON PLOT BARED; PLAN TO SEIZE SIX IN CHAPEL AS HOSTAGES

Philadelphia, Pa., Oct. 1.—A plot to seize six Salvation Army workers in the prison chapel and hold them as hostages while convicts made a series of demands was revealed today by Warden Herbert J. Smith of the Eastern penitentiary, scene of recent riots.

Smith said the Salvation Army workers, three of them women, were to have been seized at the religious services last Sunday.

He asserted the scheme was frustrated by the premature action of four of the leaders, who broke out of a prisoners' line while marching from breakfast to the service. One of them threw pepper into the eyes of a guard, but other guards seized the four men and subdued them after a struggle.

The restless attitude of other convicts after this incident convinced Smith "something was in the wind," and known trouble makers among the prisoners were locked in cells immediately.

Knowledge of the plot came to the warden and other officials through so-called "squealers" among the convicts. What the prisoners' demands were to have been was not learned.

Smith said they might have been the demands presented last week by a prisoners' committee called before the prison board of trustees—radio in every cell, newspapers every day, better food, and discharge of certain guards.

Save for occasional outbursts of shouting among small groups of prisoners in their cells all was quiet in the prison today. Chapel services were canceled, however.

Girl, 13, Is Fatally Shot; Youth Arrested as Slayer

Marlin, Tex., Oct. 1.—Dorothy Raugh, 13 year old Marlin High school student, died today of a bullet wound suffered after a Saturday night motor car ride, and Lee Francis, 18, was arrested. Police said Francis, an ice plant employee, admitted the shooting. Officers quoted him as saying in a statement he did not "intend to kill the girl, but she wanted me to marry her and I fired to scare her." Shot near the heart and unconscious, the girl was found on a highway north of this city today. She died in a hospital.

MINNEAPOLIS ST. PAUL

ILLINOIS AGAIN
STINTED IN EASY
MONEY HANDOUTWest and East Get Big
Share of Funds.

[Chicago Tribune Press Service.]
Washington, D. C., Oct. 1.—[Special.]—Illinois and the central west still get the Cinderella portion of the easy money portioned out by the public works administration.

An analysis of the benevolence of Secretary Ickes during the month of September shows the secretary still showering gifts upon the golden west and the effects east, while his home state of Illinois is thrown a pittance now and then.

It is true that things have picked up slightly for the central western states, especially since the last tabulation, made a month ago in THE CHICAGO TRIBUNE, revealed how shabby they were being treated.

But Illinois received allotments of \$14,917,624 in September, only 3 1/2 per cent of the total of \$382,070,772 allotted during the month. And Illinois gets 7 per cent of the federal tax bill.

Chicago Allotments.
The five Chicago-area states—Illinois, Indiana, Iowa, Michigan, and Wisconsin—pay 13 per cent of taxes and were allotted \$47,742,572, or 12 1/2 per cent of the total.

To date, the public works administration has allotted \$1,652,591,410, and of this sum Illinois has obtained \$44,841,949, or 2 3/4 per cent. The north-central states have received \$138,382,537, or 8 per cent.

All of which shows that Chicago is continuing to lick the pot and the spoon.

The west, particular favorite of Secretary Ickes, obtained \$38,366,532 in September, or 23 per cent, and the west contributes only 8 per cent to the federal treasury costs.

To the east went the handsome sum of \$122,573,500, which was 32 per cent of the total. The east's share of the tax bill is 45 per cent.

The south, tagging behind, but not so far as the north central states, was given \$76,195,036, or 20 per cent, and the south pays 23 per cent of federal taxes. The territories and possessions of the United States, paying 1 per cent of the taxes, were allotted \$5,406,023, or 1 1/2 per cent of the easy money.

Half of Huge Fund Allotted.

Secretary Ickes, in making public the full list of allotments to date, took comfort in the fact that the total has gone over the halfway mark of the 3 billion 300 million which is to be spent for public works. He has been criticized for not getting it spent faster, because almost no employment has been created, proportionately to the number of jobs, up to the present time.

But he insisted that he was going to continue requiring proof that projects submitted were useful and could be properly financed before he approved them.

"Under the course PWA has chosen," Mr. Ickes said, "we are assured approximately 85 per cent of the total fund will go into wages—and that is where we want it to go."

"I also know that if the entire 3 billion 300 million dollars had been dissipated without care and consideration, fewer projects could have reached the construction stage or men have gone to work than under the plan we follow which has cumulative effect. However, we know that if reckless blanket allotments of the total fund had been condoned there would have been no chance of any large proportion of the public works dollars ever going into pay envelopes.

Defends Speed of Administration.
"Since the public works administration in its present form started from nothing, allotments have been made at the rate of \$137,799,284 per week—an enviable record for speed even in this day of great federal generosity for a great purpose."

"Inspired agitation to knock off all shackles, including safeguards wisely written in the law by congress and to permit unregulated spending under the guise of thus hurrying the re-employment program, will continue. This has and will be resisted."

"I do not deem it the intent of congress, as shown by the act under which the public works administration functions, that any such unrestricted orgy of flinging millions of public dollars toward unknown destinations be tolerated."

"I will not be a party to any such program. I do not believe citizens wish me to aid such schemes."

Refutes His Critics.
"Those seeking to get huge blocks of the public's 3 billion 300 million dollar fund for recovery under irresponsible control for perfectly obvious reasons have fostered a propaganda that PWA is so afraid of scandal, graft, and misuse of funds that it has been unable to free itself for action. This self-serving statement is met by the vast total of allotments already made with celerity."

"I am unwilling to subscribe to the surprising doctrine—now openly advocated—that 15 to 20 per cent of waste or misuse of funds or graft is reasonable in the public works program and should be permitted by abandonment of regulations."

"The public works administration story has been and will be kept an open book."

"To that end all allotments from the 3 billion 300 million dollar fund have been announced in detail from day to day as the allotments were made."

Rheumatic Happy; Conquers Torture
Specialist's Prescription
Stops Pain at Once

So many thousands have found quick relief from the torturing pain of neuralgia, neuritis, sciatica, lumbago and rheumatism through Nuroto that it is now eagerly sought by sufferers everywhere. It was discovered by a Famous Specialist noted for the real relief of his own prescription banishes pains and aches. He has finally been persuaded to place it at the disposal of the general public through Walgreen drug stores everywhere. Nuroto contains no opiates or narcotics and is absolutely harmless. If the very first three doses of Nuroto do not stop the most intense pain even of many years' standing—your money will be instantly refunded. If you want to feel again the joy of living, you need less agony that prevents sound sleep, go to Walgreen's now and ask for Nuroto, under this money-back guarantee.

NUROTO FOR NEURITIS PAIN

HOW U. S. SPENT ITS EASY MONEY
TO NEGLECT OF MIDDLE WEST

Washington, D. C., Oct. 1.—[Special.]—The following tables show how easy money in the federal public works fund has been doled out during the past 30 days.

The first table shows the sums allotted in the month of September to the north central, the southern, eastern, and western states, and the percentage of easy money given to each section as compared with the percentage of federal taxes paid in 1932. The table also shows the totals allotted to date.

Section	September	Pct. of total	To date	Pct. of total
Ill., Ind., Mich., Wis., Iowa	\$47,742,572	12 1/2	\$138,382,537	8
East	122,573,500	32	538,575,390	28
West	88,366,532	23	879,561,463	25
Territories	75,195,036	20	327,089,230	20
General	5,406,023	1 1/2	17,833,680	1
Total	41,790,319	11	267,178,888	18

The succeeding tables show the itemized allotments made in September to the various sections of the country, as well as those of a general classification which cannot be broken down by states.

BRITISH LABOR
URGED TO CREATE
DICTATORSHIP

[Chicago Tribune Press Service.]
LONDON, Oct. 1.—Pure theory clashes with hardfisted European political evolution in Hastings tomorrow when the British Labor party meets.

One strong group is urging the party to decide whether future opposition to the Tories shall not be on the basis of physical as well as political attacks.

A violent offensive is being demanded of said party leaders by intellectual young firebrands. They want something drastic in the way of a human dictator. They are led by Sir Stafford Cripps, solicitor general in the last Labor government. Col. Cecil Malone, a mystery man in British politics since the general strike, and the Socialist league are supporting Cripps.

The conservative wing of the Labor party is led by Arthur Henderson, president of the disarmament conference and foreign secretary in the last Labor government. Henderson wants his revolution by peaceful enactment.

A revolt against the older leaders cropped out in a pre-convention meeting tonight. It was led by Socialist leaders, but no vote on future action was taken.

FARMERS OPPOSE
RESALE PRICE IN
RETAILERS' CODE

The American Farm Bureau federation started yesterday to enlist opposition to the resale price maintenance provisions in the NRA codes of the retail drug industry and the so-called master code for all retailers. It was announced by its legislative director, Chester H. Grey.

"These two codes," said Mr. Grey, "contain provisions for resale price maintenance which congress has considered for ten years and has refused to impose upon our consuming public."

The provisions in these two proposed
codes will widen the spread between
producers and consumers, and if adopted
will do more than anything else to
wreck the NRA and the AAA.

"Whether a manufacturer is allowed to follow his product to the final consumer with a maintained price of 10 per cent, or any other definite percentage, or is allowed absolute freedom in stating his own price and requiring it to be charged over the retail counter, the principle is iniquitous. We need to realize in these times that when the purchasing power of the average citizen, town or country, is none too high, that we need protection rather than exploitation over the retail counter."

MONEY DECISION CALLED KEY TO RECOVERY CRISIS

Expect Roosevelt Will Act
Quickly.

BY ARTHUR SEARS HENNING.
[Chicago Tribune Press Service.]

Washington, D. C., Oct. 21.—[Special.]—The national recovery machinery is slowing down with a heave and bump and all the engineers, including the dictators, deputy dictators, and brain trusters, are running around in circles trying to get the pesky thing geared into high again.

The architects of the new deal are blaming each other for its failure to work out according to the blue prints while some of them make no bones of fixing the blame on the uncertainties of the Roosevelt monetary policy.

As one moves about in the vast new bureaucracy created to carry the new deal into effect, one hears it said with increasing frequency that only the President can save the huge undertaking from a colossal smashup. And there is increasing confidence that Mr. Roosevelt will act with little further delay, possibly in his speech at the American Legion convention in Chicago tomorrow, to dispel apprehension and revive the recovery drive.

Deciding Monetary Policy.
While concentrating all his activities up to date on the expansion of credit and the release of frozen deposits in closed banks, the President is known to have under consideration the announcement of a monetary policy designed to restore confidence to the business world. Various recommendations to this end have been submitted to him by his official advisers and by unofficial members of his brain trust. By some he has been urged to restore the gold standard with a devalued dollar and embark upon an experiment with a "commodity" or "compensated" dollar, the object of which would be to maintain an unvarying purchasing power of the monetary unit.

By the more conservative of his advisers he has been urged to content himself with a declaration of the intention to stabilize the dollar as soon as feasible and return to the gold standard at the earliest possible moment, the effect of which, in their opinion, would be to reassure the business community that inflation of the currency is not to be resorted to.

The inflationists have not had the ear of the President of late and he has discouraged their advances, but they are waiting on the side lines confident that all other expedients to speed up recovery will fail and that Mr. Roosevelt will be compelled in the end to come to outright inflation of the circulating medium.

Farm Dissatisfaction Growing.
Over at the department of agriculture George Peek and his associates

FLUCTUATIONS IN FARM PRICES

Washington, D. C., Oct. 21.—[Special.]—The following table prepared by the statisticians of the agricultural adjustment administration shows the percentage which the actual price of farm products this year was of the parity price of 1910-14. The parity price is the price the farmer must receive in order to maintain the same purchasing power as in 1910-14.

NRA OFFICIALS STRIVING TO END MINE WARFARE

Disorder Seen as Peril to
Industrial Peace.

BY JOHN BOETTIGER.
[Chicago Tribune Press Service.]

Washington, D. C., Oct. 1.—[Special.]—Miners in rebellious mood continued their marchings about the steel and coal lands of Pennsylvania today as officials here strive for an agreement to end a warfare now conceded to be fraught with grave peril for the peace of industry and NRA.

The grumblings of the miners went unheeded for a full ten days while Donald Richberg, general counsel for the NRA, delayed starting the negotiations on a proposed agreement which lay on his desk all that time.

And now the situation has about gotten out of hand, with nine operators fearful of rioting and destruction of their properties and mine union leaders worrying whether they can subdue the inflamed miners and induce them to accept a reasonable solution for peace.

Want to Know Terms.

When President Roosevelt approved the formula by which the labor relations were prescribed for miners and owners in so-called "captive mines," owned by steel companies using full outputs—it was assumed the miners would be assured and cease their efforts to spread their strike over a wider area. But the miners, it was stated, wanted to know the terms of the formula, and whether it contained recognition of the United Mine Workers, and meanwhile they have continued their marches and disorders and intimidations against the workers not only in other coal mines but in the shops and mills of the steel companies themselves.

Last night Gen. Hugh S. Johnson, directing the peace efforts now from his hospital bed, predicted confidently, as he has on so many past occasions, that the formula which he expects to produce peace would be approved by noon today.

Submits Plan to Lewis.

At noon it was stated that the general would receive no newspaper men. This evening he submitted to John L. Lewis, president, and Philip Murray, vice president of the United Mine Workers, who called at the hospital, the final draft of the formula as it had been agreed to yesterday by the steel company officials.

Johnson informed Lewis that the formula contained the last concessions the operators would make. It was stated, and after a lengthy discussion the union leaders departed.

Lewis went to lay the formula be-

COUNCIL'S VACATION TO END WEDNESDAY; FACES 3 BIG TASKS

Members of the city council will convene on Wednesday at the call of Mayor Kelly for their first regular session of the fall, ending the summer recess during which they took a vacation from city legislative affairs.

While little of importance has accumulated in the basket kept by City Clerk Brady for communications to the council, there are three ordinances in the office that will call for hard work and extended committee sessions. They are the annual appropriation bill, a liquor control ordinance, and a new building code.

A citizens' committee has been revising the old building ordinances for more than six years. Some of the changes, which will result in lessening building construction costs and permit the use of materials heretofore barred, have been given to a subcommittee of the council building committee.

It is likely, according to the aldermen, that before the building committee becomes enmeshed in the new code the license committee will have been called into session to prepare for the regulation of the liquor trade in Chicago. Little work can be done, however, said Ald. Terence F. Moran (18th), license chairman, until the council knows what powers will be delegated to it by the state legislature.

The annual budget always is a subject for long sessions in the finance committee. Each year since 1931 the amounts set up for expenditure by the various city departments have been reduced from the preceding year.

fore the other officers of his union, particularly those in command of the Pennsylvania locals, and late tonight the union men were still in session, the formula, and whether it contained recognition of the United Mine Workers, and meanwhile they have continued their marches and disorders and intimidations against the workers not only in other coal mines but in the shops and mills of the steel companies themselves.

Would Abide by Code.

It was learned that the formula sets up the willingness of the steel companies to operate their coal mines on a basis of wage scales and hours of work as set forth in the soft coal code, but according to reports the formula does not in any way constitute a recognition by the operators of the United Mine Workers. The steel men have voiced the fear that Gen. Johnson that if they give in to demands that they deal with the coal miners' union they will be laid open to similar demands from their own steel workers to deal with their union.

As a matter of fact several hundred workers in the Carnegie Steel corporation, a subsidiary of the United States Steel corporation, have insisted upon recognition of the steel workers'

international union. But the steel men have been setting their jaws grimly against letting the unions into their plants.

Union leaders declared their insistence that unless the formula goes much further toward meeting demands of the miners for recognition of their union, it will not restore peace in Pennsylvania and West Virginia even if the union leaders, Lewis and Murray included, agree to its terms and try to sell it to the rebel miners.

It was not known whether the formula attempted a compromise of the situation, but it has been stated by the steel leaders that they will not deal with the United Mine Workers on any basis. In the absence of any statement from Johnson as to what he has in mind, his optimistic promise had to be taken as indicative of some "surprise" settlement he might have in the making.

Meanwhile, the full significance of the strikes in Pennsylvania is dawned upon the NRA consciousness. Fears that the movement will grow to the point where the miners will refuse to go back to work, and where they might carry on a fierce battle to unionize the steel mills as well as the coal mines, were expressed. The steel operators are among the veriest die-hards in the struggle against unionism and a long, bitter warfare might result if the peace in this present crisis is not signed quickly.

Recall 1919 Struggle.

Observers are recalling that in 1919, when the coal mines were closed in a long feud, all the outside coal operators signed up with the unions, but the "captive mines" stayed outside the pact, and 60,000 miners were forced at last to give in and go back, beaten, to their jobs. The miners are talking about that defeat also, as they go about urging a finish just this time.

Other fears are expressed in NRA circles that the strike may spread to the anthracite coal fields.

The soft coal code becomes effective tomorrow, and all mines, whether "captive" or in open competition, must put into effect the wage and hours scales or risk violating the code.

FOUR BOYS SEIZED AS ROBBERS BY PURSUING POLICE

Four youths were captured and identified last night as the robbers who, a few minutes before, took an automobile from William Adams Jr., 3734 Archer avenue, at 35th street and Western avenue. Adams, a student at Marmon academy in Aurora, was threatened and forced to alight when he stopped for a traffic signal.

A squad commanded by Sgt. James McInerney of the state's attorney's office happened along and Adams pointed out the way the robbers had gone. After several blocks' chase, in which the police fired several shots, the youths were captured. Three revolvers were found along the route they had taken.

The prisoners, all of high school age, identified themselves as Edward Courtney, 5640 South May street; Michael Spano, 5732 Throop street; Edward Pieroni, 5210 Lowe avenue, and Ray Bratto, 7555 Normal avenue.

1932 PERSONAL TAX SCHEDULES MUST BE FILED BY SATURDAY

County Assessor J. L. Jacobs announced yesterday that next Saturday, Oct. 7, is the deadline for the filing of 1932 personal property schedules. If the taxpayer fails to file a schedule by that date, the assessor, according to the statute, will have the property appraised through his office and will add a 50 per cent penalty to the assessment.

Mr. Jacobs said the personal property schedules had been mailed to all city and country towns and that the assessment rolls were being completed and transmitted to the board of appeals. The board of appeals will begin the hearing of complaints on the assessment on Wednesday.

The assessor disclosed that 1,099,347 schedules were mailed out this year. The comparison of the number of schedules mailed out to the various towns for the last three assessments is shown in the following table:

Town	1932	1931	1930
Rogers Park	27,415	23,664	10,001
North	30,400	29,661	10,078
Lake View	314,250	33,841	23,776
Hyde Park	168,478	121,014	43,800
Jefferson	139,400	105,432	24,736
West	231,541	161,108	36,011
Lake	317,477	98,127	34,263
South	161,426	75,433	33,810
Country towns	168,029	133,263	82,649
Totals	1,099,347	827,633	379,374

The assessor said that the total personal property assessment for 1932 could not be determined until the books were closed and reviewed.

NO RECOGNITION TALKS IN RUSSIA, M'ADOO INSISTS

PARIS, Oct. 1.—(AP)—Senator William G. McAdoo of California, returning here today from an airplane trip to Moscow, asserted he had engaged in "neither official nor unofficial" discussion of recognition of the soviet government.

He "had long and pleasant talks" with Foreign Commissar Litvinoff, the senator said, but not on the subject of recognition.

During two half day visits, however, he "used eyes and ears" and "gained the impression that Russia would be pleased with recognition." Mr. McAdoo said he was "well impressed" with what he saw in Moscow and glad to have seen conditions for himself.

First Parachute Jump Fatal; Fails to Pull Cord

Saginaw, Mich., Oct. 1.—(AP)—Apparently failing to pull the rip cord, Edward Brandt, 39, died today in making his first parachute jump. He stepped from the wing of a plane at an altitude of 2,400 feet over city airport and fell to his death within sight of about 100 persons.

TRACE 1 MILLION BANK ACCOUNT OF SAMUEL INSULL

Suit to Demand Seizure
of Hidden Money.

[Continued from first page.]

ing companies and investment trusts, who have been led to believe that Insull sacrificed his entire personal fortune, once estimated at \$100,000,000, in an effort to avert the crash of his utilities.

The petition reviews the history of the Insull utility industry, analyzes its structure at the time of the collapse in April, 1932, and makes the same charges on which Samuel Ettelson blocked the confirmation of Calvin Fairless, former receiver of Insull Utility Investments, Inc., as trustee of the company in Federal Circuit Court's bankruptcy court. These charges are that Insull dominated the receivership proceedings against his companies and secured the appointment of receivers personally selected by him.

Arranges for Receivership.

In order to cover up and hide his said criminal, fraudulent and unlawful acts, doings and misdeeds in the management, control, misuse and manipulation of the properties and assets of said respective corporations," the bill reads, "he, the said Insull, in confederation with others whom he controlled or influenced, had said respective corporations placed in equity receivership in this court, and in so placing said corporations in said receiverships he, the said Insull, selected and approved the men (among

whom was himself) who should act as receivers for said respective corporations, as well as the attorneys at law who were to act as solicitors for said receivers."

As the basis for the contention that the alleged Insull bank account should be seized and distributed among the creditors of the Insull companies—namely, Middle West Utilities company, Insull Utility Investments, Inc., and Corporation Securities company, Insull is accused of fraudulently converting assets of his companies to his own purposes.

Claim Assets for Creditors.

"Plaintiff avers," states the petition, "that by reason of the wrongful and criminal acts and conduct of said defendant, Samuel Insull, in dominating and controlling the business and affairs of said respective corporations, and in using, manipulating, and juggling the properties and assets of said corporations to his own great financial gain and profit, all of said personal gains and profits and all moneys received by the said Insull in so using, manipulating, and juggling said properties and assets became and were and equitably belong to said corporations in their rightful proportions."

The suit in equity, to be brought in the name of Lowry, who is a bank cashier, invites all other creditors of the three insolvent Insull concerns to join him in the proceeding.

The court is asked to issue subpoenas for the defendants to appear for examination on the first Monday in November, to issue a temporary restraining order against the Harris bank pending a final hearing, to impound the gold bullion and securities, and to order an accounting of the same to determine the proportions in which they should be distributed to creditors.

Carpenter Fatally Beaten; Seize Negro with Watch

Walter Strand, 45 years old, 4437 North Whipple street, a carpenter, was found fatally beaten early yesterday at Lake street and Western avenue. After Edward Hallquist, 4345 North Sawyer avenue, who had been his companion on a drinking excursion, had told police that they were set upon by four or five Negroes, who routed him and knocked Strand unconscious, police arrested Walter Hobson, 2230 West Austin avenue, a Negro, in whose possession they found Strand's watch.

MAIL STEAMSHIP LINES ACCUSED OF PROPAGANDA

Washington, D. C., Oct. 1.—(AP)—The senate committee investigating ocean mail contracts will swing from its study of ship subsidies tomorrow long enough to peer into alleged propaganda of the steamship lines.

For this purpose, Senator Black (Dem., Ala.), committee chairman, has called H. J. Baker, secretary-treasurer of the American Steamship Owners' association, as a witness.

A former schoolteacher, Mrs. Clara W. McQuown, told the committee that she was employed at a salary of \$200 a week. While serving the association, she testified, she was authorized by Chairman H. L. Cone of the United States shipping board to lecture.

Mrs. McQuown told Black that Cone "would not have permitted me to speak unless I was employed" by the association.

TEN INJURED IN EXPLOSION.

Houston, Tex., Oct. 1.—(AP)—Ten were injured, several critically, by explosion of a tube in a well at the American Petroleum company refinery at Norwalk terminal today.

SURFACE LINES WILL GO UNDER THE NRA TODAY

The 16,300 employees of the Chicago Surface lines will begin operating today under the provisions of the NRA code for electric railways which was recently signed by the company. This will mean the addition of new employees, the exact number of which has not been determined, Guy A. Richardson, head of the surface lines, said yesterday. He further pointed out that the code will not materially affect the hours of work or the wages. He said the surface lines have been paying the highest wages of any street car system in the country.

OLD GOLD

FARMERS FIRST IN NATION, HITLER TELLS 700,000

All Germans Join Harvest
Celebration.

(Chicago Tribune Press Service.)

HAMPELN, Germany, Oct. 1.—Seven hundred thousand farmers and peasants gathered on Buckeberg hillside near here today for the national harvest festival of thanksgiving and fraternally cheered as they heard Chancellor Hitler declare:

"The farmer is the most trustworthy supporter of the present and the sole guarantor of the future."

All Germany joined in the celebration. All the resources of Nazi propaganda were called into play. Cities and towns in all corners of the land were profusely decorated. Citizens wore poppies in their buttonholes. Farmers bore such slogans as "the peasant is the backbone of the state." Flowers with picturesque rapiers and harvest products contributed to the scene.

Describing the Hameln gathering as the greatest of its kind the world had ever seen, Hitler continued:

"We know that the ruin of German farming would mark the end of the German people. The meaning of our political fight and struggle is not the winning of conquering of foreign peoples but maintenance of and security for our own folk. Therefore we stand up with determination for German farming. We recognize neither compromise nor half measures."

Farm Office Away from City.—Statistics of population demonstrate that the future of the nation today entirely depends upon the maintenance of farmers.

Hitler promised that "it will be the primary task of the government to maintain the farming element with all means and under all circumstances. Ruined industry can be revived, but ruined farming cannot again be called to life at will."

The chancellor again emphasized that "unity of the spirit and will of the nation must be estimated higher than the freedom of spirit and will of the individual. The higher vital interests of the whole community must fix the limits to the interests of individuals."

Walter Darré, minister of agriculture, announced that the headquarters of the "German Farmers' corporation" will be located "in the heart of a pure German farming land on the northern slope of the Harz mountains. This will emphasize that the 'asphalt wilderness' of the city shall no longer determine the fate of farmers."

Given Bismarck's Pen.—Dr. Joseph Goebbels, minister of propaganda and enlightenment, started the day's celebration by broadcasting a speech on the vital importance of a union between town and country. A score of foreign diplomats, including virtually all representatives of South American governments, were conveyed to Hameln by special train.

Chancellor Hitler, flying to this town tomorrow for his Pied Piper, was accompanied in other planes by his whole cabinet and numerous delegations of farmers.

Earlier in the day in the historic congress room of the chancellery, Berlin, Hitler received deputations of farmers who had arrived in the capital by plane from all parts of the reich. In behalf of the Reich Union of German Diplomats and Farmers, the president, Dr. Kummer, presented Hitler with a decorated oak casket containing the goose quill pen used by Bismarck.

"The founder of the German reich used this pen on the day when he declared, 'We Germans fear God, but nothing else in the world,'" Dr. Kummer reminded.

Find Body of Murdered Jewish Youth in Danube
VIENNA, Oct. 1.—The body of a well dressed Jewish youth was found in the Danube today, near Ebfürding, not far from the German frontier. His clothes bore the name of a Nuremberg tailor. His hand had been stabbed through several times and his face had been badly beaten. It is probable he was murdered in Germany and thrown into the Danube.

ACCIDENT VICTIM

William J. Louderback Jr., who was killed when struck by a taxicab after it collided with another car.

(Tribune Photo.)

PEDESTRIAN HIT BY BULLET IN HOODLUM CHASE

John Libera, 22 years old, 3456 South Hermitage avenue, was wounded in the left thigh yesterday by a stray bullet fired during a chase of four youthful automobile thieves by Lieut. Andrew Barry and his squad. Libera was walking along the street when struck by a bullet that glanced off the stolen car in which the youths were riding.

The four were captured at 39th street and Ashland avenue. They identified themselves as Edward Courtney, 21 years old, 5416 South Morgan street; Edward Plouffe, 22 years old, 2219 Lake avenue; Ray Brayton, 21 years old, 7845 Normal boulevard, all with minor police records, and Michael Spans, 22 years old, 5732 South Throop street. They had just robbed William Adams, 3734 Archer avenue, an undertaker, of his money and car.

PLANE CARRYING PICTURES OF R-101 RITE FALLS; 3 DIE

(Chicago Tribune Press Service.)
LONDON, Oct. 1.—Three occupants of an airplane returning with photographs of the R-101 memorial ceremony at Beauvais, France, were killed this afternoon when the ship crashed in a fog near Sandhurst, Kent.

The victims were Capt. A. J. Styrant, the pilot; Ian MacGillchrist, chairman of the British Air Navigation company, owners of the plane, and Bertram Wilson, a newspaper photographer.

Two hours after the crash Prime Minister MacDonald, accompanied by Lord Londonderry, minister of air, passed over the plane's wreckage in an Imperial Airways liner, later landing at Orkney. Their landing was delayed by the bad flying weather. They, too, were returning from the rites for the victims of the dirigible tragedy.

GERMANY AVERS NATIONS OWE HER SLASH IN ARMS

BERLIN, Oct. 1.—(AP)—With world attention focused on Germany's attitude toward disarmament, the nation's official view was revealed today as placing the country in the position of a creditor, to whom other nations, as debtors, must make offers for disarmament.

The official opinion may be summed up as follows: Germany, because she has disarmed in accordance with the treaty of Versailles, has a legal claim to the disarmament of other nations. It is the duty of other nations to inform Germany, as their creditor who holds armament claims against them, just how they propose to meet that claim.

BRITAIN SPURNS FRENCH BID FOR SECURITY PACT

Warns Paris to Disarm or
Lose English Friendship.

BY EDMOND TAYLOR.

PARIS, France, Oct. 1.—While the general French public is feeling slightly reassured at the demonstration of Franco-British amity around the monument to the victims of the R-101 air tragedy at Allonne, near Beauvais, today, inner political circles understand that after the ceremony Prime Minister MacDonald warned Premier Daladier that the French must abandon hope of obtaining an effective security pact as the price of laying down arms.

The occasion was the dedication of the monument to the crew of the ill-fated dirigible which crashed near Beauvais Oct. 5, 1930, with a loss of 48 lives.

Daladier Warned to Disarm.—Though indicating that Great Britain remains ready to join some sort of a vague consultative pact, MacDonald is reported to have made it plain to Daladier after the dedication that England's stand is essentially the same on security as America's—no blanket undertaking to intervene by arms in European wars.

On the other hand Daladier was warned that unless France resigned herself to disarmament without formal security pacts she would lose the spontaneous British friendship which is her best guaranty of assistance if attacked.

All this apparently was not put forward with such brutal frankness, but represents the rather discouraging impression Daladier carried away from the encounter, if reports current tonight are exact.

Avoids Serious Parley.—The mere fact that MacDonald did not give Daladier a chance to hold a serious conversation with him is interpreted unfavorably here. Seated between the British ambassador, Lord Tyrrell, and MacDonald during the luncheon at the city hall at Beauvais, after the ceremony, Daladier was able to talk of the European political situation, but only in general terms. Subsequently he took a short stroll alone in the garden with MacDonald, but not long enough to go deeply into the disarmament question.

The French were bitterly disappointed at this. They had wanted, first, to have a big post-war conference with Sir John Simon, British foreign secretary, and Joseph Paul-Boncour, French foreign minister, coming up from Geneva to join them.

The question of guaranteeing French frontiers against invasion and giving France the right to apply her own sanctions if Germany violated the disarmament convention now in the progress of gestation, was due to be talked by the French, and the British were to be pressed for a showdown.

Daladier Put in Hole.—Daladier now is in a serious hole. France has gone so far in the way of conceding the principle of disarmament that it is almost impossible to back out. In the next two or three days—before the Germans return from Berlin to Geneva with a disarmament proposition—Daladier must face a terrible dilemma—either to lose all support from Italy and Britain in case of future German aggression, or to sacrifice the French army's present superiority in return for the moral support of the whole world and the improvement of the European atmosphere.

Frenchmen representing the parties of the right prefer the former evil, declaring France must enforce her will on Europe while her army is still strong enough to do so.

Pertinax Attacks Daladier.—In this connection the noted political writer, Pertinax, in tomorrow's Echo de Paris will accuse Daladier and Foreign Minister Paul-Boncour of offering to reduce the French army and cut the term of military service in return for concessions from Germany, without consulting or advising the cabinet.

Pertinax declares Daladier and Paul-Boncour have agreed to trim the army to 200,000 men and cut the military service to six, seven, or eight months.

The situation from the French point of view is further complicated by the new Italian scheme for economic organization of central Europe, which in the political field is designed to break up the pro-French Little Entente.

GERMANS LIMIT THEIR SUNDAY DINNER TO ONE 17 CENT STEW

BERLIN, Oct. 1.—(AP)—A well disciplined German public limited its Sunday dinner today to one "hot pot," without trimmings, soup, dessert, and fruit, costing not more than 50 pfennigs (about 17 cents).

The gastronomic restrictions were in accordance with a government injunction putting each German on his honor to limit his eating and turn over the balance of what the usual Sunday dinner would have cost to the winter relief fund. Housewives had been supplied through the government with copious suggestions on all kinds of stews and like dishes.

Restaurants, from the de luxe variety to the humblest of cheap eating houses, restricted their menus to the prescribed "eintopfgerichte." Dining cars on trains, even the special cars carrying diplomats to the big harvest festival at Hameln, were subjected to the same rule.

Customers cheerfully acquiesced, as the restrictions only operated up to 5 o'clock in the afternoon, anyway. Storm troops with collection boxes reaped a rich harvest of coins and bills. A similar "simple life day" is planned for the first Sunday of every month during the coming winter.

sanctions if Germany violated the disarmament convention now in the progress of gestation, was due to be talked by the French, and the British were to be pressed for a showdown.

Daladier Put in Hole.—Daladier now is in a serious hole. France has gone so far in the way of conceding the principle of disarmament that it is almost impossible to back out. In the next two or three days—before the Germans return from Berlin to Geneva with a disarmament proposition—Daladier must face a terrible dilemma—either to lose all support from Italy and Britain in case of future German aggression, or to sacrifice the French army's present superiority in return for the moral support of the whole world and the improvement of the European atmosphere.

Frenchmen representing the parties of the right prefer the former evil, declaring France must enforce her will on Europe while her army is still strong enough to do so.

Pertinax Attacks Daladier.—In this connection the noted political writer, Pertinax, in tomorrow's Echo de Paris will accuse Daladier and Foreign Minister Paul-Boncour of offering to reduce the French army and cut the term of military service in return for concessions from Germany, without consulting or advising the cabinet.

Pertinax declares Daladier and Paul-Boncour have agreed to trim the army to 200,000 men and cut the military service to six, seven, or eight months.

The situation from the French point of view is further complicated by the new Italian scheme for economic organization of central Europe, which in the political field is designed to break up the pro-French Little Entente.

HEAD OF PANAMA SAILS TODAY TO SEE ROOSEVELT

(Chicago Tribune Press Service.)

PANAMA CITY, Oct. 1.—President Harmodio Arias will sail tomorrow for Washington, D. C., to discuss with President Roosevelt problems pending between Panama and the United States. He will be accompanied by Manuel J. Diaz, assistant manager of the Panama Canal Company, and Domingo Diaz Arosemena, first vice-president, will act as president during Dr. Arias' absence.

Authorities have declared tomorrow a national holiday. The Supreme Court will inaugurate Arosemena as president pro tem. Thousands plan to bid Dr. Arias farewell. The president will request the United States to cease competing through its Canal Zone commissaries, with Panama merchants. He particularly desires to end the importation of American beer. He charges that the American brew has an unfair advantage over the product of local breweries which are taxed heavily.

Dr. Arias also will request the United States to give Panama a chance to secure the steamship supply business. Panama's biggest request of the United States will be to hand over the properties in Colon which now are managed by the United States owned Panama railroad. These properties include canal employees' residences, clubhouses, a school and hotel from which the railroad collects \$250,000 a year in rent.

RESTAURANT OWNER IS STABBED.—Friedrich Michael, owner of a restaurant at 687 North Clark street, was stabbed in an arm early yesterday by a customer when he interrupted an argument between two men and another in his restaurant.

FAIR ATTENDANCE PASSES 250,000; NEAR 2D HIGHEST

Upturn Cheers Officials
as Last Month Opens.

Paid attendance figures for A Century of Progress Exposition and for corresponding periods at the 1893 Columbian Exposition follow:

Saturday, Sept. 30, 1933	180,444
Saturday, Sept. 30, 1893	168,822
Total including Sept. 30, 1933	17,312,790
Total including Sept. 30, 1893	17,312,790
Total including Sept. 30, 1933	17,312,790
Total including Sept. 30, 1893	17,312,790

The Columbian Exposition opened May 1; A Century of Progress opened May 27.

BY EARL MULLIN.
Attendance at the World's Fair topped yesterday, exceeding the third highest figure previously established and coming within approximately 5,000 of the second highest.

Admissions up to 11:30 p. m. totaled 250,420. Previously the third biggest day was Friday, Aug. 18, with 247,858. Yesterday's attendance has been exceeded only by Sept. 2, the Sunday before Labor day, when there were 267,064 visitors, and Friday, Aug. 25, with 272,924.

Officials were particularly cheered by the fact that the upturn in attendance came with the opening of the final month of the Fair. September as a whole was disappointing to them.

Average Drops in September.
September was the only month since the Fair opened in which the daily average attendance fell. The daily averages are: May, 69,540; with the Fair open 3 days; June, 63,150; July, 73,570; August, 133,629; and September, 133,529. September also was the only month in which the daily average was lower than that of the Columbian Exposition of 1893. The daily averages at the old Fair were: May, 33,872; June, 39,170; July, 49,403; August, 113,403; and September, 155,429.

The total attendance up to Oct. 1 at the old Fair was 14,690,777, while the total attendance at A Century of Progress Exposition as of yesterday morning was 17,312,790. In that period the Columbian Exposition had been open an additional month. During the final month at the old Fair the daily average was 219,379 with a grand total of 8,819,364 paid admissions. The Oct. 1 attendance at the old Fair was 45,525 as compared to yesterday's record breaking throngs. However, at the old Fair Sunday attendance was invariably low.

Pass 200,000 in Mid-afternoon.
Yesterday's crowds started pouring through the gates as soon as they were opened. During the first hour 25,170 visitors entered, and the two hundred thousand mark was passed at 2:30 p. m.

Several factors aided in rolling up the large attendance. First, the weather was almost ideal for Fair going; second, Legionnaires poured through the gates to swell the total; and third, one of the most colorful programs of the Fair, well advertised in advance, was presented. Officials are hopeful that today's attendance will be equally gratifying with the presence of President Roosevelt as the major attraction. Marconi day, with the inventor of wireless at the Fair in person, will also be observed. The highlight of yesterday's Fair was the presentation of the Chinese day program. Starting in the heart of the Chinese sector of Chicago,

WORLD'S FAIR PROGRAM

TODAY.
[Marconi day and South Dakota day.]
1:30 p. m.—South Dakota day ceremonies in the Court of States.
3 p. m.—Alamo North Dakota band in Court of Honor.

5:30 p. m.—Reception ceremonies, United States army, Camp Whittier.
5:30 p. m.—Aerials lighting ceremony, court of the Hall of Science.

PARIS EX-MAYOR ARRIVES IN CITY WITH PARTY OF 14

Francis Latour, former mayor of Paris and at present secretary general of the city's budget, arrived here yesterday with a party of fourteen prominent Parisians for a four day visit in the city and to A Century of Progress. In the party are Paul Balbaud, counsel of foreign commerce; Mme. Maunoury, widow of a minister of the Interior under Poincare; M. Llovel, president of the Landowners' and Hoteliers' association of Morocco; M. du Puente, chancellor of the Argentine embassy in Paris, and engineers, industrialists and students of politics and economics.

The party will also visit Pittsburgh, Philadelphia, Baltimore, and Washington, where they may be received at the White House. While its members do not officially represent the French government, they are making a study of the recovery program.

Fair Starts Second 10 Pct. Payment on Bonds Today

The second installment of 10 per cent on the \$10,000,000 issue of gold bonds of A Century of Progress will be paid starting today. It was announced last night. The payment brings the total payment to date to 32 1/2 per cent of the issue.

Report Chas. M. Schwab's Condition as Very Good

New York, Oct. 1.—(AP)—The condition of Charles M. Schwab, veteran steel magnate, was described today as "very good." Schwab entered a hospital two weeks ago suffering from what his physicians described as fatigue.

ASSEMBLY AIMS AT RECORD SPEED ON RELIEF BONDS

30 Million to Be Asked;
Convene Tomorrow.

BY PARKE BROWN.
Gov. Henry Horner and leaders of the general assembly hope the special session of the general assembly which convenes at 10 o'clock tomorrow morning will set a record for brevity.

If plans they have discussed informally are adopted and carried out, the entire program will be completed in two weeks of actual legislative work, a sine die adjournment will be taken and the way will be open to take the proposed second special session a clear field.

May Recess Till Next Week.
If delay is necessary, it is understood, the proposal will be for only one short meeting tomorrow for the introduction and advancement of bills, followed by a recess until next week. In that event the tentative time for adjournment would be toward the end of the week ending Oct. 21.

The question concerning a week's postponement of activity was presented to Gov. Horner by leaders who fear that the convention of the American Legion in Chicago will cause a large number of absences tomorrow and Wednesday.

Other Matters Noncontroversial.
Efforts to make the session a record for brevity are predicated on the fact that, with the exception of the first purpose specified in the governor's call, the provision of relief funds for the winter months, the subjects enumerated for assembly consideration are classified as noncontroversial. They are merely acts to enable the state to take complete advantage of federal offers under the national recovery program and probably will be subjected to little discussion.

There will be a fight over the main proposal, the one to authorize the issuance of bonds for \$30,000,000 or a slightly smaller sum, the bonds to be financed from the counties' shares of the 3 cent gasoline tax in proportion to the amount of relief advanced to each county.

TRAIN KILLS EXPRESSMAN.
Nicholas Butler, 45 years old, 4300 South Wood street, employed as an expressman in Lehigh, was struck and instantly killed by a Chicago and Alton railroad train last night.

CENTURY OF PROGRESS NOTES

Capt. Franciszek Hynek and Lieut. Zdzislaw Purzynski, the two Polish balloonists who won recently the international balloon race, which started in Chicago, were awarded the James Gordon Bennett trophy in a ceremony in the Court of States yesterday.

The Essex Scottish regiment left the Fair yesterday and boarded a special train for Windsor, Canada. Their departure was marked by brief farewell ceremonies before the Administration building as the column of kilted clads marched up the Avenue of Flags to the 14th street entrance. The pipe and brass bands played "Auld Lang Syne" and "The Girl I Left Behind Me."

The Great Atlantic and Pacific Tea company yesterday announced that Paul Ash, loop movie bandmaster of other years, will lead a new orchestra appearing in the A. & P. Carnival. The Ash band will give concerts at 4 and 8:30 p. m. and play for dancing at 5 and 9:30 p. m. The A. & P. Gypsies, marionette shows, and cooking talks by George Rectine are continued as parts of the daily carnival program.

Illinois Achievement week closed yesterday with a tribute to achievements in the field of drama at the Illinois Host house at the Fair. Prize winning plays in the Chicago Drama league's play contest at the Fair were presented by blind players, known as the Braille Players, and by the Barnum Players. A Century of Progress awards were presented to both groups by Mrs. Clarence Hough, president of the Drama league. Harold A. Ehrenreiter spoke on "Illinois' Contribution to the Drama" and Bertha Ochner and Maryann Vantuyll gave dance numbers.

This famous Marine band of Washington, D. C., will be a feature at A Century of Progress for a week beginning Wednesday. Capt. Taylor Branson, commanding the band, wired Exposition officials yesterday that President Roosevelt had consented to permit the band to make the trip.

A party of 100 teachers from Hancock county, Idaho, arrived in Chicago yesterday morning over the Chicago and North Western railway to visit the Fair.

South Dakota will celebrate its day at the Fair today in a program in the Court of States, beginning at 1:30 p. m. Music will be furnished by the Aberdeen drum and bugle corps.

Performers from the Boris Laurretta School of Dancing will appear in a dance review on the floating theater this evening at 7:45 p. m.

GRAPE GROWERS GO ON STRIKE FOR HIGHER PRICES

Benton Harbor, Mich., Oct. 1.—(Special.)—A three day farm strike, to force grape prices upward, was called here today by the Fruit Belt Farm union.

Grape growers complain that their return is about half the production cost. They picketed the Benton Harbor fruit market today, advising growers not to bring grapes to market until Thursday. A similar picket will be conducted tomorrow.

Possibilities of violence were hinted by Edward Jarvis, a director of the farm organization, to THE TRIBUNE correspondent tonight if growers attempt to run the blockade Tuesday and Wednesday.

Dentist's Office Bombed; Tells of Recent Quarrel

Dr. Morton Herzon, a dentist whose office at 2009 Roosevelt road was bombed early yesterday, told police that he had had trouble recently with another dentist. He worked in the other man's office while he was a dental student, he said. The other dentist, he charged, had spread malicious stories about him, and when they met three weeks ago in a tavern Dr. Herzon struck him, he said.

FLOODS SWEEP FRENCH VILLAGES; TWENTY KILLED

MONTPELLIER, France, Oct. 1.—(AP)—Six days of heavy rains over a wide area in southern France have caused a total of 20 deaths and several million dollars property loss from floods.

Roads, houses, railways as well as telegraph, telephone, and power lines were damaged by overflowing rivers. Landslides cut off four villages in the department of Herault and isolated two others in the department of Gard.

The Herault, Orie, Tarn, and Loire rivers were out of their banks.

4 CITIES UNITED TO WARN PEOPLE OF LAND SHARKS

Florence, Ala., Oct. 1.—(AP)—A statement warning investors against buying Muscle Shoals district property without a personal inspection today was issued by the mayors of the four municipalities in the district—Florence, Sheffield, Tusculum, and Muscle Shoals City.

"Do not buy property from blue prints or maps, but make a personal inspection and thorough investigation before buying," said the statement, which was issued to prevent "irresponsible and illegitimate speculators from wrecking" the program of the Tennessee valley authority for the basin.

"Since Henry Ford made his offer for Muscle Shoals," the statement said, "there has been widespread speculation in Muscle Shoals real estate. In many cases high pressure methods have been used by salesmen and misrepresentation has been made regarding facts and conditions in order to sell property."

"The statement was issued by the mayors of the four municipalities in the district—Florence, Sheffield, Tusculum, and Muscle Shoals City."

GENERAL STRIKE CALLED IN CUBA; RIOTS FEARED

Army Warns Reds to End Anti-Grau Agitation.

BY ARTHUR EVANS.
(Chicago Tribune Press Service.)

HAVANA, Oct. 1.—While Col. Fulgencio Batista, chief of staff of the Cuban army, used an iron hand on labor agitators and settled the ice and beer strikes in Havana, Oriente province, at the other end of the island, today was in a state of sporadic disturbances.

At Santiago de Cuba, second largest city on the island, 650 miles from here, a correspondent for The Tribune reported that the Santiago Labor federation decreed a general strike to take effect at midnight tomorrow. It is designed to affect all industries, business houses and public utility services throughout the island.

The federation's notice said the strike is in protest against the Grau San Martin government whose overthrow it is seeking. The strike also is declared against "Yankee imperialism" and intervention.

Army Warns Reds.
The communist party, according to the dispatch, has plastered Santiago with notices that it proposes to hold a protest demonstration against the Grau administration at noon tomorrow. The army has put up orders in public places and parks warning the communists that should they attempt to hold a demonstration the military will dissolve it.

The situation is regarded as holding an abundance of dynamite. The Santiago setup is greatly similar to that which precipitated the battling in Havana in which seven were killed and 25 wounded on Friday when the military forbade communists to hold a demonstration in which they planned to parade the ashes of a communist student killed in Mexico. The student, the communists allege, was slain by secret agents of Gerardo Machado.

The communist demonstration planned for Santiago is said to be designed as a reprisal against Batista and Grau San Martin for squelching the Havana Reds. At Santiago the military is said to be less effective than here and there is great possibility of violence.

Destroy Public Property.
Jamaican elements, agitators and communists are reported to have staged acts of violence today at Baire, Oriente province, destroying public property.

At the sugar plant at Miranda, a strike still continues. The three American officials at the mill are reported to have gone to Santiago this morning for refuge, fearing the temper of the crowds.

At Palma Soriano, the army ejected Amador Martinez, mayor de facto, charging him with leading communist revolts in that city.

The ice and beer strikes, which have kept Havana uncomfortable for the last three or four days, were settled by direct pressure of the government. The palace has become somewhat secretive since it set up a press agency and handout mill a few days ago, but business men report that Batista called in a few strike leaders and used "moral suasion" to such effect that ice was in the hotels this morning and beer was in the bars.

Orders Police to Don Coats.
Ulickeno Franco, new chief of police, ordered his men back into their coats today as the first step in militarizing the force which has been comfortable in blue shirt sleeves.

Anti-Grau groups are already beginning to declaim against the strong government, declaring that the revolutionary régime is as much a dictatorship as was the Machado era. The complaint against Carlos Manuel de Cespedes as president after Machado fled was that as an ambassadorial type he had no iron in his hands. Now the underground murmur against Grau and Col. Batista is that they are carrying horseshoes in their gloves.

Vaughan's Rainbow Garden of 60 Giant Tulips \$2

Prepaid 900 miles Six each, separately bagged and labeled, of these ten famous varieties:

Louis XIV., purple and gold, 36 in. tall.
Bronze Queen, soft buff.
Bleu d'Albion, violet blue.
City of Haarlem, giant red.
Farrcombe Sanders, scarlet.
La Tulipe Noire, "black tulip."
Mrs. Kralake, early deep pink.
Panorama, copper red.
Princess Elizabeth, largest soft pink.
Inglescombe Yellow, "yellow daisy."

THIS IS NOT a mixture but an outstanding collection of tulip varieties of the first rank, especially imported for this offer. They will flower in May to make your garden the envy of your neighbors. Every variety grows more than 25 inches tall, bearing huge flowers, 3 inches or more across. Each variety comes in a separate bag labeled with its name. The bulbs will multiply and bloom in your garden for years. This is the greatest tulip value we have ever offered.

Beginner's Bulb Collection, \$1

CALL STRIKE TODAY OF 20,000 TRUCKMEN IN NEW YORK TRADES

New York, Oct. 1.—[Special.]—A strike of 20,000 truckmen and helpers in the flour, bakery, and retail furniture trades was called for tomorrow by Teamsters' union local 138 at a meeting attended by what union officials said were 1,500 "key men" in these trades.

It was declared that, in addition to the 20,000 men expected to answer the strike call, 20,000 other drivers in the same trades may join the strike.

William Snyder, general manager of the union, said the strike would affect deliveries in Greater New York and prevent deliveries into the city from New Jersey, Pennsylvania, Connecticut, and Long Island. Hospitals and public institutions also will be affected, Mr. Snyder declared. He said the demands of the union are for a shorter work week and maintenance of the wage scales embodied in the agreement with the employers which expired last September.

CLASHES FOLLOW RALLIES OF RIVAL ARMIES IN CORK

CORK, Irish Free State, Oct. 1.—(AP)—Between 30 and 40 persons were treated for slight head wounds today after clashes following upon rival meetings of the blue shirts and the Irish republican army. Hooligans and youths caused trouble by throwing stones and occasionally attacking police, but civil guards kept control of the situation. The sight of armed soldiers also had a restraining effect on the would-be rioters.

The city hummed with political excitement all day long, kept at fever pitch by the big United Ireland party demonstration and the counter-show of the Irish Republican army. It was estimated 25,000 persons poured into the city from nearby towns and rural districts. The soldiers were equipped with steel helmets and tear gas. Gen. Owen O'Duffy, one of the heads of the United Ireland party, said in a speech that his political group was not opposed to the present government because it is Republican, but because it pretends to be so many things that it is not.

"Consciously or unconsciously, the policy of the government is moving toward communism every day," he said.

Einstein to Quit Haven for London Lecture Today

CROMER, England, Oct. 1.—(AP)—Prof. Albert Einstein is planning to leave his retreat here for London tomorrow and will deliver an address Tuesday at Albert Hall on "Science and Civilization." He will probably sail for the United States on Friday or Saturday. Prof. Einstein has been at Cromer since his departure from Belgium which was caused by reported threats against his life by a Nazi secret organization.

STATE AUTO TAG OFFICE MOVES TO NEAR WEST SIDE

The automobile division of Secretary of State Edward J. Hughes' Chicago office will open for business today in its new quarters in the Wieboldt building, 120 South Ashland avenue. The moving from the Transportation building, 608 South Dearborn street, was completed yesterday.

Secretary Hughes, who inaugurated the cash and carry system of leasing

state auto licenses in Chicago, selected the new site as being the most centrally located and easily accessible from all sections of the metropolitan area.

It is expected that 600,000 motor car owners will be served next year through the facilities of the new office. The selling of state license plates over the counter has effected a substantial saving to tax payers, Mr. Hughes said.

ROBBERS SLUG PENNILESS VICTIM.
Frank Gomez, 33 years old, 9727 North Halsted street, was slugged and given a fracture of the jaw early yesterday at Milwaukee avenue and Oak street by two Negro streetwise robbers who were "sagred" because he had no money.

LABOR ASKS FOR SHORTER DAY TO PUT NRA OVER

Demands Revised Codes to Raise Minimum Pay.

Washington, D. C., Oct. 1.—[Special.]—Since the enactment of the national recovery act the American Federation of Labor has increased its membership by 1,600,000, according to William Green, its president. He reported to the executive council today that the total membership is approximately 4,000,000.

That statement was made preliminary to the opening of the federation's annual convention tomorrow. The gain in membership—said to be the largest ever experienced within a similar period—now brings the federation up to within 50,000 of its wartime peak. Adding the strength of the outside unions to the federation membership the total membership of organized labor in the United States was set by Mr. Green at 5,000,000.

Wants Twenty-Five Million in Line.
Nailed to the masthead of the federation, Mr. Green said, is the slogan: "Organize the unorganized in the mass production industries," with a membership of 10,000,000 as its goal and after that \$5,000,000, "which will bring the majority of Americans genuinely and actually within the trade union family."

Mr. Green felt that a statement on membership, supplementary to that contained in the executive council's report to the convention tomorrow, was imperative. The report for the fiscal year ending Aug. 31, owing to technicalities, he felt, did not show a true picture of the present situation, but appeared to indicate instead that in the last year there had been a falling off of 405,465.

Sounding the keynote of what is likely to be the most important convention ever held by the federation, Mr. Green said after the council meeting today that the convention "will issue a clarion call to all America to organize and will provide the authority and the instructions for an organizing campaign such as we have never known."

Proposals on Policy.

Outstanding among the important pronouncements of policy and recommendations for action that will be placed before the delegates in the executive council report tomorrow are the following:

1. The thirty hour week of five days work, six hours a day.
2. Increase of minimum wages provided in the codes.
3. Increase of wages for skilled workers, as well as unskilled.
4. Representation of labor in every stage of code making.
5. Public works must be speeded up to supply work this winter to large masses of the idle.
6. Congress, upon convening, must provide adequate relief appropriations.
7. The surplus agricultural products must be made available for distribution to the unemployed.
8. Taxation for relief must be provided by fair contributions from higher incomes and surplus profits.
9. Labor must have relief from excessively stringent federal economy measures.
10. Educational budgets must not be jeopardized.
11. Immigration restriction laws must be further strengthened.

For German Boycott.

There also is a recommendation that the American Federation of Labor join with other public supported organizations in officially adopting a boycott

W. M. JARDINE GIVEN POST AS TREASURER OF KANSAS BY LONDON

Topeka, Kas., Oct. 1.—[Special.]—

Dr. William M. Jardine, former secretary of agriculture, and later ambassador to Egypt, was appointed today as treasurer of the state of Kansas. Gov. Alf M. Landon so announced, adding that Dr. Jardine will take the oath of office early this week. Jardine is in Washington, D. C., following his return from Egypt.

Jardine will succeed Tom Boyd.

Boyd resigned rather than face impeachment proceedings following his arrest in connection with the Ronald Finney bond forgery, and a possible shortage of \$450,000 in the state treasury.

Boyd is at liberty on \$50,000 bond, while Finney and his employee, Leland Caldwell, still are in jail.

on German goods until Germany recognized the rights of workers to organize into bona fide independent unions and until that nation "ceases its repressive policy of persecution of Jewish people."

NRA Hours Attacked.
In this connection the council urged that hours of work were too long to absorb the idle millions and minimum wages were so low that purchasing power was lagging behind production.

Some codes, it was said, have "perverted the purpose of the act" so as actually to increase hours and lower wages. The most flagrant instance of such "perversions" were said to lie under modifications of the President's reemployment agreement. It was held that in some cases codes proposed a longer work week than the prevailing figure and earnings lower than those existing prior to the formulation of the codes, the council reported.

At the same time, the report attacked differentials in wage rates established north and south as something that would encourage migration of industries seeking lower labor costs. Emphasis was placed on the representations by labor in code making.

Among those who have already ar-

rive for the reunion are Dr. Glenn Frank, president of the University of Wisconsin; Gar Wood of Detroit, wealthy sportsman; Byron D. Miller of New York, president of Woolworth company; Dr. John Harvey Kellogg, Battle Creek, Mich.; P. A. Scherling, Akron, O., tire manufacturer; Joseph E. Widener, Philadelphia, sportsman; George W. Mead, president of Consolidated Water Power and Paper company, Wisconsin; James E. Gorman, president of Chicago, Rock Island and Pacific railway; DeWitt Page, Bristol, Conn., director General Motors corporation, and Mr. Firestone.

WATCH BROTHER STRANGLE BEAR WITH HIS HANDS

SAULT STE. MARIE, Ont., Oct. 1.—(P)—Wesley Berry's three brothers were witnesses today to the fact that he choked a bear to death with his hands.

The three brothers had been sleeping in the hay mow of their barn all summer. Entering the place in darkness, one of them bumped into the bear, which had wandered in during their absence, and all three fled to the house for a lantern.

Wesley returned with them and tackled Bruin, killing the animal.

SHOOT HIMSELF IN QUARREL.
Samuel Gurdak, 29 years old, 3408 Pershing road, shot himself in the abdomen, inflicting a critical wound, during a dispute with his wife yesterday.

NOTABLES ARRIVE FOR MIAMI BEACH COLONY REUNION

Civil Forest Corps Chief to Speak at Dinner.

"I shall carry the memory of your friendship like a flower in my heart."

—Robert Louis Stevenson.

This quotation states the motive which today will draw together more than 300 leaders of industry and the professions at the Drake hotel for the annual meeting of the Committee of One Hundred. All of the members, who number 300 and represent 250 cities in 40 states, besides Canada and Cuba, have winter homes at Miami Beach, Fla.

An elaborate program has been arranged for the unusual reunion, which has an official existence of only one day, tomorrow. Yesterday and last night many of the members arrived and today the remainder are expected here.

Forest Corps Chief to Speak.

The fourth annual dinner tomorrow night will be a stag affair, as in the past. Robert Fechner, director of the reforestation and emergency conservation corps, will address the men at this event in the Drake hotel while the women folk join in a theater party.

Labor's complete acceptance of the recovery act as the instrument that will create a new industrial America on a basis of democratic control was coupled in the council report with frank criticism of the working out of the act in some particulars.

While no political or industrial significance is attached to the meeting by the committee members, many of the nation's leaders in widely varied lines will here have an opportunity for quiet discussions of present day affairs.

Many Notables Already Here.

The quotation from Stevenson and a similar one from Oliver Wendell Holmes are quoted in the monthly news letter sent to members by Clayton Sedgwick Cooper, president of the committee.

Among those who have already ar-

rive for the reunion are Dr. Glenn Frank, president of the University of Wisconsin; Gar Wood of Detroit, wealthy sportsman; Byron D. Miller of New York, president of Woolworth company; Dr. John Harvey Kellogg, Battle Creek, Mich.; P. A. Scherling, Akron, O., tire manufacturer; Joseph E. Widener, Philadelphia, sportsman; George W. Mead, president of Consolidated Water Power and Paper company, Wisconsin; James E. Gorman, president of Chicago, Rock Island and Pacific railway; DeWitt Page, Bristol, Conn., director General Motors corporation, and Mr. Firestone.

LINDBERGHS LAND IN NORWAY AFTER HOP OVER BALTIC

OSLO, Norway, Oct. 1.—(P)—Col. and Mrs. Charles A. Lindbergh arrived here today after a four and a half hour flight across the Baltic sea from Tallin, Estonia. The distance is about 600 miles.

Part of the way out, the American flyer said, they encountered fog which forced them to turn back, but later better conditions were found and they decided to continue on to Oslo. Only a few spectators in addition to United States Minister Hoffman and the commander of the Norwegian air force were present at the landing.

The Lindberghs were smiling and looking well as they stepped onto the pier from a ferry an hour after bringing their seaplane down to the surface of the harbor. The couple was taken by automobile to the American legation. They planned to stay in Oslo two days, but declined to reveal further plans. They flew to Tallin Friday from Moscow.

RESCUED FROM RIVER.
Martin Shewchuck, 48 years old, 1810 West Roosevelt road, was rescued from the Chicago river yesterday by policemen James Shields and Edward Cronan of the Maxwell street station after he had fallen in while standing on the bank at Polk street.

Man Found Slain After Battle in an Apartment

Joseph Grandi, 31 years old, was found dead with his throat cut yesterday in an apartment which he shared with several other men at 1118 South Western avenue. He had been killed in a fight in which most of the furniture in the place was smashed. Police sought as his assailant Jerry Luto, 60 years old.

SHOTS HIMSELF IN QUARREL.
Samuel Gurdak, 29 years old, 3408 Pershing road, shot himself in the abdomen, inflicting a critical wound, during a dispute with his wife yesterday.

ORIENTAL RUGS

From West Central Persia—Lustrous Dardezhine Rugs—

About 9x12

\$195

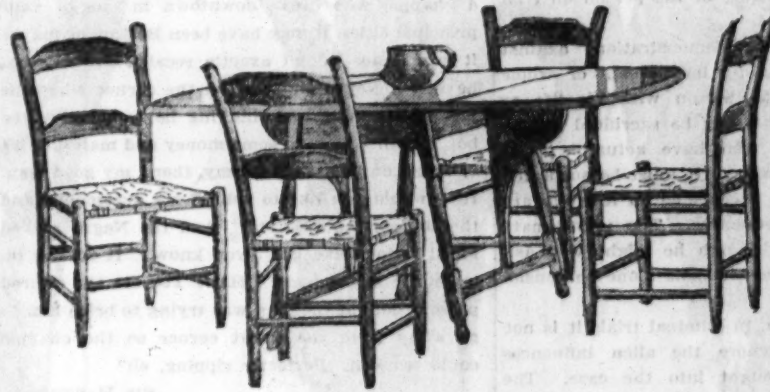

There are many designs, intricate and beautiful, on a deep rose-red ground so typical of Oriental rugs. "Your Home" Week offers you this opportunity to buy a real Oriental rug at this very special price.

Not sketched: Chinese rugs. In many very lovely colors. All without borders—so fashionable today! The newest designs. About 9x12. \$195

THIRD FLOOR, WABASH

Special attraction: Exhibit of Neo-Classic and Modern Rugs begins today. Many were designed by our own Studio. Striking patterns, new and dramatic color combinations, interesting new textures.

RUGS, THIRD FLOOR, SOUTH, WABASH

Attractive Dinette Set—Table and Four Chairs \$24.75

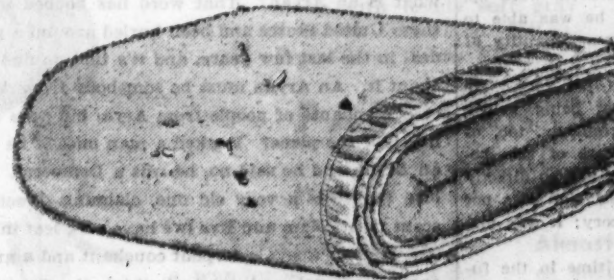

If you live in a small apartment you will appreciate the features of this solid maple table. Drop leaf. Open: 36x53 inches. Closed: 23x36 inches.

Lazy back chairs with hand woven splint seats. Extra chairs, \$3.50 each.

EIGHTH FLOOR, SOUTH, WABASH

BLANKETS

—New—the Pelage Finish—Less Weight—Extra Warmth

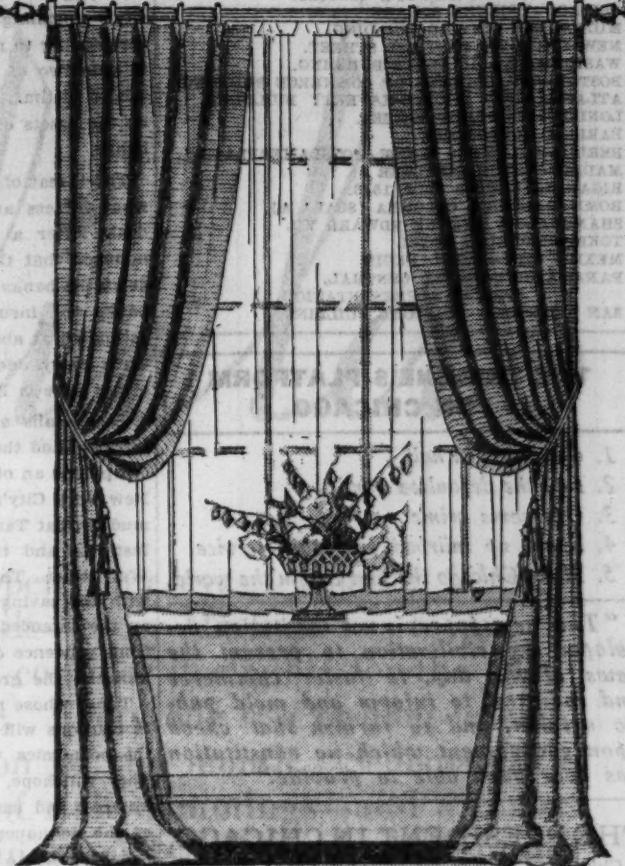

An exclusive weaving process by Esmond. As you know, fur bearing animals grow a short undernap of fur called pelage. Pelage adds greatly to the warmth of the permanent long fur.

In these blankets there is a short wool undernap (pelage) and the longer wool overnap. By interlocking these in the weaving, additional warmth is gained, and all unnecessary weight is eliminated. These blankets were washed and shrunk at the Mill. They launder perfectly. Made of fine wool. In rose, peach, green, orchid, gold, blue or ecru. Size 72x84.

Specially Priced, each,

\$12.50

SECOND FLOOR, NORTH, STATE
Also Evanston and Oak Park

DRAPERIES

Cable rep—a \$7.75 a pair special weave

Here's the season's favorite in a woven fabric... for draperies. These are all ready-to-hang... lined... pleated... 2 1/2 yards long and of 50 inch material.

With this color selection, you'll find just what you want... green, gold, cedar, mulberry, egg-shell, blue or rust.

Cord and tassel loops at, pair, \$1.25.

Also—Chiffon Voile Curtains, \$3.50 a pair.

NINTH FLOOR, MIDDLE, WABASH.
Also Evanston and Oak Park

SHEETS AND CASES

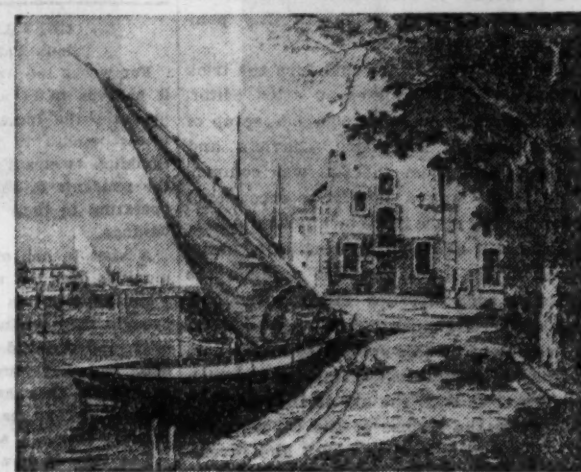

Famous Soft Spun—They Wear and Wear and Wear!

You can launder them repeatedly and they'll continue to retain their soft, fine surface.

SHEETS—81x108.....each \$1.75
81x99.....each 1.50
72x108.....each 1.50
63x99.....each 1.35
CASES—45x38 1/2.....each .40

MATTRESS PADS—Full size, \$2.50; Twins, \$2 Ea.

SECOND FLOOR, NORTH, STATE.
Also Evanston and Oak Park

ETCHINGS \$4.75 (framed)

Lovely French Colored Etchings—Special Selling

Here's an opportunity to get some color accents into your decorative schemes. In this event some of the best etchers are represented. Colors are original and the subjects interesting and varied.

Most important is the fact that the mats were individually designed for the pictures and the frames toned to harmonize (in our own workroom).

Larger size, \$9.75. We are featuring these etchings at these very special prices for "Your Home" Week only.

PICTURE GALLERIES, SECOND FLOOR.

By special arrangement... we're featuring a reproduction of an original drawing of President Franklin D. Roosevelt by John Doctroff... size 10x20... signed by the artist. \$2.50.

PICTURE GALLERIES, SECOND FLOOR
Also First Floor, South, State

THE TRIBUNE PLATFORM FOR CHICAGO

1. Cut taxes in half.
2. Pay the defaulted bonds.
3. Overcome crime.
4. Speed up railroad passenger service.
5. Make Chicago the first city in the world.

"The newspaper is an institution developed by civilization to present the news of the day, to foster commerce and industry, to inform and mold public opinion, and to furnish that check upon government which no constitution has ever been able to provide."

THE PRESIDENT IN CHICAGO

Chicago is glad to welcome President Roosevelt in the necessarily brief visit in which he appears before the American Legion and has a glance at the Fair. It is appreciated that Mr. Roosevelt had to borrow from overfilled days to make his visit possible. The time before when the city welcomed him he was coming by plane to receive the formal notification from the Democratic convention here that he had been nominated for the office which was to bear the burdens of disturbed times and many perplexities. That nomination was followed by the success of his ticket and his party in the election, and it may be said that whatever perplexity and responsibility was anticipated at the time he was nominated, all were fully realized when he was elected to face at the outset a suspension of all the banks.

Through all the difficulties and worries which have been unceasing since March 4 the President has retained a buoyant confidence and undiminished optimism from which Americans have endeavored to borrow a share. Policies must be subjected to tests, and no man knows what experience may decide.

The temperament which has sustained Mr. Roosevelt in a life which has required resolution is manifest in his character today. He believes in the possibilities of the American people to face their dilemmas, and from the office of chief executive of the United States this belief extends throughout the country. Opinions differ as to the ways to be adopted, but all join in the determination to come out on top.

Chicago welcomes the President to the city.

WIND IN INDIANA

Radio station WIND in Gary and the Columbia Broadcasting company have the distinction of adding a new feature to the journalism of the air. Irresponsible newspapers did it to death in the journalism of print years ago. It was the news fake, presented by Columbia and sent out from WIND in a broadcast of the Indiana hunt for the prisoners escaped from the Michigan City penitentiary.

One untrustworthy reporter could turn the trick for an unsuspecting or indifferent news editor, but the radio company needed a complete setup of gunfire, eyewitnesses, imaginary convicts and obliging citizens for whom the fun was compensation. The result was a terrifying account of what was not taking place there or anywhere else; terrifying because it alarmed the families of every man engaged in the hunt. It also enraged the police who had such liberties taken with their serious and dangerous work.

Marginal comment on this enterprise might note that WIND is the station in the interest of which the Columbia system with the aid of Indiana politicians took away the license of the Chicago station WIBO, the unprotected property and investment of Nelson Brothers, in the public interest as found by the radio commission.

THE MOVIES' NUDE WORLD.

Although there has been considerable sound of internal reform in the movies, nothing comes of it in one direction. Mr. Will Hays and his associates have declared that salacious advertisements shall not be found in the industry. Producers have threatened to swing the ax on the publicity man whose copy offended, but a responsible newspaper finds that the only censorship which gets anywhere is that of the advertising manager. The movie advertising ideal is to prove that a production is a noteworthy offense to public decency and no one in the business has stopped it. The next step is to make the production worthy of the ad writer.

The historic bent of censorship and control is disclosed in the fleshly course the movie publicity would inspire the producers to take and the public to expect. It has been axiomatic with the wisest autocrats that when some clamps are tightened others should be loosened. Some part of the body politic should be left out of the censor press to compensate for the squeeze and distract the attention. Frequently as the political liberties are contracted the social licenses are extended. When government undertakes to suppress the will it frequently releases the senses.

The English relaxation from the rigors of the Puritans, Presbyterians, and Independents was toward the liberty of the body and away from the freedom of the mind. Charles II. did not represent less of the autocracy of his father, but less of his piety, and the restorationists knew that carousals were cures for covenants. The movies apparently sense the times. Mrs. Grundy is not the censor they need mind. The tightening up has been in other directions. The political and not the moral content of the scenario is the important thing. If the right

kind of zeal is displayed in political conformity the censor goes to sleep and the camera can go to work on the world of the flesh.

Historically this is sound, whether the producers come to their conclusions by instinct or by reasoning. When one clamp goes down another is released.

NEW YORK GETS A LOAN—AND HOW!

The terms on which New York's immediate financial difficulties have been met are, to say the least, astonishing.

Mayor O'Brien's brain trust, Mr. Untermyer, had suggested a number of new taxes to meet the city's appalling deficit. The stock exchange, by threatening to move to Newark, forced the mayor to veto two of the levies of which it was the intended victim. There remained the proposed taxes on the assets of insurance companies and savings banks.

The threat of those taxes laid the foundation for what in less august financial circles is called a deal. After a prolonged conference it was announced that the city government will not shake down the banks and insurance companies, and the banks and insurance companies will lend a sum estimated at about 125 million dollars to the city. Thus every one who cannot see beyond the end of his nose is happy.

The details of the arrangement are somewhat intricate and their recital here could serve only to complicate an otherwise simple story of blackmail. New York City's finances were in such a hopeless muddle that Tammany was forced, contrary to its instincts and traditions, to put the heat under Wall street. The stage was set for a badger game with the savings banks and insurance companies as the intended victims. Whether from fright, from prudence or from a profound sense of helplessness, the great financial houses came across.

Those whose money has been entrusted to these institutions will hope that the city will carry out the economies which it has agreed to institute. They will hope, also, that business conditions will improve and make possible the payment of some of the delinquent taxes. Otherwise, as has happened before to the victims of a shakedown, they may discover that the first payment is not the last or the largest.

Chicago has reason to be grateful that the constitution of Illinois does not make it so easy for our local governments to obtain credit in a similar fashion. There is room for satisfaction also in the knowledge that the heads of our financial institutions are less easily intimidated, and that our public officers are in a different class than New York, city and state.

THE VICTIMS OF CELEBRATED CASES.

Bernard Shaw had a lucid moment when he scolded the internationalists who raise the cry in selected criminal court trials and do the defendants much injury with the pretense of saving them from injustice. In nearly every case the cause of the accused person is definitely hurt by the interference of the agitators and in many cases their regard for the safety of the person on trial may be wholly doubtful.

Prejudices created by demonstrations against judicial procedure and by indictments of whole communities injure the person with his life or liberty at stake and he may be sacrificed to the turbulence of people who have actually taken from him his day in court. It must be suspected that often the persons responsible for it are aware of the probable consequences. The unfortunate victim is sacrificed, although he might well ask that for the hour of his trial he alone be considered.

Justice being human, in criminal trials it is not always possible to ignore the alien influences which have been brought into the case. The strategy of defense may bring publicity to the interfering organizations and their representatives and may be thought to advance a radical cause, but it is tough on the prisoner at the bar.

Editorial of the Day

CONTRARY TO OUR NEEDS.

[Bloux Falls (R. D.) Argus-Leader.]

For weeks the Argus-Leader has harped upon the NRA program—the increase of factory prices while farm prices remain in the ditch. This, to our way of thinking, is steadily decreasing the buying power of the residents of the farm areas and consequently is operating to their disadvantage instead of their advantage.

A visit to one of the smaller South Dakota communities over the week-end revealed a full and complete appreciation of this difficulty. The farmers brought their products to town—live stock, butter, and eggs—and received prices about the same as a year ago. But they were being compelled to pay more for the things they had to buy. Advancing wholesale quotations had caused merchants to elevate their prices. Gasoline and many other articles were up.

The farmer, however, found that he was able to buy less instead of more for the same quantity of cream or eggs. The facts stared him directly in the face. He could see plainly that he was not being helped through the NRA activities. The residents, too, of the small community were well aware of this because they are so close to the farmer and so directly dependent upon his income. The new plan was not disadvantageous to them only in theory; it was disadvantageous to them in fact.

The intangible promise that some time in the future farm prices, too, would advance did little to offset the hostility developing from an emphatic reality. Washington should have an opportunity to see these things as we here in the farm regions see them, to realize that buying power is dwindling instead of advancing in the economic sector of the nation where an advance is the most essential. Secretary Wallace of the department of agriculture, we believe, has a proper appreciation of the situation. Private advice from Washington yesterday indicated that he has been dismayed by the sharp advance in factory prices and that he threatens to fight openly if something isn't done promptly.

When the artificial efforts to advance price levels started farm prices were lower than industrial prices. The logical thing to have done would have been to elevate farm prices to the industrial level first. Then, if still higher prices were desired, advance both of them together. But that hasn't been done. Instead, efforts have tended to force industrial prices up, thus widening the gap between the farm and factory price levels. The result has been exactly contrary to the needs of the situation.

Some time in the future this error will be realized and a change in methods will take place, but the intervening period constitutes a time of anxiety and illogical delay.

AND CHAPER, TOO!

Ensign Blah—I wish I belonged to a golf club.
Ensign McCandless—You don't need to.
Ensign Blah—How so?
Ensign McCandless—Just walk five miles or so, and every 50 or 30 yards hit the pavement a hard whack with your stick and swear.—U. S. S. Louisville Derby.

A LINE O' TYPE OR TWO

How to the Line in the quips fall where they may.

IT WAS REALLY quite embarrassing. So much so that I've got a mind to send this story to the Most Embarrassing Moments editor and make a little money on the side. I drove my gas buggy back to the garage to bed it down for the night and found my stall, or rather my gas buggy's stall, had been taken possession of by a stranger in our city from Maryland. I met the gentleman as he was leaving and told him I paid a ruinous price for the privilege of keeping my car in that stall and that I hadn't relinquished the privilege. "Oh, you gitout!" said the auto buccaneer; "park your old junk pile out in the street. I found this place and I'm a-going to keep it. Toodle doo!" Being somewhat irritated by the easy manner of the victor, I spoke as follows: "You get that bunk o' tin the hell outten my stall!" And then in a minute I realized that Saturday was Courthouse Day! Really, as the contributors to the Most Embarrassing Moments would say, I could have gone through the door. Also I might have been easily slapped down with a feather. But just then Frank, the barn boss, came in, and as he had been born and raised back of the Yards and served in the marines in the late guerre he knew so many stern words that when he got through the words I had addressed to the claim jumper sounded as soft and gentle as the morning dew on the petals of a new born rose and I felt much better.

CONFITEOR.

Beloved, I am weary of the stars,
And the wide dark, the tall unbending night,
Who rested for a little in your arms,
Who lay upon your breast in deep delight.

Beloved, call me so my heart may know
That who I loved and wept and tasted tears
May run the hours like roses again
And give me peace to hold against the years.

Require of me the last, the ultimate hour.
Pluck out my fear, forgive my foolish pain.
But on my knees I come, humble and low—
Beloved, take me to your heart again.

NANCY SHORES.

"CONSUMERS WILL GET HEARING WHEN Food Code Comes Up Oct. 9."—Headline. Gosh! It may be a bit indigestible, but we hoped it would stay down for a while anyhow.

IT'S HARD TO TELL THESE DAYS.

Sir: Just arrived in your jolly old land, and heard an amazingly fine jest the other day from one of your captains of industry, and I feel that you ought to know about it. As this captain of industry told it, the tale went very much as follows: There was a chappie who drove downtown in one of your principal cities, it may have been Boston, or maybe it was Reno, I don't exactly recall. But anyway, he saw a Negro standing on the corner where he parked his auto, and thinking he would give the boy a chance to earn some money and maintain his self-respect, he asked: "I say, there, my good man. How would you like to rub off my automobile and thereby earn a quarter?" And the Negro replied in all seriousness, don't you know, "It doesn't interest me in the least." How! You see the colored person thought the man was trying to bribe him to go away from the street corner so the chappie could work it. Perfectly ripping, eh?

SIR HARTHUR.

A FILLING STATION MAN in California found a ring that somebody had dropped in his place, gave it a sneer, and tossed it carelessly aside and forgot about it. Then a California heiress called on the F. S. M., said it was her ring, and that it was worth \$25,000 and paid him five thousand as a reward. What's the use of wearing valuable diamonds around if people are going to think they're glass? Those who wear expensive jewels should have neat tags attached to them stating how much they cost. And now that the matter has been brought to their attention they probably will. People who swank around with costly gems these days would do that.

But Why Breathe It?

(From the Lake Forest News.)

WANTED TO BUY—Fur coat, size 38; for blonde. Box J, care of Lake Forest News.

HERE HITLER wants to make marriage to non-Aryans punishable by law. But first, Herr Hitler, what is an Aryan? That word has bobbed up in these United States and been hurled around a good deal in the last few years, and it's time to find out about it. An Aryan must be somebody from Arya, or descendants of people from Arya, but who ever heard of the place? I asked a man once if he was an Aryan and he said no, he was a Democrat. My own family is a very old one, claiming direct descent from Adam and Eve (we have a fig leaf in our coat of arms above a serpent couchant and a green apple dormant), and we don't think the family at any time lived in Arya, or, if they did, they may have had some trouble there and been run out, because there's no mention in the family records of the fact. But we'll have to dig deep into this matter. Where is Arya?

THE CALL.

In days long gone God spoke unto our sires:

"Courage! Launch out! A new world build for Me."

Then to the deep they set their ships, and sailed

And came to land, and prayed that here might be

A realm from pride and despotism free,

A place of peace, the home of liberty.

Lo, in these days, to all good men and true

God speaks again: "Launch out upon the deep

And win for Me a world of righteousness!"

Can we, free men, at such an hour still sleep?

O God of freedom, stir us in our night

That we set forth, for justice, truth and right!

THOMAS CURTIS CLARK.

GOOD MORNING, American Legion, and many times welcome. You have the keys to the city; we now present you with the last line for the day. It's the zero hour; everything's set! All right, let's go!

R. H. L.

How to Keep Well

By Dr. W. A. Evans

To the limit of space questions pertaining to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries, under proper limitations, when return stamped envelope is enclosed. Dr. Evans will not make diagnoses or prescribe for individual disease.

(Copyright 1933 By The Chicago Tribune.)

TICKS.

W E may yet find it advisable to build dipping tanks. When several states passed laws compelling the use of dipping tanks the purpose was to rid the live stock industry of tick fever. The animals to be dipped were the domestic animals on the farm. Tick fever was so costly that eradication was determined to be an economic necessity. Dipping vats were built and filled with solutions poisonous to the ticks. The farmer put every four foot animal on the plank, including dogs and cats, through the vat.

The weak spot in the program was the fact that ticks infest rabbits and other wild animals, and rats and other rodents, and these could not be sent through the vat. The farmer offset this at times by putting his poultry through. In spite of its limitations, the attempt was an unqualified success.

We are finding that ticks spread several very important diseases to man as well as cause him much discomfort as the more immediate effect of their ministrations. They spread Rocky mountain spotted fever, and this disease, far from being limited to the Bitter Root valley, is prevalent all over America. They have it in regions several thousand miles removed from the Rockies. It seems likely that tularemia is a tick disease, and that malady is widespread. Relapsing fever is another important disorder that is tick borne. There is an other tick disease called verruca fever. There are others less important.

A moderate number of cases of tick paralysis have been reported, though the exact nature of this disease is not known. This is enough to impress us with the need, from the human standpoint, of tick control.

Ticks usually get on the clothing of the lower legs. They may stay on a person, either in his clothing or on his body, for a day or two before starting to bore in and feed on blood and body juices. Some of this time is spent in looking for location. Therefore, when a person has been in tick bush, woods, and pastures he may have a day or two to go over himself and his clothing looking for ticks. Since the insect is deliberate in choosing location, search should be made in inaccessible parts of the body. They prefer the back, the neck near the hairline, and the various folds. Once they take hold the head bores in deep and the insect is not easily removed without leaving the head behind. Most authorities hold that the danger is increased when the insect is decapitated in the head end of it with this opinion the public health service does not agree. The best measure of prevention is to

keep away from ticks. Stay out of tick woods and do not lie on ticky ground.

As a rule it is best to wear smooth garments that fit closely around the ankles, silk underwear with ankle cuffs, high boots, trousers in boots, etc. However, it is said tweed outer garments are comparatively safe for the same reason that sheep help to get rid of ticks. The insects get caught in the nap. When one is going into tick country something may be gained by dusting sulphur on the garments and in the shoes.

A bath with kerosene soap and hot water after returning is a more effective procedure. Kerosene is the best tick repellent. A little of it on the clothing and in the shoes before going out should help. To apply to a tick that is boring in, nothing equals one or another of the mixtures used in tick vats. A drop of kerosene is good. A few drops of chloroform used as is done for chiggers has value. It is better to poison the tick than to let it live. After removal of the tick Band-Aid ointment touching the spot with a little iodine.

ERYSIPELAS.

Mrs. M. H. P. writes: For the last two years my 17 year old son has had attacks of erysipelas on his leg, accompanied by high fever. The rash extends from below his knee and covers the foot. One and a half years have elapsed between the first attack, but for the last six months he has had four and always in the same place. Is there anything to be done to prevent these attacks from recurring?

REPLY.

A common name for this malady is red-leg erysipelas. Anders appears to consider this as almost a chronic form of erysipelas. He says that there is a deep focus of infection. From this the streptococci make frequent outbreaks, spreading to other areas of the skin. Have a physician examine the boy closely between attacks looking for some chronic focus somewhere below the knee. Whatever is found wrong in this region between attacks should be corrected. Have your physician consider trying a vaccine after an attack and to prevent another. Try treating the attacks with erysipelas antitoxin.

GAINING HEIGHT.

Mrs. J. O. writes: Is it possible for a boy of 20 to increase his height by being stretched?

REPLY.

No further increase in height can be expected after 17 years of age. Height can be increased a little by standing straight. There is nothing to stretching of limbs. It may lead to training in standing straight. This is under the influence of the will to a certain extent. On the other hand, slouching and slumping lessen height. Those who gain height by standing straight may hold the gain for years if they are thoroughly fit. But sooner or later slouching wins the battle.

FRIEND OF THE PEOPLE

Letters to this department must be signed with names and addresses of writers.

TREE WILL BE REMOVED.

Chicago, Sept. 27.—[Friend of the People.]—Please see what can be done about cutting tree in front of our place. The tree is on the outside of the walk and necessary to remove it. We have asked the property owner to remove it, but he will not do so. S. B. Replying to this complaint, we wish to advise that a work order has been issued for the removal of the tree within the very near future. WALTER WRIGHT, Supt. of Parks, Recreation, and Aviation.

LOAN ON ESTATE.

Chicago, Sept. 27.—[Legal Friend of the People.]—Property was willed through Probate court to five persons.

FRIEND OF THE FARMER

[Inquiries on farm management, financing or governmental regulations addressed to this department must be accompanied by stamped, addressed envelope for reply.]

R. S. A. asks: Does the government make second mortgage loans, and does it accept live stock or crops as security for advance loans?

Answer—Yes, by means of "commissioner's loans" up to \$5,000 per farm, or per person, at the interest rate of not over 6 per cent. Chattel mortgages are accepted as security where land values will not permit the granting of loan required by applicant.

Mrs. M. J. asks: Does the government fix the amount of cream that milk companies can put into a bottle of milk?

Answer—The existing milk agreement between milk companies, farmers and the secretary of agriculture places no restrictions on the butterfat content of milk, except that all milk must meet the standards of the Chicago milk ordinance and rulings of the Chicago board of health.

F. D. G. asks: Have any of the government's appropriations for helping farmers refinance their debts been turned over to the joint stock land banks? They seem to be continuing

NRA Question Box

Following are typical questions occasioned by the national recovery act and their answers, as given by Paul Kuroki, secretary of the Chicago Recovery council, which is aiding President Roosevelt's economic rehabilitation movement here. Other questions and their answers will be given daily.

Q.—May the letters "NIRA" be used as a trade name by private parties?

A.—The letters "NIRA" constitute a pronounceable word referring to the national industrial recovery act. This is a statute of the United States government designating a system of federal government. The name itself or the abbreviation thereof, either in whole or in part, may not be appropriated for private purposes.

Q.—My partner and I own a barber shop and do all the work. Under the Blue Eagle may we work as long as we want or are we limited as to the number of hours per week?

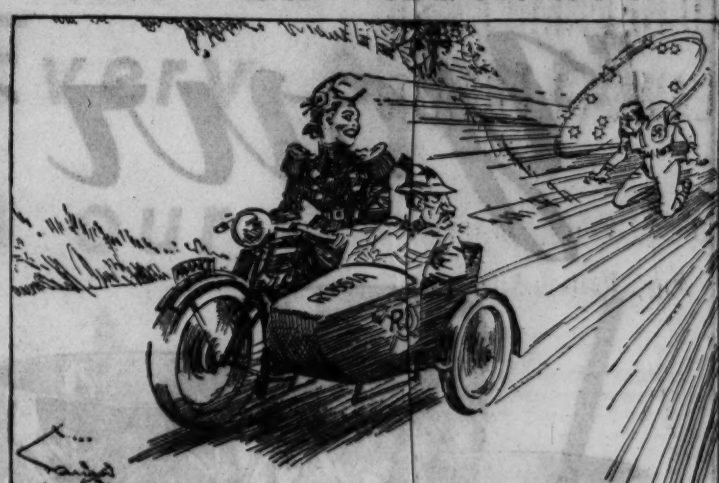

A.—In cases like yours, in order to qualify under the NRA, 52 hours a week are the limit. This applies to both partnership and one-man barber shops.

Q.—May prices be fixed in codes?

A.—The consumers' advisory board of the NRA on Sept. 8 adopted a policy opposing general price fixing provisions, direct or indirect, in all codes, with the exception of a limited number of natural resources industries where cutthroat competition has led to public disaster.

"O! WHAT A PERFECT COMBINATION!"

[Glasgow Evening Times.]

Is an alliance between France and Russia pending?

VOICE OF THE PEOPLE

Writers should confine themselves to 20 or 300 words. Give full names and addresses. No manuscripts can be returned. Address Voice of the People, The Tribune.

THE HELPLESS POLITICIAN.

Chicago, Sept. 26.—In your editorial, "Financing the Cities," as in so many others along the same line, you always overlook one very important point, and that is the responsibility that the money lender has had in making it possible for our politicians to waste O. P. M.

It has been the money lender, rather than the politician, who has been primarily responsible for municipal extravagance, and it is the money lender, rather than the taxpayer, who should suffer the consequences. The taxpayer has had practically nothing to say, whereas the money lender has had everything to say. He could have held on to his money. Nobody ever forced him to lend. Putting responsibility where it really belongs will do more good than continually harping on the wastefulness of our cities and other governmental units. Of course they are wasteful. Why not? Money is so easy to get! Would you feel sorry for a man who makes it a practice to lend to drunkards, gamblers or spend-thrifts, and then whines when he realizes that he extended credit unwisely? Then why worry about the money-lender who has been financing our cities? Let them begin to realize that they may never get repaid and they'll quit lending money. Our cities will then be on a cash basis and not a dollar can be spent until it is in the till.

I have been greatly pleased with your editorials the last few months, and there is hardly a day but what I say, "Thank God for THE TRIBUNE."

J. L. BRANDNER.

REPUBLICAN TACTICS.

Pittsburg, Kas., Sept. 27.—Although registered as a Republican, I denounce the G. O. P. elephant the bankrupt stock of a disreputable era. "Republican economics" has served a purpose, but let us hope now represents a political geological past, interesting only as a basis of progress evolution. We wish you do not persist in dying in fighting the new order but may adapt yourself peacefully to progressive change and live.

No defense of personal liberty and opportunity can hide the great inequalities of your Chicago and the collapse of your Republican economics. You have it in your power to obstruct but not to stop the great change. You likewise may use the great intelligence of your organization to hasten the new day rather than look back longingly to the good olden days. Can you do it?

JAMES MONROE BRAGG.

SPASHED.

Chicago, Sept. 27.—At 12:55 Tuesday afternoon, Sept. 26, I was on the safety island at 58th street and Ashland avenue waiting in the pouring rain for a southbound street car. A 36th and Ashland car, No. 5298, came along and not only would not stop to let me on the car but went by with such speed that I was splashed to such an extent as to cause a severe cold and doctor bills. Now I realize the motorman might be wanting to make up for lost time, due to the weather, etc., but if the employees of the street car company have no more consideration for its patrons than this, a good slogan for them would be, "The Public Be Damned."

M. COCKRAN.

IN DEFENSE OF THE COURTS.

Indianapolis, Ind., Sept. 27.—When a mockery is made of our justice courts and when they are used as an advertising agency and medium for publicity, then a year in jail for the guilty ones is a mild indeed. RALPH T. METCALFE.

REBIRTH.

Chicago, Sept. 28.—This seems to be a fresh year. Although many are supposed to yawn and give up their dead in the middle of the night, a friend of mine claims he saw old Jim Watson at the Hamilton club at 2 o'clock Wednesday afternoon. EDWARD L. WARNER.

A USE FOR THE FAIR LOTTE.

Chicago, Sept. 28.—[After the Fair is over could there be a letter use for the wonderful iron fence that encloses the grounds than to put it along the western boundary of the park route of 12th street to 39th street, thereby shutting out the unsightly view of the railroad yards from the outer drive?

MRS. E. M

PILSUDSKI SEEKS TO REVAMP BASIC LAWS OF POLAND

Col. Slavek, Marshal's
Aid, Tells of Drive.

BY DONALD DAY.
[Chicago Tribune Press Service.]
WARSAW, Poland, Oct. 1.—Marshal Jozef Pilsudski, who has been in control of Poland since 1926 when he ousted the government by a putsch which resulted in street fighting in Warsaw, is determined to change the Polish constitution this winter.

When Pilsudski took the reins of government and gave them to the colonels of his legion, he announced that he would call new elections and permit the parliament to function, at the same time he warned the politicians, who had brought Poland to the brink of anarchy, that they would have to behave. He established his own political party—the Nonpartisan Bloc. While in the last elections the party won a majority, still the Pilsudski group has not enough votes for the two-thirds majority required to amend the constitution.

Rough and Ready Soldier.
The marshal has entrusted the changing of the constitution to Col. Valery Slavek, former premier and Pilsudski's most intimate friend. Like Pilsudski, Col. Slavek is a rough and ready old soldier. He is the only man in Poland who dares to cuss back when the marshal indulges in one of his famous bursts of profanity. Like a couple of Irishmen, Pilsudski and Slavek quarrel "for the fun of it," but they never have had a serious difference.

Although Slavek has an exceptional record of bravery during the war and has many decorations, he prefers to dress in civilian clothes. The colonel has succeeded in creating a reputation as a politician equalling his record as a soldier. Today he is the leader of Pilsudski's party and is confident he will be able to swing enough votes in the next session of parliament to amend the constitution.

"The mistakes embodied in our constitution resulted in the overthrow of the government in 1926," Col. Slavek said. "Poland today has a democratic form of government even though she did have a parliament. The parliament did not represent the people, but the demagogues. That a man is a good speaker does not necessarily mean he is a good worker."

Sees Mistakes in System.
"When Poland adopted the French parliamentary system two great mistakes were made. In the first place, parliament had moral responsibility but no judicial or political responsibility. Secondly, parliament, because of the large number of parties, was not able to accomplish any work. It required weeks to reach a decision. Today the development of state life makes necessary the division between the executive and legislative branches of government."

"The contemplated change in the Polish constitution makes parliament corrective to executive power. The founders of the United States revealed in the constitution they had studied the writings of Montesquieu, the French philosophical historian, who was one of the first to advocate the division of government into three branches—executive, legislative, and judiciary. In America, the President is chief executive, but he has no control over parliament. Often he is obliged to make concessions to the legislators to push through his program. This does not make for efficient government."

"The president of Poland will have power over the executive, legislative, and judiciary branches of the government so that his chief duty will be to see that they cooperate efficiently and harmonize for the good of the state. He further will have power to either dismiss the cabinet or dissolve parliament and call new elections to place a debatable question or policy directly before the people."

Expects Victory in Winter.
"Candidates for the presidency are limited to two. One is nominated by the president in office and the other at a joint session of parliament and senate. If they are unable to agree the president may nominate the second candidate. To effect this change in the constitution a two-thirds majority vote is required in parliament. I believe we will be able to obtain such a majority this winter."

Col. Slavek sees an analogy in the situation of Poland before partition by Prussia, Russia, and Austria in 1792-'93 and today. When Poland was a democratic state in which the democratic ideal had been pushed to a ridiculous extreme. She was governed by nobles who evolved the idea that any member of parliament could block the passage of a law by crying veto. Government became a farce. Poland was surrounded by three monarchies who arranged three divisions and effaced Poland from the map.

Today Poland is situated between two dictatorships. One is in Moscow. The other is in Berlin. The question of organizing a strong, efficient government has become paramount to Polish patriots.

INDIANA FUGITIVES SEPARATED, CAPTAIN OF POLICE BELIEVES

Indianapolis, Ind., Oct. 1.—(P)—Belief that eight convicts still at large after their escape from the Indiana state prison last Tuesday, have separated and must be hunted singly, was expressed by Matt Leach, captain of state police here tonight.

Meanwhile the body of James Jenkins, fatally shot at Beanblossom, Ind., last night when cornered by residents at that Brown county village, was taken to his former home at Bedford, Ind. Jenkins was believed by Leach to have been a leader of the break which released ten long term prisoners.

The tenth convict, James Clark, was captured Friday night by Hammond police, and was returned to the prison. Sheriff Charles Neal of Harrison county, whom Clark and three other convicts kidnaped as they left the prison and kept prisoner with them until Friday, said he believed the trio who held him still were hiding in northern Indiana woods not far from the prison. He identified them as Walter Detrick, Joe Fox and John Burns.

JAPAN'S THREAT AGAINST CHINA STIRS NEW CRISIS

Another Anti-Tokio Movement Launched.

BY JOHN POWELL.

[Chicago Tribune Press Service.]
SHANGHAI, Oct. 2.—[Monday]—A movement against Japan again flared up here yesterday as a result of a vigorous Japanese protest against statements made recently by Wellington Koo, Chinese delegate to the league of nations session in Geneva. The Japanese threatened "drastic action" unless the Nanking government disavows responsibility for Koo's statement that "all signs in the Far East point to a major conflict shortly unless steps are taken to prevent the government from becoming a scrap of paper."

Antagonism has also been stirred by alarming reports that Japan has further designs on north China, despite the withdrawal of Japanese troops from the demilitarized zones following the recent flight of the Chinese rebel forces of Gen. Fang Chen-wu.

Apply Anti-Dumping Tariff.
The renewed movement against Japan took concrete form yesterday in the decision of the newly created national economic council to apply an anti-dumping tariff against a long list of Japanese products.

The Japanese protest regarding Koo's utterances was handed to Premier Wang Ching-wei, who is also acting foreign minister, yesterday. "The Chinese have as yet made no reply," Reports from Tientsin say that Japanese military activities in connection with the suppression of the rebel general, Fang, have caused a renewal of Sino-Japanese complications because the Japanese seized and expelled Chinese guards from Tientsin, which is the port of entrance to Tientsin, and also because the Japanese refused to permit Chinese to send police reinforcements to the Lwantung area north of Tientsin to suppress bandits terrorizing that region.

Chinese Troops Wounded.
Chinese troops also are incensed because Japanese airplanes while bombing Fang's forces, also caused considerable casualties among the regular Chinese forces defending Kaoliang. Yesterday the Japanese definitely refused to permit Gen. Ya Hsiueh-chung, defense commissioner of Tientsin, to send 2,000 police reinforcements to Chinwangtao despite the fact that the bandit leader Ta Tao-tze (Big Rat) is rapidly increasing his influence over the entire district.

Chinese authorities at Tientsin also are spreading alarming reports that the Japanese are building a big airport there. Chang Chi, prominent member of the Kuomintang (government) political organization, declared that a report is being circulated by the Chinese official Kuo Min service that Hpei, Shantung, and Honan provinces will shortly follow Manchuria into the control of the Japanese military unless the Chinese government takes steps to prevent Japan's aggressive designs.

STRANGE DISEASE HITS CHINA; 50,000 REPORTED DEAD

[Copyright, 1933, By the New York Times.]
SHANGHAI, Oct. 2.—[Monday]—In one county of Hunan province, in south central China, a mysterious disease, believed to be a form of malaria, has broken out, it was reported here today.

The county, which borders on Kiangsi province, has a population of 400,000, and it is said that already 95 per cent of the people have been stricken and that 50,000 have died.

"It is difficult to find men strong enough to help bury our dead," one message said. Reports that a plague has broken out in Manchuria and hundreds of lives lost have been received here.

A "QUALITY EXHIBIT" Every Month

with our

Marfields

Here's another quality story to open your eyes. Quality fabrics, quality workmanship, quality details—every Marfield has to put in the "ground work" before we will consider it eligible for the title. Look at the Marfields on this page. Every one is a fashion leader, selected as an outstanding fashion of the month. Schiaparelli's fur stole tied in a bow, a deluge of rich trimmings—and a burst of blackberry, olive greens, Chinese reds. Doesn't this sound like fashion news? Then hold up your yardstick for quality and marvel at the price tags. These Marfields certainly are Examples "A" on how shoppers can get the most for their money!

The Marfield Alpiner

A la Schiaparelli, with the air of a mountain climber and the feather of a bird. Cerise, bitter-sweet, green, brown, black. Hand-sewn felt, \$7.50. Moderately Priced Room, Fifth Floor.

The Skull-Cap Glorified

Fits like a monk's cap with a halo of curls bursting out all around. The ears of grosgrain give width to the stitched crown. Felt in Fall costume colors. \$7.50. Debutante Room, Fifth Floor.

Use fur whenever possible—especially on dresses! Galyak on the white dickie collar to contrast with the dark crepe. Black, blackberry, bronze green, brown. 33-42 at \$29.75. Women's Moderately Priced Sixth Floor.

Bow of satin printed with gold—something they're doing a lot of in Paris this year. Black wool crepe with red or white, green or rust with brown, gray with red. 14-20, \$29.75. Misses' Dresses, Sixth Floor.

Suspenders of fur and an ever so flattering high collar that snugles under your chin... all new. Black, brown, and green suede cloth with lovely soft gray Squirrel. 11-17 at \$59.75. Petite-Miss, Sixth Floor.

We designed this Marfield coat with just the lines nine-out-of-ten women want. Black with Persian or Hudson Seal. Brown with Kolinsky or Squirrel. Gray with Squirrel. \$79.50. Women's Coats, Sixth Floor.

Idea from Schiaparelli—the stole of fur tied in a bow. Isn't it young? And fine workmanship—even to an interlining of wool. Black with Persian, Brown with Kolinsky. 14-20, \$97.75. Misses' Coats, Sixth Floor.

FASHION SHOW

12:30 to 2 TODAY IN THE
WALNUT GRILL, SEVENTH FLOOR.

Blackberry, again. What a wonderful shade to wear with your dark coat. The faulle crepe is heavy enough for town wear right now, too. Simple lines and good workmanship throughout. Black, brown and rust. 16-40 at \$10.75. Utility Dresses, Fifth Floor.

Almost regal—the satin is of such heavy quality and the decolletage so dramatic. No—it's not an evening gown, but it's equal to one. Like a fairy princess in antique ivory. Also pale peach, aqua blue and buttercup. Sizes to 38 at \$7.95. Lingerie, Fifth Floor.

MARFIELDS ARE ALSO IN
EVANSTON AND OAK PARK.

Only 30 days more in which to see the Fair

MACHINE GUN FACES KELLY ON ROAD TO JAIL

State Charge Providing
for Death Is Urged.

Oklahoma City, Okla., Oct. 1.—(AP)—Under machine gun bullets, George Kelly, ex-convict, left a bi-motored plane here today to face trial, probably Oct. 9, for the Charles F. Urschel \$200,000 kidnaping.

"Hello, gang, nice trip," the hoodlum said as he followed a group of armed federal officers out of the nine-passenger plane from Memphis at noon.

To avert any rescue attempt at the airport a machine gun was pointed at Kelly and another on the crowd of several hundred behind wire fences at the field.

Urschels Identify Kelly.

Urschel, who spent nine days in the hands of kidnapers last July, watched Kelly alight, then turned to Federal Prosecutor Herbert K. Hyde and said: "That's the man."

Inside her sedan Mrs. Urschel declared: "That face will haunt me as long as I live."

She saw in memory two machine gunners, identified as Kelly and Bates, rush her husband from a quiet bridge game on the sunporch of their town house here on the night of July 22. She had directed the negotiations that resulted in the payment of \$200,000 and his release.

Wears Double Shackles.

Kelly, shaved, but with his dark brown hair growing out under the yellow dye he had adopted as a disguise, was shackled hand and foot.

"I can't walk fast," he grumbled as the officers sought to hurry him to a waiting car.

Kelly and his slender wife, Kathryn, were rushed in a motorcade of ten cars from the municipal airport to the brick little Oklahoma county jail. Hyde said he would recommend the filing of state armed robbery charges tomorrow against both Kelly and Albert Bates. Bates was convicted the other day on federal kidnaping conspiracy charges. Oklahoma law provides a maximum penalty of death for robbery with firearms. The Kellys probably will be arraigned on Thursday in the Urschel case.

Mrs. Kelly told Hyde she was "not guilty" and that she wanted to face a jury.

"I want to see a lawyer first," was the way Kelly was quoted by Hyde, who said all indications were that the accused kidnapers would not plead guilty to the federal charge.

Basis of Robbery Charge.

Hyde planned to confer with County Attorney Lewis R. Morris of Oklahoma City in regard to the armed robbery charges which were made possible because the kidnapers took more than \$50 at machine gun point from Walter Jarrett, who was seized with Urschel.

Harvey Bailey, Bates, R. G. "Boss" Shannon, his wife and his son, Armon Shannon, Barney Berman, and Clifford Kelly are to be sentenced by Federal Judge Edgar S. Vaughn Saturday under the "Lindbergh" law providing life imprisonment as the maximum.

IOWAN DIES AFTER CRASH.

Mount Pleasant, Ia., Oct. 1.—(AP)—Lloyd Holst, 21, of West Liberty, died at a hospital today, bringing to two the number of persons killed as a result of a crash between an automobile and motorcycle last night.

KELLY TAKEN TO OKLAHOMA CITY FOR TRIAL

Machine Gun George Kelly (right) and his wife, Kathryn, as they landed from airplane in Oklahoma City, where Kelly will be placed on trial for his part in the kidnaping of Charles F. Urschel. The gangster and his wife are under heavy guard.

NEW COURT TERM TO PUT LIFE INTO CRIME CAMPAIGN

2 Murder Trials Are Nearing End.

The judges of the Criminal court, who felt heir to a well developed crime war begun by Judge John Prystalski, former chief justice of the Criminal court, and a group of volunteer judges, will open a new court term today. It was announced yesterday by several judges that they have hopes of putting new life into the crime campaign, which showed only spasmodic signs of activity during the September term.

The judges have fifty-four cases on the court calendars for today. Twelve are murder indictments. Although ground was lost in the war last month over the preceding month, it was indicated that the judges now have their court calls in such shape that they should be able to make up the lost ground and show some gains on the congested calendar.

Sullivan to Be Absent.

Chief Justice Philip L. Sullivan, an official of the American Legion, will be absent from his duties until Thursday, it was announced. Judge James F. Farley will take over the executive duties of the court temporarily and will impanel the new grand jury today. A new jury venire will also appear for service today. Several judges put some of the blame for the frequent not guilty verdicts last month on the type of citizens summoned for jury service.

"During the month of August we had exceptionally fine juries," said one judge. "It seems to me that the jury commission used care in selecting that venire, but the one during the last court term, could not have been picked with the same care. We need high grade men on juries, who can use judgment and see through

some of the flimsy defenses offered by criminals."

Calendars Are Set.

It is pointed out by the judges that the first term of court is never productive of speedy justice, because the new jurors have to see cases for trial dates over the coming year. However, each judge now has a complete calendar, it was announced, and there will be no excuse for any court closing before the usual adjournment time of 4:30 or 5 o'clock because of lack of work.

State's Attorney Courtney is to attend the weekly luncheon of the judges today when a plan of cooperation for speedy justice is expected to be worked out. The prosecutor said he will urge the judges to attempt at least to equal the mark of Judge Prystalski and his group of volunteer judges when they sentenced 251 criminals in one court term. Last month only 190 criminals were sentenced to the penitentiary.

Meanwhile two Criminal courts, which started murder trials last week, will attempt to speed the procedure when the cases are resumed today.

Luetz Trial Nears End.

The trial of Otto Luetz, an embalmmer, who is charged with slaying his wife, is expected to be completed before Judge Donald S. McKinlay. Defense Attorney James M. Burke said he expects to close his case today with the testimony of the defendant's daughter, Doris, 14 years old. She is expected to bear out the defense theory that Luetz was intoxicated at the time of the killing and therefore not responsible under the law.

Judge Benjamin Epstein said he will speed up the trial of five youthful west side hoodlums, who are charged with slaying Vito Fiorinetta, 3152 Fifth avenue, a grocer, during an attempted robbery. The prosecution is asking the death penalty for the defendants, James Palumbo, Sam Mirabile, Tony Venezia, John Terracino and Frank Pasocello.

Woman Killed by Train During Treasure Hunt

Los Angeles, Cal., Oct. 1.—(AP)—Seeking a clue in a "treasure hunt," Mrs. Jane Sadler, 23, was crushed to death last night by a passenger train. Her husband, Harold Sadler, and a group of friends witnessed the accident. Mrs. Sadler and a friend, Irma Reese, had been directed to the railroad right of way in the search. Hastening to be the first to the prize, she stepped in front of the locomotive.

None to Tell How He Died.

Leahy did not die as Judge Rosalsky years ago predicted he would—in the electric chair—but some one came on him about dawn out of the dark of the staircase leading to the second floor speakeasy on upper Broadway, and he was apparently struck down before he could defend himself.

Police found in the dead gangster's pockets less than a dollar in silver and a key to a \$12 a week room, where he was registered under the name of J. S. Royer.

SPOT'S 18 YEARS OF CRIME ENDS: 'IS FOUND DEAD'

New York, Oct. 1.—[Special].—A terse sentence on a police file card, "§1815—concealed weapon; suspended sentence"—recorded, eighteen years ago, Joseph [Spot] Leahy's first milestone on his career of crime.

Even then he was a leader, with Vincent Gaffney of the notorious west side Gopher gang, which did "strong-arm" work for Larry Fay.

A record clerk at headquarters jotted down the last entry today: "10-1-33—found dead at 2744 Broadway; throat cut. Detective Hauptmann, homicide squad, assigned."

Long List of Entries.

In between the first and the last a long list of entries scrawled in faded ink by many hands stretched down the filing card beneath the rogues' gallery photograph of the freckle-faced "Spot," who was feared by all, trusted by none, and hated by many.

He was only 36 years old when he died miserably in a speakeasy hallway, but he had been arrested twenty-one times since 1916 for nearly all of the felonies, and he was suspected by police of a dozen murders. He was convicted only five times.

When he died he was the last of the old gang still alive and at large except one. The rest were dead—some killed by police bullets—or in prison serving long sentences. The single exception, Vincent McCormick, wanted for two murders, is believed to be in the French foreign legion.

None to Tell How He Died.

Leahy did not die as Judge Rosalsky years ago predicted he would—in the electric chair—but some one came on him about dawn out of the dark of the staircase leading to the second floor speakeasy on upper Broadway, and he was apparently struck down before he could defend himself.

Police found in the dead gangster's pockets less than a dollar in silver and a key to a \$12 a week room, where he was registered under the name of J. S. Royer.

Try Your Dentist's Way of tooth cleaning—

USE POWDER

100% Cleansing Properties

Twice that of tooth paste

No Grit—No Pumice

Cannot possibly scratch the softest enamel

Lasts Longer—Costs Less

Outlasts tooth paste 2 to 1

Powder Cleans and Whitens Teeth—as nothing else can

THERE is nothing known that will clean and polish teeth so quickly and leave them so gleaming white—as POWDER.

That is why your dentist, when cleaning your teeth, as you know, always uses powder.

As it is only the powder part of any

dentifrice that cleans, a dentifrice that is ALL POWDER just naturally cleans best.

Dr. Lyon's Tooth Powder is ALL POWDER—100% cleansing properties. This is more than twice the cleansing properties of tooth pastes.

Dr. Lyon's Tooth Powder cleans off all stains and tartar, and polishes the teeth in a harmless and practical way that leaves them sparkling—many shades whiter. Free from all grit or pumice, it cannot possibly scratch, or injure the softest enamel.

Dr. Lyon's Tooth Powder keeps

your teeth REALLY CLEAN and clean teeth mean—firm, healthy gums, freedom from pyorrhea and the least possible tooth decay.

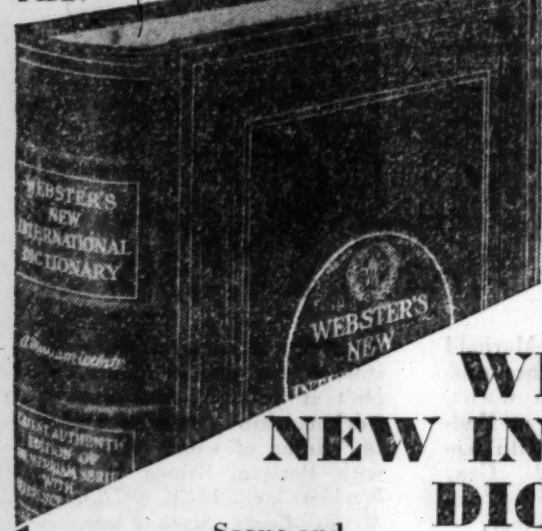

Once you use powder you will never go back to a less scientific way of tooth cleansing. It leaves your teeth feeling so much cleaner, your mouth so refreshed, and your breath so sweet and pure.

Dr. Lyon's Tooth Powder is not only doubly efficient, but it costs only half as much to use. Even a small package lasts twice as long as a tube of tooth paste.

Dr. LYON'S TOOTH POWDER

A Whole Library in One Volume

NOW OFFERED ON OUR
LIBERAL BUDGET
PLAN

Here, in one great book, there is put at your service a wealth of information that is amazing. The contents of this one convenient volume are equivalent in type matter to a 15-volume encyclopedia. The scope and completeness of its information make it an always dependable question-answerer. Its encyclopedic treatment of thousands of subjects makes it a reference work of practical information that goes far beyond the ordinary conception of a dictionary.

The "Supreme Authority" of the English-Speaking World

Wherever men and women value quick, accurate information this great book is in constant use. It is the foundation book of every home or office library—the most widely used reference book in the world.

WEBSTER'S NEW INTERNATIONAL DICTIONARY

Scope and Completeness

Webster's New International Dictionary is really many dictionaries in one. It offers not only a complete general vocabulary, but also a complete vocabulary of terms in scores of special subjects. It forms, in effect, a special dictionary for each science and profession at the same time that it meets fully the needs of general use. That is why it is the "Supreme Authority" in the Courts, Schools, Newspaper offices, and of Lawyers, Doctors, Architects, and other professional men. That is why it can meet your needs so fully, no matter what they may be.

Encyclopedic Treatment

Not only is the Merriam-Webster the most perfect lexicon of the English language ever published but also it is a wonderful storehouse of useful general information. Whenever you turn you find admirably condensed treatises, or tables, or illustrations. As an example, the word coin as a piece of metal used as money is first defined briefly. Then there are four columns giving the names of more than 450 coins, the names of the countries in which they are used, and in many instances are accompanied by illustrations. Thousands of subjects are treated with this remarkable thoroughness.

Biography • Geography

More than 12,000 noteworthy men and women are included in the biographical section, which offers concise information on just the points you are most likely to want to know. 22,000 geographical entries in the Gazetteer give the most useful information on cities, states, nations, rivers, mountains, islands, and other geographical points of the world.

Law • Religion • Fiction • Mythology

Musical art; chemistry; physics; science; tables of weights, measures, etc.; foreign words and phrases with translations and pronunciation; are among the many special features which make Webster's New International Dictionary the most valuable reference work you can possess.

FREE Illustrated Booklet of Fascinating Stories

"INTERESTING ORIGINS OF ENGLISH WORDS"

Without cost or obligation we will send you a most interesting illustrated booklet containing a collection of fascinating stories about the origins of words. Just mail this coupon. We will send also details of our novel edition of the Atlas without extra charge and full information about Webster's New International Dictionary.

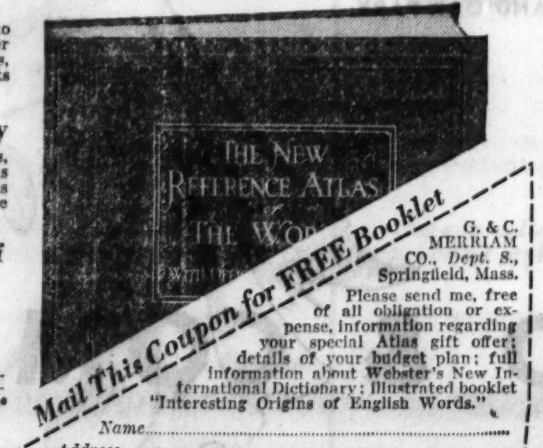

A Merriam-Webster

Webster's New International gives you the whole word power of the English language. In its 3,000 pages there are 457,600 entries offering you instantly the answers to questions that arise daily in home or office.

Rely on the testimony of Presidents and Department Heads of the leading Universities; the endorsement of hundreds of Supreme Court judges; the judgment of librarians all over the country who have chosen the Merriam-Webster for their own exacting needs.

YOURS Without Extra Charge NEW WORLD ATLAS

If you take advantage of the special offer now made in connection with Webster's New International Dictionary. This splendid Atlas is new throughout—new maps, new plates, new index, new binding—and has latest official census figures for all cities and towns in the United States. Size 9 1/2 x 12 1/2 inches. Mail the coupon for details of the offer which gives you this useful Atlas without extra charge.

JAPAN LAUNCHES TRADE WAR WITH BRITISH EMPIRE

Treaty Expires; Fight to
the Finish Seen.

(Chicago Tribune Press Service.)
TOKIO, Oct. 1.—The expiration to-
day of the Indian-Japanese trade
agreement plunged Japan into the black-
est economic jam in its history. Its
foreign trade policy must now witness
a complete reorientation, for the In-
dian question has brought the vexing
dispute not alone with India but with
the whole British empire to a head.
This may result, in the opinion of
serious observers, in the permanent
alienation of the traditional friendship
of Great Britain and Japan.

Speak Openly of War.
Japan, desperately striking back at
the British, who are seeking to force
Japan out of all British markets, is
prepared to carry the trade war to
a finish fight. Sentiment against the
British in some circles is growing
more intense. Fiery posters are being
displayed in the leading cities and anti-
British handbills are being widely dis-
tributed.

A much advertised book, discussing
the probable outcome of an armed con-
flict with Great Britain, has already
become a best seller. It concludes
with the statement that war between
the two countries has become un-
avoidable and will be waged between
the navies of the two countries in
South Pacific waters. The outcome is
left in doubt, the author contenting
himself with the statement that both
navies will be crippled.

Public Is Calm.

Despite the undoubted seriousness
of the situation, the public at large is
not unduly concerned. There is no
public agitation and while feeling
against the British is certainly cool,
there is no attempt on the part of the
people in general to force the fight.
One reason for this is the conviction
that the British will eventually lose
out anyway.

In the meantime, having despaired
of effecting a speedy understanding
with the British, the Japanese have
decided to abandon their markets in
some of the British possessions for
the time being and develop other ter-
ritories. In this Japan is playing a dan-
gerous game, its only concern being
its own immediate future.

Japan realizes that it is fighting a
life-and-death battle. To keep its in-
dustries from being snuffed out, it
will cut into American markets in
South America and will seek a share
of the British markets in the Dutch
East Indies.

U. S. See As Profiting.

For the same reason, Japan will
purchase more American raw ma-
terials, principally cotton and some
wheat, because of the necessity to buy
the British cotton and Australian
wheat and wool producers in retaliation
for the closing up of British mar-
kets to its finished goods.

This situation is being closely
watched by American, Latin American
and European trade representatives
here. Business delegations from Brazil,
Argentina, France and Germany are,
or recently have been, in Tokio.

Knowing that an open break between
Japan and Great Britain was inevit-
able, and sensing that the Anglo-
Japanese trade rupture would result
in a reorientation of Japan's trade
policy, they felt that to spite Britain
Japan would lead a willing ear to
trade proposals from other countries.

This Japan has done, with the re-
sult that orders which went formerly
to Australia for wool, have been di-
verted to South America. Within the
next few months orders for cotton
and wheat are expected to be placed
with the United States.

Cuts Into British Trade.

Already Japan is cutting into Brit-
ish trade in Latin America and other
parts of the world by extending its
export markets in its battle to keep
its industries from being snuffed out
by the no less reckless action of the
British in keeping Japan out of their
possessions.

Undoubtedly a portion of the losses
Japan will sustain in the British mar-
kets will be made up in markets hith-
erto developed by Great Britain, prin-
cipally in the East Indies, Africa, and
South America. Some of this will be
at the cost also of the United States.

The Anglo-Japanese-Indian trade
question is fast developing into a
Chinese puzzle.

Problems are Cited.

One would hardly imagine that the
problem of Indian dominion status,
the hydro-electric facilities in Japan,
the trade disputes between Australia
and South Africa and a myriad other
apparently unrelated matters would
be involved in the present dispute.

But they are.

The question of Indian dominion
status comes up through Japan's de-
sire to have agreements reached at
Simla become binding without the
consent of the British government.

England, undoubtedly would have
raised no objection to this were it
not for the fear that conceding such
rights to the Indians might pave the
way for the Indians to obtain domi-
on status.

CATHOLICS URGE CHARITY'S NEEDS FOR THIS WINTER

Speakers See Change in Economic Era.

New York, Oct. 1.—[Special.]—A summons to American Catholics to fight the poverty and distress growing out of the economic and social crisis, with new devotion and with weapons adequate to unprecedented problems, was sounded tonight by some of the foremost clerical and lay leaders of that church. The call was issued at the first general session of the national conference of Catholic charities, more than 4,000 persons filled every seat and all available standing room in the Metropolitan Opera house.

The session was attended by Cardinal Hayes, Archbishop Amleto Givanni, Cioconari, apostolic delegate, and a large number of archbishops and bishops.

See End of an Era.

The conviction of many Catholic leaders that the downfall of an era and the beginning of a new one are under way was emphasized by the Rev. Robert P. Keegan, president of the conference and secretary for charities to Cardinal Hayes.

Msgr. Keegan expressed the belief that the depression was ending, but reminded his audience that 3,500,000 families in the United States still were on the relief rolls and relief work was more essential than ever. He spoke of "the saving of countless lives from hunger and want," and justified the intervention of government to restrict economic power.

At Smith Makes Speech.

Ex-Gov. Alfred E. Smith spoke. He said responsibility for promoting social justice rested equally upon the state and upon the individual, but he added, "there is no use enacting laws promoting social justice unless you appropriate enough money to make them effective."

The Very Rev. William J. Kerby of the Catholic university, Washington, D. C., told of the life and aims of Frederic Ozanam, founder of the Society of St. Vincent de Paul, a charitable group which is holding its centenary in connection with the conference. It was founded in France 100 years ago and now has 35,000 members engaged in social service work.

The delegates were welcomed by Lieut. Gov. Gray and Mayor O'Brien.

TURKS EXPECT PACT ON VISIT OF JUGO-SLAV KING

ANKARA, Turkey, Oct. 1.—(AP)—Political circles are attaching great importance to the visit of King Alexander of Yugoslavia, who is to arrive Tuesday at Istanbul for conversations with President Mustafa Kemal Pasha.

The Turkish official press said the visit would pave the way for a Jugo-Slav-Turkish accord, facilitating subsequent accords with other members of the little entente (Jugoslavia, Rumania, and Czechoslovakia). The press expressed hope that Soviet Russia will join the little entente and the Balkan bloc, of which the recent Jugo-Greek entente cordiale was the starting point. Belief was expressed that Bulgaria will inevitably join.

After King Alexander's conversations with the Turkish president the next move toward realization of the bloc will be a visit to Ankara Oct. 10 of Rumanian Foreign Minister Nicholas Titulescu as spokesman for the little entente, and on Oct. 15 of Jugoslavian Foreign Minister Bosko Jetic.

LITTLE ORPHAN ANNIE: Duped

SURGEONS TO HOLD TWO MASS MEETINGS DURING CONVENTION

Two large mass meetings, at which the leading surgeons of the country will speak to Chicagoans and World's Fair visitors on individual health problems, have been arranged during the 23d annual convention of the American College of Surgeons, which opens next Sunday in Chicago.

The convention will be the largest surgical gathering in history. Five thousand surgeons from the United States and Canada, as well as distinguished visitors from a dozen foreign countries, will attend. In addition to the convention sessions at the Stevens hotel they will attend nearly a thousand clinics during the week in fifty Chicago hospitals.

The first of the mass meetings which the general public is urged to attend will be held Sunday evening in the Hall of Science at the World's Fair. The speakers will include Dr. J. Bentley Squier of New York, retiring president; Dr. Franklin H. Martin, director general; Dr. William D. Hargard of Nashville, president-elect, who will be installed during the convention; and Dr. Charles H. Mayo of Rochester, Minn.

The second mass meeting will be held Wednesday evening, Oct. 11, in the Chicago Stadium. Dr. Mayo will speak on "Adding Years to Your Life and Life to Your Years." Dr. Burton J. Lee of New York will talk on cancer.

At Smith Makes Speech.

Ex-Gov. Alfred E. Smith spoke. He said responsibility for promoting social justice rested equally upon the state and upon the individual, but he added, "there is no use enacting laws promoting social justice unless you appropriate enough money to make them effective."

The Very Rev. William J. Kerby of the Catholic university, Washington, D. SATURDAY'S PUZZLE SOLVED

2 TRIBUNE FUNDS END SUCCESSFUL YEAR OF SERVICE

Free Ice for 1,328 and 2,000 Vacations.

Two TRIBUNE charities, the Camp Algonquin fund and the Free Ice fund, have closed their books upon one of the most successful years in point of service in their history.

During the hot summer months 1,328 needy families were given ice regularly through tickets distributed by the United Charities, the official administrator of the two funds. The camp, located 45 miles northwest of Chicago near the town of Algonquin, provided 2,000 free vacations of two weeks each to mothers and children of the congested city districts.

Joel D. Hunter, superintendent of the United Charities, commented yesterday on the extent to which the poor get help from various charitable enterprises such as The Tribune Ice Fund and Algonquin camp fund.

In a report showing the sort of calls coming in to the fund, he said, "we found that of 223 appeals, 215 of the families were already in touch with some organization which would supply the need. Of the 108 remaining it was found that ice was really necessary in only four of the cases."

Free Families Without Help.

"I think this indicates that while there is undoubtedly a great deal of suffering in Chicago, it also indicates that those who are in the greatest need are in touch with some organization which is doing something to relieve the distress. Even with all the troubles of the last year or two there are few families who have been without any help whatever."

Five hundred thousand pounds of ice were distributed to families served by the United Charities and the following other charitable agencies: Alken Institute, Central Charity bureau, Children's Memorial hospital, Infant Welfare society, Jewish Social service bureau, Juvenile court, Municipal Tuberculosis sanitarium, St. Rose's day nursery, St. Paul settlement and day nursery, St. Elizabeth's day nursery, and Madonna center.

The Camp Algonquin report showed larger gains in weight among the undernourished children than the previous year. Seventy-six children spent the summer in the camp. All but one gained in weight. The average gain was 5 pounds for the season against 3.56 pounds in 1932.

Given Special Care.

All the all summer children were under special expert care provided by the Elizabeth McCormick memorial fund. The largest group of vacationers was the two week group, mothers and children, who occupied the major portion of the camp.

"You've no idea," said Mrs. Astrid Save, "how changed those families were after two short weeks in camp. They forgot their worries, mothers as well as children."

Late contributions to the ice and camp funds are hereby acknowledged, closing both books for the year 1933. They are \$2 from the Chicago Tribune, the ice fund, giving the fund a total of \$1,942.07; and \$1 from L. B. for the camp fund, making a total of \$1,950.57.

Rites for Mrs. Lindheimer Will Be Held Tomorrow

Funeral services for Mrs. Little Lindheimer, 63 years old, mother of Benjamin F. Lindheimer, chairman of the Illinois commerce commission, who died suddenly on Saturday at Atlantic City, N. J., will be held tomorrow at 10 o'clock in the chapel of the Holy Trinity church, 401 North Dearborn street and South Parkway. Burial will be in Rose Hill cemetery. Mrs. Lindheimer was born in St. Louis. In recent years she made her home in the Chicago Beach hotel. She is survived by three sons and a daughter: Benjamin, whose home is 14501 Drexel boulevard; Horace, 5454 South Shore drive; Arthur, 6829 Paxton avenue, and Mrs. Horace Lepman, 5555 Everett avenue.

ARTHUR FARWELL, 81 TODAY; PLANS NO CELEBRATION

Arthur Burrage Farwell, Chicago reformer, will celebrate his eighty-first birthday today at his desk in the office of the Chicago Law and Order league, of which he is president, he asserted yesterday.

"I'm too busy at my work of getting up a history of the league to stop even for a birthday," said Mr. Farwell in his home at 144 Lake street, Glencoe.

"The years that are behind me aren't sufficient to make me quit. I'm good for at least 10 years more. My health is improved over what it was a year ago and I'm feeling fine. I've been at this fight for nearly 65 years and I expect to live to see the day when Chicago is the most righteous city in the world. But it will take the plenty of cooperation."

J. M. SPITZGLASS, INVENTOR AND ENGINEER, DIES

Jacob M. Spitzglass, mechanical engineer and vice president of the Republic Flow Meters company, died yesterday in Michael Reese hospital. Death was due to arterial thrombosis. He was 64 years old.

Mr. Spitzglass was born in Russia and came to this country in 1904. He was the inventor of the electric device, which records the flow of fluids in pipes and a gas heater for homes. For his inventions he was awarded the Edward Longstreth medal.

He is survived by his widow and two sons, Albert and Leonard Spitzglass. The family home is at 534 Stratford place. Funeral services will be held in the chapel at 4911 Broadway at 2 o'clock this afternoon. Burial will be in Waldheim cemetery.

Col. Oliver Bond, Former Chief of the Citadel, Dies

Charleston, S. C., Oct. 1.—(AP)—Col. Oliver J. Bond, 68, for many years head of the Citadel here, died early today of a heart ailment. Col. Bond had been connected with the Citadel, South Carolina's military college, since he entered the institution in 1882 when it was reopened after being closed by the civil war. He retired in 1931 when he was succeeded by Maj. Gen. Charles F. Sumner, former chief of staff of the army.

Lord Ranfurly Dies at 77; Once Chief of New Zealand

LONDON, Oct. 1.—(AP)—Lord Ranfurly, governor of New Zealand from 1897 to 1904, died suddenly at his home here today. He was 77. Uchter John Mark Knott, fifth earl of Ranfurly, was born Aug. 14, 1856. William Penn, founder of Pennsylvania, was related to the Knott family from which he descended. The title was created in 1831.

10 Rescued from Schooner Adrift with Broken Rudder

Ten passengers in the 55 foot schooner Edith III. were rescued as they drifted a mile and a half off Jackson port yesterday by Capt. Fred Stebbins and his coast guard crew. The rudder on the craft was broken and the boat was being pushed farther out into the lake by a southerly breeze. The boat is owned by Robert Williams, 2421 East 73d street.

Society Entertains Distinguished Foreigners Here for Convention

Gen. de Chambrun Guests at Dinner; Italy America Society Gives Luncheon for Marconis.

BY INDIA MOFFETT.

THE distinguished foreigners who are here for the American Legion convention won't have much time to be entertained privately during the next few days, but a few of those who arrived yesterday had time to see their friends and to sample Chicago society's far famed hospitality before the Legion activities commenced. Gen. Comte de Chambrun, France's official delegate, and his wife, the former Clara Longworth of Cincinnati, arrived in the city yesterday afternoon and almost immediately were driven out to Wheaton where they were entertained at dinner by Col. and Mrs. R. R. McCormick.

Gen. de Chambrun is bringing an invitation to the Legionnaires to hold their 1937 convention in Paris for the big Paris exposition is to be held that year, and it also marks the 10th anniversary of the American Legion's congress in Paris in 1927.

Gen. and Mme. de Chambrun have many friends here and will be entertained as much as the time they have free permits. The Comtesse de Chambrun, the sister of the late Nicholas Longworth, is well known as a novelist and as an authority on Shakespeare; in fact, she just recently completed a novel based on the life of the English bard, which will be published next spring.

Last winter a biography of her brother, "The Making of Nicholas Longworth," that she had written was brought out and met with large success, due not only to her striking portrait of the popular speaker of the house of representatives, but to her wit and charming style. The comtesse made a flying trip, not literally but figuratively, from Vicksy, where she was taking her annual cure, to Paris to accompany her husband to Chicago for he learned a few days before they sailed that he was to represent France at the Legion convention.

Princess Cantacuzene Is Welcome Visitor

One of the most welcome visitors the convention has brought to Chicago is Princess Julia Cantacuzene, the former Julia Dent Grant. She came yesterday and is at the Drake hotel, but she will spend part of the week she will be here out in Millburn with her son, Prince Michael, and his wife, Princess Clarissa, and their children. The young Cantacuzenes are anxious to have her see their new home, a farm out in the hunting country northwest of Lake Forest. As the niece of Mrs. Potter Palmer, a social leader during the World's Fair in '33 and for years after, the lovely Julia Dent Grant spent much time here and was immensely popular.

Frederic A. Delano, who has been spending several days with his son-in-law and daughter, Mr. and Mrs. James L. Houghteling, in Winnetka, seeing his grandchildren and the Fair, is returning to Washington this afternoon with the President and Mrs. Roosevelt. Mrs. Houghteling is not planning to see much of her cousin, Mrs. Roosevelt, today, for she anticipates that the President's wife will be busy with him, but she is looking forward to having a glimpse of Mrs. Roosevelt and time for a short chat with her somewhere.

Marconis Guests at Luncheon

The round of festivities that will keep the Marchese and Marchesa Marconis busy during the few days they are here started yesterday at noon with a luncheon given by the Italy America society at the Casino. It was a delightful party, informal and jolly, and every one was pleased to have the chance to meet in such an informal way the distinguished scientist and his charming wife. She, by the way, was wearing one of the new velvet

berets almost completely hiding one eye, and it was interesting to see how many other women there were at the luncheon wearing the same sort of smart new hat. Miss Cornelia Fairbanks and Mrs. Eames MacVeagh were among them. Miss Fairbanks' very becoming one being made of black velvet and Mrs. MacVeagh's of gray to match her gown. Mrs. MacVeagh is just back from Paris, looking well and happy.

The marchesa, youthful and blonde and very good looking, was wearing a simple black tailor suit with a soft roll of white showing at the front, a scarf of silver foxes, several purple orchids, and black sandals which left exposed all her toes.

Seated at the table with the Marchesa were the Italian consul general, Dr. Giuseppe Castruccio, Mme. Castruccio, Mrs. Wilhelm L. Baum, Mrs. Holbrook Clarke, Chauncey McCormick and John M. Handley. Mr. Handley, Dr. Castruccio, the marchesa, and Mr. McCormick each spoke briefly, the last named making the announcement that he had persuaded the marchesa and marchesa to stay over long enough to visit the Century of Progress art exhibit at the Art Institute on Wednesday, which will be Italian day at the institute. The Marchesa will visit the exhibit at 10 o'clock.

Guests Taken on Lake Cruise

Some of those who attended the luncheon were Mr. and Mrs. Frank G. Logan, Mr. and Mrs. William J. Chalmers, Miss Clara Lake, Mr. and Mrs. Joseph T. Ryerson, Mrs. Jacob Baur and her daughter, Mrs. Burtie Bull, Mr. and Mrs. Hayden B. Harris, Mrs. Townsend McKeever, Mrs. Carter H. Harrison, Mr. and Mrs. David Sarnoff of New York and Mr. and Mrs. Alfred Morton of Paris, who are in the Marconi party. Mr. and Mrs. Thomas W. Hinde, Mrs. Thomas W. Ritchie, Miss Emily Larned, the Countess Cardelli, Mr. and Mrs. Fortunato Jerace, Mrs. Wentworth G. Field, Mr. and Mrs. Moise Dreyfus, Mrs. Welsh Dickinson, Mrs. Walter R. Kirk, Mr. and Mrs. Hubert Burnham, Miss Elise Requa, Miss Joanna Fortune, Harold F. McCormick, and Mrs. Freeman Hinckley.

After luncheon the Marchesa and quite a number of the guests went aboard the Mispah and cruised for three hours on the lake with Mr. and Mrs. Eugene F. McDonald. Marconis has a yacht of his own and those who know him well say he enjoys it more than anything else he has, so he must have had a delightful time on the Mispah.

Today while the marchesa is being entertained at luncheon at the Blackstone hotel by the Museum of Science and Industry of the Rosenwald foundation, Mme. Castruccio will give a luncheon in the same hotel for the marchesa.

Smart Fall Clothes on Lake Shore Drive

Miss Alice Bremner and Mrs. Ralph Mills were picked by the photographer when he was asked to get a picture of two smartly dressed young women in new fall clothes on Lake Shore drive the other day. He chose well, didn't he? They were on their way

to the Lake Shore Athletic club to rehearse for the Service club revue in which Mrs. Mills, the former Eileen McGuire, will have a leading role. Miss Bremner is a director of the club.

(TRIBUNE Photo.)

Operatic Art Theater Uses Drama Values

BY EDWARD MOORE.

The Operatic Art theater, approaching the problem of presenting opera from an angle somewhat out of the customary, is now under way, and is giving three performances a week at the Goodman theater.

It is the desire of the general director, Edoardo Sacerdote, to emphasize the dramatic as well as the musical values of his presentations, even in the case of a work of as aged and artificial canons as Mozart's "Don Giovanni," the first of the new company's repertoire. Wherefore he gathered together a group of young and eager Chicago singers, provided himself with English translations, and started to proclaim his faith.

To those who have hitherto regarded "Don Giovanni" as being mainly a storehouse of lovely music, it may be a bit of a surprise to learn that it is also a play, and that the music definitely and at times dramatically illustrates and underlines the play.

All the members of the company sing English, and most of them sing clear and understandable English. Nearly all of them sing good Mozart as well. It is as agreeable a collection of fresh, tuneful voices as you are likely to find anywhere, and several of the voices could carry their parts in organizations much more pretentious.

In fact the company's lack of pretense is part of its charm. "Don Giovanni," to be repeated to night and Saturday night, is sung by Barbara Drangalis as Donna Anna, Eunice Steen as Donna Elvira, Janet

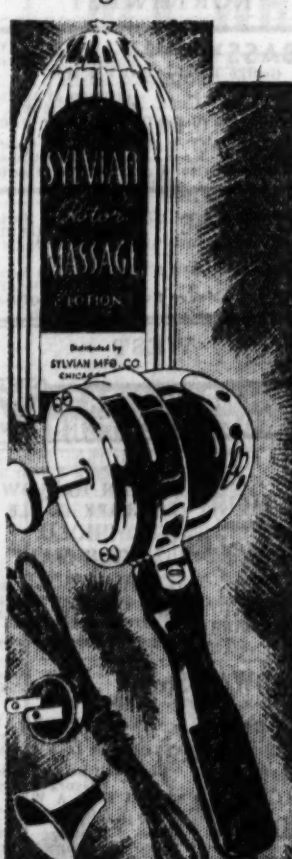

Fairbank as Zerlina, Raymond Koch as Don Giovanni, Frederick Mueller as Don Ottavio, Charles Dobson as the commandant, Hugh Dickerson as Leporello, and Leonard Huber as Masetto. There is a chorus of about twenty that is a joy to the ear. Verdi's "La Traviata" is to be sung Wednesday night.

Legionnaires and their friends were entertained yesterday afternoon at the Auditorium with a complimentary concert organized by the "Rome in 1937" committee, whose chairman is H. O. Nell.

The soloists were Frida Savini, soprano; Ada Pagli, contralto; Giuseppe Cavadore, tenor, and Giuseppe Mantovani, bass, all artists of excellent talent, who sang at their best. The chorus and orchestra, directed by Attilio Bernabini, were those of the San Carlo Opera company. There was dancing by the Helene-Teresa School of the Dance and members of the Italian Woman's club, both under the direction of Teresa Casella.

THE SENSATIONAL NEW SYLVIAN \$4.00 HOME REDUCING SET

Special Introductory Offer BOTH FOR \$1.89
Sylvian Rotor Massage Lotion and Electric Vibrator

For Reducing Fleishy Spots Quickly and Easily

Now, in the privacy of your own boudoir you can give yourself reducing treatments to take down big hips, pouchy abdomens, fat ankles. Sylvian Rotor Massage Lotion and Sylvian Electric Vibrator—now on special sale—is the only equipment you need.

NOW, without dangerous internal medicine or devastating diet, you can treat those bulky, fleshy spots which are unsightly to men and women alike.

Sylvian Rotor Massage Lotion, a new, harmless external liquid when applied to superfluous flesh, tends to increase the blood supply to the fleshy part and increase metabolism (medical term for "burning up" waste). Quickened circulation carries away the waste tissue, an important function in reducing treatments. Sylvian Rotor Massage Lotion is intended to give added stimulation to the circulation and hasten the reducing process.

Come in today. See for yourself this remarkable new method for localized reducing treatments. PHONE AND MAIL ORDERS PROMPTLY FILLED

On sale at Boston Store, The Fair (all three stores), Davis Co., and all other leading department stores.

Guests Will Wear Mae West Garb at 'Diamond Lil' Party

North Avenue Day Nursery Will Hold Big Benefit Affair on Nov. 4; Good Time Promised.

BY JUDITH CASS.

EVERY one who remembers the county fair party which took place last winter at the Opera club will be sure to look forward to the "Diamond Lil" party that the instigators of the former, the North Avenue Day nursery, are planning for the night of Nov. 4. They have not yet decided on the location for the festivities, but they will soon, for invitations are to be mailed out late this week. The invitations will request that the recipient come garbed as Mae West—or as one of her numerous beaux—which will permit many fair young ladies to rid themselves of a long nurtured hidden complex.

The committee on arrangements for the "Diamond Lil" party fairly bristles with names of young women who are known as being "loads of fun" and very "up and coming." They are: Mrs. John P. Wilson Jr., general chairman; Mrs. John Beadle and Mrs. William D. Cox, invitations; Mrs. Sidney S. Gorham Jr., music; Mrs. Nathaniel Owings and Mrs. Perkins Bull, entertainment; Mrs. Elliott Donnelly and Mrs. Barrett Scudder, refreshments; Mrs. John D. Ames and Mrs. Owen West, decorations; Miss Katrina Mauff and Mrs. Allen Newton, prizes; Mrs. Robert McKenna and Mrs. George M. Silverthorne Jr., tickets, and Mrs. George Jaeger Jr., publicity.

Mrs. Kersey Coates Reed and Mrs. George A. Ranney, co-chairmen of the fashion models for St. Luke's hospital fashion show, have invited the debutantes of the season to tea this afternoon at 4 o'clock at the Casino. The second year girls, who last year were as busy as this season's buds are now, won't be at today's tea party but they weren't cheated out of a nice party this year, for Mrs. Selma W. McArthur and Mrs. Grant Laine gave a tea for them last Friday afternoon at the Fortnightly. They have been invited to assist fashion show arrangements. The show will be held Oct. 19.

Mrs. John W. Gary, president of the woman's board, and Mrs. Harold Eldridge poured at the tea Friday, and Mrs. Walter B. Wolf gave a "pep" talk to the girls. Some of those who have volunteered for this work are Miss Jean Hyman, a debutante of this season who isn't as busy as most of the others because her doctor forbade her going into the Service club revue, for which most of the debutantes are rehearsing daily; Miss Dorothy Dewes, Miss Edna Doering, Miss Barbara Eldridge, Miss Catharine Noyes, Miss Anne Byron Smith, Miss Ann Elizabeth Walsh, the Misses Dorothy and Barbara Senn, Miss Margaret Wilder, Miss Peggy Wiley, Mrs. Norman Pritchard, Mrs. Thomas King, Mrs. Eugene Cary Jr., Miss Betty Ashcraft, Miss Gwendolyn Juergens, Miss Isabel Gordon, Miss Betty Offield, Miss Barbara Graf, Miss Ethel Dixon, Miss Helen Dawes, Miss Betty Brawley, Miss Betsy Needham, Miss Louise Neff, Miss Jane Lawrence, and Miss Helen Marie Castle.

Convention of English Speaking Union. The Chicago branch of the English Speaking union has long been making elaborate plans for Friday, Oct. 13, when it is to be host to the national organization.

After a business meeting at 10 o'clock in the Casino club, the delegates and their wives and honored guests will have luncheon at the Casino. That evening all the members of the union are invited to dine in the crystal ballroom of the Blackstone hotel at 7 o'clock. The guest speaker will be Sir Willmott Lewis, a corre-

[Continued on page 51, column 1.]

Judge Nisley's by quality—not by price

Only from a foundation of correct footwear can rise that greatly to be desired faculty known as

Loise!

The great actress, the great society leaders have it and so do thousands of women and girls in every day walks of life. All of them must of necessity wear beautiful shoes that fit their feet and needs! Nisley shoes are not only beautiful—their quality is that of shoes far above their price—and to have every contour of your foot perfectly fitted, you have only to consult a Nisley salesman.

Lady Chapman and her family coat-of-arms.

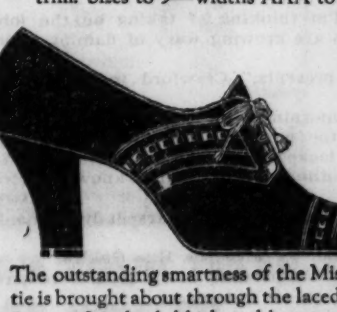

If you are a Chapman just step into our store and ask for a leather giving a short history and coat-of-arms (in colors) of this family. It is free for the asking.

Improved Quality, and Larger Size Range!

Quality greatly improved this Autumn, especially in flexibility. Sizes in many styles 2 1/2 to 10—all others of our 70 or more styles in sizes 2 1/2 to 9. Range of widths AAAA to D.

Isn't the Stevens a lovely design? The black suede or kid has contrasting gray panel trim and the brown kid has a harmonizing trim. Sizes to 9—widths AAA to C.

The outstanding smartness of the Miss Bell tie is brought about through the laced trim. Sizes to 9 in both black and brown suede.

Chiffon or Service Hose to match

Front Views and Profiles By June Provines

FREEMAN GOSDEN—or do you know him only as Ames?—tells about the man in a Pullman who spoke to the porter in the morning about his shoes.

Shoes— "Look at these shoes," he said. "One brown and one black. Did you ever see a pair of shoes like that before?"

"Yes, sah, boss," the porter replied. "The man in upper 2 has a pair just like 'em."

ELY CULBERTSON was among the celebrities who jammed the College Inn the other night at the opening of Phil Harris' orchestra and, when he was introduced, told the crowd that he didn't play contract any more.

"I just answer questions about it," he explained.

Gosden, who was sitting at a ringside table with a party, was reminded of an occasion when he played bridge with Culbertson and two other experts. Gosden is pretty good himself, and also, previous to the game, he had done a neat card trick or two. When partners were decided upon Gosden was greatly in demand.

"We'll cut for him," Culbertson decided. And they did.

IN One Far and Gone Tomorrow, Mrs. Eames MacVeagh, just back from Paris, crossed on the same boat with Marlene Dietrich and her daughter. They stopped off in Chicago long enough to see the Fair. Miss Dietrich was christened Mary Magdalene, by the way, the name Marlene being formed by the first and last syllables of her two names.

Emil Ludwig, now on his way to Hollywood to act as technical adviser on production of the film "Napoleon," also was on board, and went about in bedroom slippers.

"There is a Paul Revere in the Hall of Science at the Fair—the man who rushes around the building during the night shift

waking up the guides as their superior officer is approaching.

Walter Frazier will do a civil war period dining room aboard the showboat Dixiana when she moors in the river, complete with lace curtains, carpets, and rocking chairs.

Did you know that Mrs. Longworth and Mrs. Gann are both getting out books of memoirs this month—Mrs. Longworth's to be called "My Crowded Hour" and Mrs. Gann's "Dolly Gann's Book"?

Remember Maurice Sachs, the plump young man who lectured on French artists and writers and was entertained about town last winter? He will be here again this season, and will lecture on "Germany Today and the Bismarckian Period" at Temple Shalom in December.

Harriette Caperton of the dance team of Caperton and Biddle appearing at the College Inn, is a Richmond socialite, one of five or six beautiful sisters. And used to spend her summers at Cape May.

When Mrs. Byron S. Harvey returned from a visit to old Mexico several years ago she wrote a letter to a friend in Mexico City and, inclosing \$30 in cash, asked her to send flowers to the persons who had been nice to her during her stay.

Last week the letter was returned to her unopened and the money intact. It had been kicking around these many months. Mrs. Harvey changed the bills into quarters and stuffed her Mexican pottery pig bank with them.

TWO reporters from the same newspaper were assigned to ferret out nudist colonies. One of them was to be taken to a spot a friend knew about; the other hunted up a friendly sheriff who knew the location of an Indiana encampment. And what was their surprise, my children, to encounter each other creeping up on the same place. Only the nudies weren't really nudies at all. They wore shorts and brassieres.

INSTALLMENT I MYSTERY WOMAN

Bun tried piling the pillows on either side of her, one against each ear, but with no success. That buzzing sound would have peeled up to a sitting position and reached for the receiver. Her expression and voice were hardly what would have been called gracious.

"Yes, that was Liberte's voice. So she was back in her own apartment in Paris!"

"I think Mademoiselle must answer the telephone. It rings and rings. It rings steadily since nine o'clock."

"I told you—Bun began with a scowl. Then, accepting the inevitable—a step entirely against her principles—she stooped up to a sitting position and reached for the receiver. Her expression and voice were hardly what would have been called gracious.

"Yes—this is Sheila O'Reilly. Who? Yes. No, I don't remember meeting you. This frank brutality should be attributed to the moment rather than character. Who? Yes, Milly is a friend of mine. Perhaps I did. As I say, I don't remember. Today! Lunch—But why? Can't you tell me over the phone? Is it some sort of a job? Yes, I do. The voice modulated considerably. "Not at my apartment. Then where? But how shall we know each other?"

"O, you do! At any rate, I shall wear white today—and a green scarf—and, let me say, a beige straw hat. My car is jade green with aluminum trimmings—a roadster. Yes, half after twelve. Au revoir."

Bun put down the receiver and rubbed her eyes. "Place Victor Hugo. Half after twelve. Mrs. Thelma Craymer." What was it all about anyway and who under the sun was Mrs. Thelma Craymer? She supposed she had been revoltingly rude not to have lied about remembering her, but she didn't, and she hated to be rung up by utterly strange women—especially women who didn't want to tell over the telephone what they wanted.

"Mademoiselle will not be at home for lunch?"

Bun's scowl vanished as her glance fell upon the smiling face before her. Dear old Liberte! Always on hand, always smiling—even when things

"You'd better press my white crepe. This looks like one of the hundred and sixty-five days it doesn't rain in Paris. I'll seize the moment to be summery."

were not going too well—and always waiting to mother her! She put out her hand and pressed the fat, plump one.

"How've you been, Lib?"

Liberte's shoulders fell. "It is dull when Mademoiselle is away."

"Well, I'm back now, so it won't be dull any longer. No—I'm out for luncheon."

Liberte's shoulders fell. "And I ordered a fowl specially for Mademoiselle—to be cooked in that barbarous American fashion—a la Maryland."

"Eat it yourself, Lib, and put on ten more kilos. I'll soon have to take you to Bride-les-bains for a thinning process." She sprang out of bed, went to the window and drew the curtains. "You'd better press my white crepe. This looks like one of the hundred and sixty-five days it doesn't rain in Paris. I'll seize the moment to be summery."

A hot shower followed by an icy one shocked the cobwebs of travel out of existence. An hour later a slim, white clad figure was sauntering along the Avenue Gabrielle, leaving behind a somewhat lasting impression of expensive daintiness and even more expensive scent. In a nearby garage the proprietor sprang out of his office with a radiant smile. A mechanic evolved from the gloom, also with an enveloping smile. In a few minutes a jade green motor was rolled out to the street. A final touch with a duster, a quick run over the steering wheel with chamomile and the car was ready for use.

She slipped into the seat and pressed the self-starter and rolled slowly out under the flowering chestnuts of the Champs Elysees. Watered asphalt showed patches of shadow and sunlight; air currents of gasoline and fresh green foliage alternated; the fountains of the Place de la Concorde sparkled. The Palais Bourbon across the bridge looked gay and evanescent and not at all like the home of the late comrade, The Rue de Rivoli with its usual scurrying crowd, and through the iron fence of the Tuilleries the flower beds were showing stretches of ageratum and marigolds. Bun lifted her head with that characteristic gesture which some one had called racy. It was good to be back here in the summery month of June. About the best place in the world—with some reservations.

She turned into the Rue Royale and was soon holding out her arm to signal that she was turning into a side street. She returned the salute of her favorite kenderame.

She parked her car in a side street, locked it and went towards a cafe where tables under awnings were arranged on the sidewalk. A cheir from unmistakable American voices greeted her arrival and three men rose to meet her.

"Back from where?"

"I'll give you each a guess—or a wish."

"Geneva?"

"Why go there! It has depression cornered."

"London?"

"False gaiety. Try again."

"Rome?"

"Mussolini's gone conservative."

"Mystery woman!" Crawford murmured with an attempt at a sinister infection as he placed a chair for her.

Bun drew off her gloves and smiled at each one in turn. "It's nice to find you all here. I've missed you." For a second her smile shifted to the hovering waiter. "Cinzano sec." Then, back to the group of eager faces: "Well—what's happened?"

"Believe it or not," Crawford answered, "we've all still got jobs. My letters home are still being read. They tell me to keep them going. I suppose it's a haunting curiosity about the man you've lent all my money to."

"And you, Ames?"

"O, Ames—a going strong," Crawford continued to be the mouthpiece of the party. "He's got a new story on the way. Something about a Kansas tourist breaking into the Hotel des Invalides and finding all the inmates in armor."

"And Beaton?"

Beaton answered for himself. "I'm thinking of taking on the job of middle aged gigolo. The lovely widows are growing wary of flaking youth."

Bun slipped her vermuth.

"We've told you our poets and presents," Crawford took up. "And now—what's your latest mystery?"

"It began on the telephone this morning. By the way, which of you was an intimate friend who goes by the name of Mrs. Craymer—called, if you know her well, Thelma?" She looked from one to another. "Your stolid faces tell me a great deal or nothing. And I must know something about her within half an hour."

"Is she one of those Americans whose name appears daily in the columns of my paper?" Crawford asked.

"Probably. I'm not sure. Her address is in the Rue Galille."

"I'll phone our so-called society columnist and get a report on her."

DORIS BLAKE ANSWERS

Don't Telephone Him

"Dear Miss Blake: A man to whom I had just been introduced took me home one night, asked for my telephone number and said he'd call. I waited two weeks and no call came. When I met him accidentally he seemed glad to see me and again said he'd call me. Do you think he's interested?"

"I wouldn't lose any sleep over it. If he is interested he'll call. And for Heaven's sake, don't you call him."

Palace Will Offer Tabloid Music Show

BY CHARLES COLLINS.

"Strike Me Pink" will be the Palace theater's answer to the Chicago theater's booking of the "Crazy Quilt" revue for its next stage attraction. Thus the process of converting elaborate Broadway musical shows into one hour versions for tours of the cinema houses of the country goes on. The song and dance branch of the legitimate stage promises to become an annex to the business of motion picture exhibition, supplementing film programs with four performances a day.

The show that the Palace will offer

for a week's engagement, beginning next Friday, was one of New York's notable hits last season. Its score, particularly its brisk theme song, is familiar to cabaret patrons and radio listeners in this region. The original cast contained Jimmy Durante, Lupe Velez, and Hope Williams as featured players. The cinema theater version will have James Barton, a veteran revue star, in place of Durante; Armina, a well known Mexican dancer, in place of Miss Velez, and Leta Lane as Miss Williams' successor. The company numbers 60 singers and dancers.

The "Crazy Quilt" show, which will come to the Chicago theater on the same day, is not a reassembling of the material in the last production which bore this title but an entirely new entertainment. John Murray Anderson, impresario of the famous "Greenwich Village Follies" of several years back, was the stage director, and Chester Hale, trainer of high grade ballet troupes, arranged the dances.

Frictions May Mar First Days of School Year

BY GLADYS HUNTINGTON BEVANS

For most children in the United States about a month of the school year has passed.

One difficulty you have noticed may have been a physical one. Many children following vacation show fatigue for a number of weeks after school has opened.

This is quite natural. During vacation they can sleep their sleep out, have perfect physical freedom, and no demands are made upon them either mentally or physically. School turns the tables.

Other troubles not physical may have appeared. Nervousness, anxiety

about school work, unhappiness, nightmares, or tears when it is time to go to school in the morning are some of the signs which show that things are not right—at least for your child. Try to remedy those matters now. How you will go about it depends somewhat upon the age of your child. In any case try to get him to talk about school, about his teachers, and the other children—even the superintendent or janitor. There are moments for this—you will sense them—moments when buried things come to light.

Then do two other things. Do some visiting in school and have a friendly talk with your child's teacher when she is not hurried—perhaps ask her to tea or dinner.

If your child seems to be distressed over school, try early in the year to ferret out the cause and remove it. (Copyright: 1933: By The Chicago Tribune.)

A fully written leaflet on the in-between-children from 7 to 12—will be sent on receipt of a stamped, self-addressed envelope.

European Delegates Will Be Guests of Library Association

A score of European delegates to the International Federation of Library Associations, convening Oct. 14, will be guests at a luncheon to be given by the Special Libraries association at the Congress hotel on Oct. 16, the opening day of the latter organization's twenty-fifth annual conference.

Among the luncheon guests will be Leon Bultingaire, Paris; A. C. Breyer-Vauthier, Geneva; Isak Collijn, Stockholm; Arundell Edlaire, from London; Luigi de Gregori, Rome; Rinsiro Ishikawa, Tokyo; Hugo A. Kruss, Berlin; Jan Muszkowski, Warsaw; and Wilhelm Munthe, Oslo.

The Special Libraries association is comprised of men and women from libraries of insurance, public utility, newspaper, and industrial companies and universities and colleges.

spontaneous in Washington, D. C., of the
London Times.

The twenty-five members of the
Junior auxiliary of the Winnetka Inf-
ant Welfare society will hold weekly
meetings in the parish house of Christ
church in Winnetka. The second
meeting will be held tomorrow, starting
at 10:30. The girls, under the direction
of the capable Jeanne Street, will
spend the better part of the day sew-
ing for the babies they help take care
of. Each member will take turns mak-
ing coffee or tea in the parish house
to go with the sandwiches or salads
that each girl brings with her for
luncheon. Miss Katherine Roach is
Miss Street's assistant, and Miss Eve-
lyn Bouscaren is the new publicity
chairman. Miss Lois Truesdale is the
chairman of the juniors.

Welfare Benefit at Highland Park.

The Infant Welfare society is indeed
a lucky organization to have so many
branches that work so zealously—and
in such an attractive way—for its suc-
cess. The most recent benefit is that
being organized by the Highland Park
branch of the society.
It is to be a potpourri party at the
Moraine hotel in Highland Park the
night of Oct. 28.

Sky blue and yellow folder invita-
tions are being mailed out. The party
will be on the yellow part, of which
rises bubbles entitled "Taproom,"
"Entertainment," "Dancing," and
"Casino," to give the recipient a small
idea of what a gay evening it promises
to be.

Mrs. Elwood B. Low is president
of the center, and co-chairmen of en-
tertainment are Mrs. William White
and Mrs. Bernard E. Newman. Mrs.
Rudolph Macpherson is in charge of
publicity. Among those interested in
the success of the party are Mrs. and
Mrs. Philip D. Armour, Gen. and Mrs.
Robert E. Wood, Mr. and Mrs. Sellar
Bullard, Mr. and Mrs. George A. Ma-
son, Mr. and Mrs. George Childs, the
James Martins, the Charles Masons,
the Thomas Craighs, the Roger Valls,
the Laurence Steins, Mrs. Gertrude D.
Wood, Mrs. Everett Millard, and Mr.
and Mrs. Lee Supple.

Miss Janet Bard, Miss Veronice
Beatty, Miss Virginia Melody, and
Miss Mary Mavor will be on hand in
costumes to sell cigarettes.

Arts Club Holds Opening Tea Today.

The Arts club is opening its club-
to-day for the winter season with a tea
from 4 until 6 o'clock.

Mr. and Mrs. Horton Conrad are
being congratulated on the birth of a
son—their first child—last Saturday
morning at the Evanston hospital. The
baby may be named for his father.
Mrs. Conrad is the former Betty
Knole.

Mrs. Peter Dudley, who has been at
the Whitehall for a few weeks seeing
old friends and the Fair, is leaving
shortly for California to visit her aunt,
Mrs. J. T. Noyes, but she will be back
in Chicago in November on her way
east to sail for France.

Her daughter, Mrs. Ellen Dudley
Root, who has put her daughter,
Denyse, in school in Switzerland, now
is touring France with her aunt, Mrs.
Jousselin, and although her plans are
not definite Mrs. Dudley thinks that
Mrs. Root will be in Chicago for at
least a few weeks this winter.

Miss Buckingham to Return Oct. 15.

Miss Kate S. Buckingham will be
back in Chicago on the 15th of Octo-
ber from her summer place at Lenox
in the Berkshires.

Walter Byron Smith has arrived
at home from a visit to his new
bride, Mrs. Byron Smith, who is
Cormack, who was born on Sept. 10.
He is the second son of the former
Winifred Smith and her husband, Al-
fred McCormack of New York, the
first boy, who celebrated his second
birthday last April having been born
for his father. Mrs. McCormack is
coming to Chicago to see the Fair be-
fore it closes, but the exact date for
her arrival is not set yet.

Mr. and Mrs. Francis G. Fabian of
Wesley avenue, Evanston, announce
the engagement of their daughter,
Dorothy, to William Porter Sullivan,
son of Mr. and Mrs. Ralph C. Sullivan
of Evanston. Miss Fabian attended
the Evanston school and was gradu-
ated from Smith college. Mr. Sullivan
attended Lawrenceville academy and
Princeton university. No date has
been set for the wedding.

Welcome guests in the Calvin Fen-
terhouse household in East Huron
street. Mrs. Fensterhouse, who is the
former Emily Pentrice, Mrs. Rob-
ert B. Stocking, and her two little sons,
who have come from their home in
New York for a long visit with the
Fensterhouses.

John L. King, the Joseph H. King's
son, is sailing today for eight months
of travel in Europe, accompanied by
a former schoolmate. Young Mr.
King recently won the English schol-
arship for architecture at Yale.

Mr. and Mrs. Elliott Donnelly are
being congratulated upon the birth
of a son. The baby has been named
for his paternal grandfather, Thomas
Elliott Donnelly II. His mother is the
former Ann Steinwedell of Clevel-
and.

Mrs. Renshaw, Coleman Married in California

Santa Barbara, Cal., Oct. 1.—[Spe-
cial.]—Mrs. Lilla Brokaw Renshaw
and Joseph Griswold Coleman of
Marquette and Chicago, were quietly
married today in Ventura, county seat
of the adjoining country. Mrs. Cole-
man has a ranch home near Hollister,
Cal., where the honeymoon will be
spent. Mr. Coleman is the son of Mrs.
Joseph E. Coleman of Monticello and
Chicago.

INSTALLMENT XLIX.
THE SANDS OF HIS LIFE.

Sabino had an electric flashlight in one hand. Plainly enough the in-
ference was to be drawn that he had been examining the specimens, no
doubt measuring the blades and with a view to ascertaining whether
any one of them answered in its dimensions to certain dimensions which
he carried in his mind or on paper.

But what was he doing now—down on all-fours, almost beneath his
auxiliary work-bench, which stands just past the farther sawhorse that
supports the trestle boards at that end? I looked and I saw what he was
doing. His flash was directed in his left hand and by the aid of its con-
centrated light, with a finger nail of his right hand he was scraping from
between the floor planks the accumulated dirt and lint, and from this mangled
salvage he next was plucking out infinitesimal, bright yellow morsels that
glimmered like crumbs of gold. And carefully he was dropping these, one
by one, upon a sheet of paper beside him. And from the doorway I heard
him chuckle as his store of shiny new brass filings accumulated.

I took three long steps and had him by the throat from behind, with
all my might driving my fingers in to the jugular, and he wriggling and
thrashing in my grip, but making no outcry. Only gurglings and
splutterings came from him. I braced my feet widely apart and squeezed
and squeezed and squeezed. Going by such poor knowledge of anatomy
as I have, I figure that almost at once I must have crushed in and broken
the hyoid bone.

His arms dropped, his toes beat a feeble, less frantic tattoo on the
floor. I felt him going limp in my grip. I twisted the head back and I
looked down into the distorted face. There was a glaze on those widely-
opened, outstaring eyes of his. I let the body slide down and lie flat and I
stood above it, sucking in the air with great gulps until my lungs quit
pumping.

It might interest some to know what mainly I was thinking while I
was getting my breath back. With a sort of vague regret I mainly was
thinking that now I never would know what the secret hypenating band
between Uncus Cressap and Manuel Sabino had been—what it was that had
kenned them together through all those years and at the last had con-
victed them together to die by the same hand.

But a more pressing concern overlapped that one. Here was a problem
unfaced, unprovided for. Here was a corpse delicate—and Bray, or any
seasoned criminologist will tell you that while it sometimes is almost
ridiculously easy to kill, to get rid of the leavings is infinitely more difficult,
that before now many and many a killer has, so to speak, stumbled over
those two Latin words and landed in the outstretched arms of the law.
So I stood and pondered on my newest problem: Where, lacking a medical
certificate, lacking a burial permit, lacking a coroner's visit, might one
dispose of a dead man's body and rest in security thereafter? Not in some
old corner of ground, not in the obscurest thicket. Fresh clods tell tales,
strangers happen by, casual picks have a nasty way of probing into secret
sepulchres, dead bones rise up and murder out and there you are! Where
was the safe place? For it must be somewhere.

And then, in a darting, dazzling burst, the answer came to me, ready-
made and perfect. And it was so perfect and yet so entirely rational, so
beautifully logical, so plain before me, that I think I laughed aloud—and
now, as I pass it on to you, I grin a broad grin.
Peggy Mavroun, dispossessed from her fine box, is resting in a
flattened, hidden grave under the clay floor of my feed-room out by the
kennels; and in the coffin that was built for Peggy, in the hole that was
dug for Peggy, Manuel Sabino is doubled up where you, Pat Bray, may
put your hand on him in the morning—lot 4, subdivision 7, block 22 of that
dog cemetery just beyond Westbury.

Reportedly, I saved one punch for the windup, didn't I, old man?
Well, I believe that will be about all. If this were not meant to be a
cloudy dawning, the sun would be almost up by now. If I know the man,
Bray will be here on the dot. I'd like to be able to enjoy the look on his
face when he walks into this room, but of course that must be a pleasure
forfeited.

I shall drink one highball in a toast to Florence's happiness through
all the days of her life. No, being a southerner born, I'll make it a Bourbon
today.

I've drunk it down, no hee-laps, thinking of her. I've still been think-
ing of her, as I tested the mechanism of my battered old service revolver—the
one I carried through the Spanish-American war. Foolish, footless little
old war, wasn't it? I saved old Peggy her grace shot with this pistol.

Curious that I can think so tenderly of Florence even while I finger
this pistol? I can see her, bless her heart, making any sacrifice she can
make in the hope of rehabilitating the reputation of a man who has no
further need for reputation, good, bad or indifferent.

Until now, when it's almost too late to insert it in the tale, I've neglected
to mention that I was always ambidextrous.

So, with my left hand, which is perfectly steady, I raise the gun up
and with my right I take pen in hand to write for Gilbert J. Redd, "His
Book," and for Gilbert J. Redd, "The Sands of His Life."

(Copyright, 1933, by Irvin S. Cobb.)

BY MARY MEADE.

Too often we think of a child's
school lunch as a sort of stay-of-
hunger pangs until supper time ar-
rives. We wrap up some sandwiches,
tuck in a couple of cookies, and call
it a meal—which is all wrong. When
the child eats a hurried and sketchy
breakfast, as he too often does in
imitation of his fond parents, the noon
lunch, at best, should be well planned,
delicious, and nourishing.

Which perhaps sounds like a con-
tradiction to you—a delicious school
lunch! But it's actually possible.

Especially is that attractive "put-
ting up" important if our youngster's
lunch is to be eaten alone and in un-
appetizing surroundings. Metal lunch
buckets, freshly scrubbed each day
and perforated for ventilation, are
sturdy and satisfactory containers.

They'll stand abuse and protect the
food from rain and other evils. So
much for containers. Now for
what's to go in them.

Cream of potato, cream of spinach,
cream of lettuce—there are no end of
hot, nutritious soups which may be
packed in the heat-retaining bottles.
Or hot chocolate or heated cocoa milk
give both the needed hot food and the
important elements of milk. Plus that,
they're adored by youngsters.

Even the newest footwear flaunts
feminine bows, small intriguing af-
fairs that decorate the instep. Hats
are the most interesting trifles you
can wear, flattering affairs with im-
pish bows, curling feathers, and plen-
ty of dash.

Costume accessories also go in for
elegance... crilled and fancy cuffs on
the newest of gloves, glittering clasps
and frames to the handbags, and last
and anything but least, the revival of
real and semi-precious jewelry.

It ought to be the most exciting new
season any of us have started in
years!

Garden Poppies
Thrive on Quilt
of Bright Design

Here is a quilt design of unusual
decorative value. The glowing reds of
the Chinese poppy or the softer pinks
of our own garden poppies are the
obvious colors to use, and wouldn't
they be charming against a white or
ivory background? In this applique
pattern the poppies are arranged to
form the quilt's center, then placed
gracefully to form the border.

For a quilt pattern of this design
send five cents in stamps or coin to
Nancy Cabot, Chicago Tribune,
printing your name and address
clearly. Or call at the Tribune Public
Service Office, One South Dearborn.

'Romance of a People'
Will Be Filmed for
Worldwide Audiences

New York, Oct. 1.—[Special.]—"The
Romance of a People," great historic
spectacle of the progress of the Jew-
ish race, is to be filmed and presented
to a worldwide audience, it was an-
nounced today. The huge show, pre-
sented locally under the auspices of
the New York Daily News, employs
a cast of 2,500 volunteer actors.

So impressed by their view of the
pageant were Harry M. Warner and
Maj. Albert Warner, movie producers,
that they decided to film it for dis-
tribution to the world's talking screens.
The Warners declared they will do
this without profit.

Postpone Luncheon.
Because of the American Legion
parade, the Big Sisters have postponed
the luncheon and meeting that was to
be held tomorrow until Oct. 13 at
Joseph H. Biggs', 50 East Huron
street.

Fall Fashions Most Exciting in Many a Day

BY RHEA SEEGER.

Just about the time a lot of pes-
simistic souls and hard-to-please critics
decide that feminine fashions have
flopped dismally, along come the fall
fashions and every fashion settles back
for the new thrill of watching the
females struggle with trains and ruf-
fles, long sheath silhouettes, a flock
of hooks and eyes... practically
everything in the way of "extras"
that haven't been used for years.

For the lady of fashion this year
becomes a lady of mystery, charm and
elegance. The newest collections fea-
ture evening gowns in the grand man-
ner, suave creations of heavy supple
satin, gleaming brocades in long
sweeping outlines, grand glittering
brocades and lovely laces, combined
with fabulous furs... stunning crea-
tions with trains that will take a
lot of managing, high awathed front
necklines, and distinctively cut
sleeves, and, cleverly draped
shoulder seams... in words of easy
syllables, gowns of rare beauty and
flattering charm.

Street costumes in the new elegance
are made of velvet and velveteen.
They are deceptively simple things
that are tremendously effective be-
cause of this hard to copy simplicity.
Patriotic black suits and severely
simple dresses that were for-
merly associated with the woman ap-
pearing rather unexpectedly among the
best showings... slinky black
afternoon dresses that can go out to
dinner and dance afterwards are
fashioned of rich velveteen, brocade,
lacy, novelty weaves that show flat
interesting ribs or cords and flat bro-
cade patterns... swishing, whis-
pering taffetas will go to teas and
the theater as well as decorate a Sun-
day supper hour or rustle about for
cocktails.

Soft fuzzy wools, gawdy with bril-
liantly colored neckties and scarfs,
and about the town for smart day-
time wear, with a lot of incompara-
bly lovely green shades rather stealing
the show... fitted tweeds and nubby
woolens, tailored swankily, with swag-
ging length top coats fashion super-
mar and sporter costumes that
are tailored with a strong femi-
nine influence. There are unusual col-
ors that softly frame the face, with
tucks that streak perpendicularly
down the sleeves. Widened shoulder
seams are most interesting trifles you
can wear, flattering affairs with im-
pish bows, curling feathers, and plen-
ty of dash.

Costume accessories also go in for
elegance... crilled and fancy cuffs on
the newest of gloves, glittering clasps
and frames to the handbags, and last
and anything but least, the revival of
real and semi-precious jewelry.

It ought to be the most exciting new
season any of us have started in
years!

MINUTE MYSTERY
By H. A. RIPLEY

A FATAL PARTY.
Prof. Fordney noticed the severe
wound on the back of the scalp,
turned over the body of Roseale Rich-
ards lying in the porch swing, and
bending down smelled the unmis-
takeable odor of an almost instantaneously
fatal poison. Turning the body over
again, he examined the scuff on the
right heel of her evening slippers.

He looked questioningly at Dr. Sin-
ton and asked, "That wound on the
head could have caused death, of
course?"

"Undoubtedly. But I think that the
poison... Just then the criminologist's flash-
light caught the gleam of a small,
slender, half-ounce silver vial lying be-
neath the swing. He picked it up and
smelled it. "The same poison," he
said, "but I'll find no fingerprints on
it—with those white gloves she's
wearing."

Completing their examination the
two descended the iron staircase into
to question the host and his four other
guests.

The result was that all confirmed
Knight's story that a party had been
in progress when, suddenly, Roseale
put on her gloves and demanded that
he take her home at once. On his refusal
she had thrown a highball at the roof,
dashed up the iron stairs to the roof,
hitting her head on the low doorway.
His guests dissuaded him from follow-
ing her, knowing her temperamental
outbursts. However, when she failed
to reappear in about half an hour they
all went to the roof and found her as
she was discovered by Fordney. Noth-
ing had been disturbed.

The professor shook his head and
said, "Sorry, but you'll all have to
remain here until I get the truth!"

HOW DID HE KNOW THEY
WERE LYING?
(See solution on page 33.)

HER WHITE TEETH WIN MILLIONAIRE

WHAT A WONDERFUL

PLEASE MARRY ME NOW—
GOSH, YOUR SMILE GETS
MORE DAZZLING EVERY
DAY, DARLING!—
HOW COME?

IT'S A LITTLE
SECRET BEGINNING
WITH K—
SAME AS K-I-S-S

NOW CLEAN YOUR TEETH
SHADES WHITER

IF YOU THINK yellow, unsightly-
looking teeth are natural—do this:
Start using just a pinch of Kolynos
on a dry brush twice daily. In 3 days
you'll be amazed. Teeth will look
shades whiter.

For Kolynos contains two impor-
tant ingredients that literally work
wonders with stained, off-color teeth. One crass stain-
and dingy film—forms into every fissure and washes
away decay-causing germs. The other ingredient kills
millions of germs that cause so many tooth and gum
troubles—helps make teeth sparkling, flashing WHITE!
See for yourself how amazingly Kolynos restores
and preserves the gleaming whiteness of teeth. Get a
tube at your druggist today.

Silvery Locks Can Be a Real Beauty Asset

Woman's Own Prejudices
May Stand in Way.

BY ANTOINETTE DONNELLY.

The gray haired one has finally
come into the "own" that should
have been hers all the time.

Nine times out of ten, it has been
the gray haired one's own fault that
she suffered the prejudices one claims
to have suffered because of her gray-
ing locks.

The Chicago and Illinois Hairdress-
ers' association, from which recently
came the news that gray hair is now
held a style asset, and a distinguished
one, is right in broadcasting the news,
but not enough credit is given the
women who have made gray hair the
thing of beauty and distinction it can be.

We could name a dozen women who
have made their silvery locks a per-
fectly gorgeous asset. We mention
women more or less in the public eye.
There are countless numbers in pri-
vate life, too, who haven't looked upon
their gray or graying locks as a sign
that all was over.

I don't know whether women are
graying younger than they used to,
or whether they have only become
more conscious of the silver threads
since they have entrained in such
large numbers in the business world.
I don't know how much real truth
there is to the business man's prej-
udice toward graying hair, or how
much of this prejudice is of the woman-
an's own making with her consequent
psychological general slump in ap-
pearance. But the fact remains that
the woman who looks upon her pre-
maturely silvered hair as something
to be ashamed of and to be hid, and
makes an asset of it is in small
danger of being turned out of house,
home, or job for a younger one.

It isn't the hair, in other words,
it's the psychological state that cre-
ates the prejudice encountered. As
said, too many women look at graying
hair and resign themselves without
investigating its possibilities.

So altogether, it is a grand and
glorious thing to have gray hair now
recognized as an asset lending digni-
ty and charm, and very often great

BEARS WIN, 7 TO 0, ON FOURTH PERIOD RUN

STRIKLING LOSES FOOT IN CRASH, RING DAYS OVER

Auto Knocks Him Off Motorcycle.

Macon, Ga., Oct. 1.—(AP)—Struck by an automobile while riding his motorcycle near here today, W. L. (Young) Strikling, former contender for the world's heavyweight boxing championship, suffered injury to his left foot which necessitated its amputation just below the ankle.

He also suffered a fractured hip and a shred of skin when he was brought unconscious to the hospital. His condition was made more serious by loss of blood. No internal injuries were found.

Second Operation Needed.
Physicians who amputated the foot said tonight the fighter had reacted "quite favorably."

"He is still in a very serious condition," Dr. A. R. Rozar, the surgeon, said. "The foot was torn off at the ankle joint and the bones were broken so that another operation will have to be made as soon as the patient is strong enough. The leg must come off above the ankle."

Physicians said a completion of the operation today would have proved fatal. The accident occurred this afternoon three miles north of the city on the Macon-Atlanta highway as Strikling was riding from a golf club to the hospital to see his wife, who a few days ago gave birth to their third child. His wife has not been told of the accident.

Driver Is Not Held.
Sheriff J. R. Hicks Jr. said R. V. Johnson, clerk for a loan company, was driving the automobile which hit Strikling. The sheriff said the accident was "unavoidable" and no charges would be made.

Roy Barrow, a close friend of the boxer, who was driving his own car, said he saw Strikling approaching on his motorcycle and waved to him. As Strikling waved back Johnson's car swerved from behind Barrow's and Strikling turned quickly in an attempt to avoid hitting him, running off the highway. Johnson's driver, who was driving a light-colored sedan, was not seen. Strikling was wearing a light-colored suit and a light-colored shirt. He was riding a light-colored motorcycle. The accident occurred on a two-lane highway. The weather was clear. The road was dry.

The crash brought an end to Strikling's boxing career, which had seen him fight three world champions. Recently he won a newspaper decision over Max Baer, the light heavyweight titleholder, in Houston, Tex. It was his last fight.

Stars on Kerosene Circuit.
Starting his ring career some 15 years ago, Strikling fought from coast to coast and abroad. He was often called "king of the canebrakes" because he fought so many second rate boxers in his quick hops about the country.

In 1923 he had two battles with Mike McGuire, then light heavyweight champion. The first, in Columbus, Ga., brought about the famous controversy over Referee Harry Eitzel's decision, which was changed three times before finally listed as a draw. In 1931 Strikling was knocked out in the 15th round of his heavyweight championship fight with the champion, Max Schmeling, in Cleveland.

In other major bouts Strikling lost to Paul Berlenbach in New York, to Ernie Schaaf in Chicago, and to Jack Sharkey in Miami. He knocked out Phil Scott in London and won one bout and lost another, both on fouls, with Primo Carnera, now champion.

Makes Tour Abroad.
Some months ago he returned from a tour of Australia, New Zealand, and Europe, where he won 10 of 11 fights. He suffered a knee injury during training for a fight with Don McCord in London and this kept him out of the ring for several months. A few weeks ago he picked up the gloves again and won four engagements on the comeback trail.

WE LEFT TOWNSEND ZANDER JUST EMERGING FROM THE CELLAR OF THE OLD FISHERMAN'S CABIN, WITH A BLOOD-CURDLING SOUND COMING TO HIS EARS—THE INSTANT BAYING OF THE BLOOD-HOUNDS—THERE WILL BE NO ESCAPE THIS TIME, UNLESS— HIS BRAIN WORKS LIKE LIGHTNING— HE SCHEMES OUT A NEW AND CRAFTY PIECE OF DEVILTRY—

LISTEN, OLD MAN—I'VE DECIDED NOT TO STAY OVER NIGHT AFTER ALL—I'VE GOT TO LEAVE RIGHT AWAY—

JUST AS YOU SAY, STRANGER—BUT YOU'RE WELCOME TO STAY—

I THINK I CAN MAKE IT THROUGH THE SWAMP ALL NIGHT—BUT I NEED A PAIR OF BOOTS—I'LL TRADE YOU THESE SHOES OF MINE FOR YOUR BOOTS AND GIVE YOU TWENTY DOLLARS BESIDES—

OH, I WOULDN'T TAKE YOUR MONEY, STRANGER—THESE BOOTS ARE WORTH MORE TO ME THAN ANY MONEY I COULD HAVE—

THERE—A PERFECT FIT FOR BOTH OF US—NOW IF YOU'LL JUST START ME ON THE WAY, I'LL BE MOVING RIGHT ALONG NOW—

I'VE GOT MORE THAN FOUR MILES THROUGH THE SWAMP TO THE TRAIL—

I SURE WOULDN'T WANT NOTHING TO HAPPEN TO YOU, FRIEND—

ACCIDENT HALTS CAREER

W. L. (Young) Strikling and his mother on motorcycle from which the boxer was knocked by automobile on highway near Macon, Ga., yesterday. It was necessary to amputate Strikling's left foot, which was crushed. His mother was not with him at the time of the accident.

GIANTS DROP BLOCK TICKET PLAN FOR SERIES

New York, Oct. 1.—(AP)—The boom day custom of selling world series tickets only in blocks covering three games went into the discard today as the Washington Senators and the New York Giants wound up the frayed strands of the 1933 major league campaign and turned their full attention to the post-season conflict starting in the Polo grounds Tuesday.

The Giants' business office announced that beginning tomorrow at 9 a. m. the \$5.50 reserved seats will be sold separately for either the first or the second game, thus following the action of the Washington officials taken several days ago.

The decision affects some 20,000 grand stand seats, and 20,000 other reserved seats, but does not touch the 4,000 box seats which already have been sold, or the 5,000 bleacher seats that do not go on sale until the morning of each game.

No Reports on Ticket Sales.
There were still no official reports available either from the Giants office, or the selling staffs in Washington, as to the general condition of the advance sale. It was taken for granted, however, that only fans that the populace was about to stay away in large numbers, either through inability to buy tickets for three games or unwillingness to pay for seats they might not be able to use, could cause abandonment of the system put into effect in the years of plenty.

GIANTS, SENATORS ARE RINGERS, BUT THERE'S A REASON

They Have Been Lured to Big Cities for Their Own Betterment.

BY WESTBROOK PEGLER.

(Copyright 1933, By The Chicago Tribune.)
New York, Oct. 1.—Not for anything would I willingly jab the last end of a cigar against anybody's pretty red balloon, but truth is truth, and I have often declared with my bold, original knack for striking right at the root of things, and I think the citizens ought to be told that the New York Giants and the Washington Senators, who will perform the world series this year, are not New Yorkers or Washingtonians, respectively, but just a lot of tramp athletes from everywhere.

Of the Giants, Sweet William Terry, the darling of the press corp. in Atlanta, by way of Memphis; Carl Hubbell, the big, red, heavy duty pitcher, came from Mahanwah, Ind., and so forth. Of the Senators, Joe Cramer, the manager, is a San Francisco boy; Goose Goslin is a Jewisman, Buddy Myers' home is in Mississippi, and Luke Sewell came up from Alabama, and so forth in the case of the Senators, too.

The practice of using ringers on athletic teams is still regarded as very low in some lines of sport, especially when it is indulged in by the other side and more especially when it enables the other side to win the contest. Colleges used to do this in the game of football and some of them still do something of the kind, but with an appearance of not doing so.

Podunk Used to Load Up for Tomorrow.
The naval academy's complaint against the military academy, which provoked the row and caused the severance of relations a few years ago, amounted to a charge that West Point was using ringers. The Navy pointed out that the Army was bringing in young men with fine football records established in other schools, using them for four years of football at the military academy, and then, upon their graduation or not long after graduation, permitting them to resign from the service.

GUESSERS SHIFT TO STEWART AS CRONIN'S CHOICE

Temperament Favors Him for Series Opener.

BY EDWARD BURNS.

[Chicago Tribune Press Service.]
New York, Oct. 1.—Wally Stewart's temperament, as much as his good left arm, will cause Manager Joe Cronin of the Washington Senators to pick him to pitch the opening game of the 30th world series, which opens here at the Polo grounds Tuesday afternoon.

This was the rumor whispered around the Washington headquarters today as Stewart, Al Crowder, Earl Whitehill, and Monte Weaver, the Senators' big four, packed themselves on a divan and held an informal club house meeting before departing for Brooklyn, where they scouted the Giants in the season windup against the Dodgers.

Weaver Second Choice.
Earlier guesses had been that either Crowder or Whitehill would pitch the opener. Now those who profess to have "heard something" say it will be Stewart and if not Stewart, Weaver. Guesses on Crowder and Whitehill were based on their season records. Crowder, having won 24 games and held an informal club house meeting before departing for Brooklyn, where they scouted the Giants in the season windup against the Dodgers.

Although Crowder won exactly as many games as Stewart and Weaver combined, at the present writing he is placed back of Wally and Monte because his stuff hasn't been so good in the last three weeks.

The rating of Stewart over Whitehill, however, is where the aforementioned matter of temperament comes in. Stewart is a fighter and Whitehill is a peace-loving fellow.

Whitehill Snortin' Type.
Whitehill, on the other hand, is the snortin' type, frequently straining in overexertion. Shipped away by the Tigers last winter after ten years as a Detroit regular, this year it became his greatest aim in life to kick the Tigers. And the Tigers kicked him out on three different occasions. Whitehill is inclined to get angry with himself when things don't go along to suit him. When he does this he starts pressing, and usually the result is just too bad.

There are other reasons that have caused a shift to Stewart among the headquarters dopesters. Among them is the rotation of the pitchers in the case of Stewart and Whitehill, each of whom is 23 and not adverse to taking a full quota of rest before important assignments. Crowder is 32, it's true, but he is a workhorse, and his recent showings are the sole reasons for dishing him out of the opener.

Unlearned Runs Off Stewart.
Stewart started against the Yankees last Thursday, and though the Yankees made seven runs off him in the first inning, five of the total were unearned. He kept on pitching until his team overtook the Yanks, then gave way to Crowder, who eventually became the losing pitcher.

Friday Whitehill started and yesterday it was Weaver. Weaver led the game in good shape for Al Thomas, who finished.

Weaver is only 27, and his part time yesterday does not bar him as a possibility for the opener. There are other things that make him likely to be the series starter than Stewart. One of these is that he is a right hander.

Manager Cronin has made it known that he wants to stop Manager Bill Terry, Mel Ott, and Joe Moore just as soon as it is possible to do so. The trio has his greatest trouble against good lefties.

PROVING THAT BEARS STILL ARE CHAMPIONS

Not as fast as he was a few seasons ago, but still able to get around with the best of them, Red Grange of the Bears goes on a ground gaining excursion in the second quarter of yesterday's game at Soldiers' field in which the 1932 pro football champions defeated the Boston Redskins, 7 to 0. Cliff Battles is pursuing him. (Tribune Photo.)

CUBS SEND CARDS TO 5TH PLACE IN FINAL GAME, 7-1

BY IRVING VAUGHAN.

[Chicago Tribune Press Service.]
St. Louis, Mo., Oct. 1.—Hitting was just about a lost art with the Cubs today, but it didn't cause them any embarrassment in their act of pulling down the curtain on the season. They made only four hits, but they picked up runs at bargain prices and defeated the Cardinals, 7 to 1. For the Cards it was more than an everyday beating. The result showed them into the second division, leaving fourth place, which is out of world series money, in possession of the Boston Braves, who haven't been that high since 1932.

Lon Warneke, in registering his 13th victory of the season, turned out a job that had all the earmarks of a shutout until he reached the ninth inning. Prior to that he had allowed only four hits, all singles. A little more trouble was caused by his lack of control in spots, but neither the hits nor passes were enough to let the Cardinals move more than one place up in the standings.

Carden Loses Control.
Tex Carleton was the reason the Cubs didn't suffer from their lack of hits. The young man, after fanning two of the first four men facing him, who grabbed it on Portsmouth's 19 yard line. A short pass, Ledbetter to Tipton, was good for six more and Lillard elected to try a drop kick. He was slow in getting the ball away and it sailed wide of the uprights.

Chicago Best in Air.
From scrimmage Portsmouth gained 13 yards to 74 for Chicago and got 9 first downs from the line of scrimmage. Chicago completed 3 out of 9 passes for 98 yards. Portsmouth took to the air six times, but failed to complete a pass.

Lineups:
PORTSMOUTH (7). CHICAGO (6).

Portsmouth Blocks Lillard's Kick; Cardinals Beaten, 7-6

Portsmouth, O., Oct. 1.—[Special.]—The Portsmouth Spartans defeated the Chicago Cardinals, 7 to 6, in a National Professional Football league game today. It was Portsmouth's third straight victory of the season.

Portsmouth scored first, the touchdown coming on the opening play of the second quarter, when Caddell, half back, dashed 13 yards around Chicago's left end. Glen Presnell kicked the point from placement.

A poor punt by Lillard had given the Spartans the ball on the 20 yard line. Presnell and Gutowski gained seven yards, the quarter ending with Portsmouth holding the ball on Chicago's 13 yard line. Then Caddell went over.

Card Score on Pass.
Lillard, however, proved the Cards' outstanding threat. The former Oregon back was the star of the game, carrying the ball 13 times on line plays and passing seven times, once for a touchdown near the close of the second period.

Taking the ball on Chicago's 25 yard line, Lillard and Tipton carried the Cards to midfield. Lillard tried a pass, which was grounded, but his next one went 40 yards with bullet accuracy to Tipton, who ran seven yards for Chicago's touchdown. The Spartans line closed in and blocked Lillard's attempted drop kick for the point which would have tied the score.

After the kickoff Portsmouth advanced to their 45 yard mark in three plays, but lost the ball when Yarr intercepted a pass by Presnell. With two minutes to go before the half Lillard shot another long pass to Tipton, who grabbed it on Portsmouth's 19 yard line. A short pass, Ledbetter to Tipton, was good for six more and Lillard elected to try a drop kick. He was slow in getting the ball away and it sailed wide of the uprights.

Chicago Best in Air.
From scrimmage Portsmouth gained 13 yards to 74 for Chicago and got 9 first downs from the line of scrimmage. Chicago completed 3 out of 9 passes for 98 yards. Portsmouth took to the air six times, but failed to complete a pass.

SISK RACES 17 YARDS TO CROSS BOSTON'S GOAL

Second Victory for Pro Champions.

Two in Row

RED SKINS (9). BEARS (7).
Hokuf ... L. E. ... Lyman
Edwards ... L. G. ... Carlson
Hurley ... L. G. ... Miller
Johnson ... R. E. ... Zeller
MacLure ... R. E. ... Richards
Battles ... L. H. ... Konrad
Franklin ... R. E. ... Johnson
Apfel ... R. E. ... Brumbaugh
Battles ... L. H. ... Konrad
Pinkert ... R. H. ... Sisk
Musick ... F. B. ... Manders
Touchdown—Sisk.
Point after touchdown—Manders.
Substitutes: Boston—Collins for Franklin, Westfall for Apfel, Franklin for Hokuf, Holmer for Musick, Waters for MacLure, Horstmann for Pinkert, Lepstra for Battles, Weller for Lepstra.
Bears—Nesbitt for Sisk, Nagurski for Manders, Grange for Konrad, Molewsky for Brumbaugh, Karr for Hewitt, Tackwell for Johnson, Kopeha for Zeller, Corbett for Grange, Bergerson for Carlson, Buckler for Richards, Musy for Lyman.

BY WILFRED SMITH.

Johnny Sisk's 17 yard run late in the fourth period yesterday afternoon gave the Chicago Bears a 7 to 0 victory over the Boston Redskins at Soldiers' field. It was the Bears' second triumph in defense of their national professional football championship and the second game in which the fourth quarter was reserved for the winning attack.

Nine thousand, many of them visiting members of the American Legion, attended the game in which the Bears were outfought for three periods. Only twice in that time and the Bears accomplished a first down. Moreover, the Redskins backed the Chicago team down the field three times in the first 15 minutes, falling off touchdowns because of a fumble in one instance and being halted within 10 yards of the goal line on another.

Short Punt Paves Way.
The Bears' victorious drive started from Boston's 35 yard line after Roy Horstmann's punt against the wind had traveled only 30 yards. Sisk drove off Boston's right tackle for 5 yards. Red Grange followed with a 2 yard gain on the opposite side of the line. Then Grange passed to Carl Brumbaugh for 11 yards and a first down 17 yards from Boston's goal.

On the next play Sisk shot through guard and out back to his left. Horstmann tackled him but hurt his shoulder, already injured in pre-season drills, and Sisk jerked loose to sprint on to the goal line. Jack Manders placed the ball in front of the goal posts. Manders entered the game a few minutes earlier, replacing Bronko Nagurski, and missed a try for a field goal from Boston's 15 yard line. This scoring opportunity, the second for the Bears this season, was lost in its inception when Brumbaugh accepted a forward pass by Apfel and brought the ball to his own 35 yard line.

Kick Just Misses.
Plunges by Nagurski, a 22 yard pass by Bronko to Johnson on a fake plunge, and Brumbaugh's pass to Grange were the ingredients in the march. Then two passes failed and after a 10 yard run by Sisk, the Bears placed the ball in front of the goal posts. Manders came in. His kick, which would have won the game, was barely wide and to the left of the upright.

Once prior to the fourth period the Bears seemed on their way. Late in the third quarter Nagurski, Corbett, and Molewsky, with excellent work by the line, plowed from mid-field to Boston's 20 yard strip. Here, however, on third down Nagurski crashed through for seven yards only to fumble. Boston recovered the ball on its 13 yard strip.

The Bears' indifferent playing in the first period might easily have lost the game. Following an exchange of punts, with the wind favoring the Redskins, Boston advanced from the Bears' 44 yard line to the 16 yard mark where Musick fumbled and Lyman, the Bears' left tackle, recovered. Sisk's kick carried only to the Bears' 22 yard line. Cliff Battles and Musick then smashed for eight yards in three plays, but Musick again fumbled. He recovered the ball but failed to make the required distance.

Punts Short Again.
Agath Sisk's kick was short, and Boston started its third drive from the Bears' 33 yard line. Battles made eight yards and then went around the weak side on a reverse to the Bears' 13 yard mark. Musick picked up six yards in two plunges. Battles added a yard at center. Musick's fourth down try failed to gain at center, and the Bears took the ball.

The Bears' only offensive gesture of importance in the first half, a twenty-one yard forward pass, Nagurski to Johnson, ran afoul of the rules and the ball was called back. Johnson, as he was tackled, attempted a lateral pass to Bill Hewitt, who took the ball and ran on to Boston's goal. However, the pass was thrown forward and being the second forward pass on the same down, gave the Bears a penalty from the point where the ball had been put into play.

The first half was exceptionally rough. Two penalties for clipping and several for holding contributed to the raggedness of the game, which was also marred by fumbles. The Bears now make an eastern trip before returning to Boston to play the Cardinals at Wrigley field on Oct. 15.

Buffalo Beats Columbus, 7 to 4, to Even Series

Buffalo, N. Y., Oct. 1.—(AP)—The Bisons of the International league evened the little world series at three games each here today by defeating Columbus of the American association 7 to 4.

STRIKES IN EAST CAUSE DECLINE IN STEEL OUTPUT

Review Reports Rate Now Down to 38%.

In a difficult situation complicated by new trading practices under the code and aggravated by labor difficulties, the steel industry last week showed a decline of two points in capacity, according to the magazine Steel.

Had production not been retarded by strikes in the Wheeling and Pittsburgh districts, the rate would have held at 40 per cent, claims the review.

Chicago mills gained 4 points to 48 per cent, and Youngstown 8 to 54. In Cleveland the steel works rate was steady at 54 and in Buffalo at 48. Pittsburgh declined 4 points to 20 per cent, eastern Pennsylvania, 44, to 31%; Wheeling, 16 to 38; New York, 11 to 75; Birmingham, 16 to 34; and Detroit, 40 to 45.

Auto Plants Take Steel.
"Automotive consumers without exception, parts makers largely financed by them, and other users in lesser degree ordered steel which, when delivered, will make consumers' stocks as a whole the largest since 1929," says the review. "These inventories, motivated originally by advancing mill prices, appear the more attractive as the labor situation becomes more tense and threatens a possible interruption of production and forebodings further price increases. Oct. 15 is the official deadline on these shipments, but an extension is probable."

"Meanwhile, users of bars, plates, sheet and shapes, with the exception of steel foundry, last week were placing their fourth quarter requirements on the old basis of 1.60 cents, Pittsburgh prior to the Sept. 20 advance of \$2 in plates and shapes and in bars."

Four Contracts Offered.
"Offered four forms of contract, each involving a commitment for a percentage of requirements within a stated maximum. Firm extras and differentials disturbed users more than higher prices. The industry being a unit under the code, the market became a sellers' one."

Aside from the impetus furnished by selling contracts and rising prices, iron and steel markets are more active according to the magazine. This is in part because of the fact that government-financed projects.

The Bethlehem Steel company has been awarded 51,000 tons of castings for the midtown tunnel in New York. Cleveland has placed 12,000 tons of cast iron pipe. A 6,000-ton contract on Mississippi river dams and great lakes breakwaters taking 25,000 tons of steel. The Inland Steel company has been awarded 7,500 tons. The total of structural awards for the week was 27,231 tons.

New Rail Prices Expected.

"Rail mill executives this week submitted prices on a tonnage, loosely estimated at 700,000, for the railroads, to be partly financed by the government," reports Steel. "An accompanying increase in fasteners, which is stated here, is expected to be 25 to 30 cents for the business, on which basis some roads would finance their own purchases; the trade talks of a \$2 reduction."

If new business in pig iron is light, shipments are continuing heavy. It is expected that this will be a 25,000, 000-ton year on the great lakes, against 3,500,000 tons in 1932.

Steels iron and steel composite has advanced 37 cents to \$31.60, and the finished steel composite 70 cents to \$42.20. The scrap index, however, has fallen 13 cents to \$10.55.

APPROVAL PLANS FOR 8 PITTSBURGH DISTRICT BANKS

Pittsburgh, Pa., Oct. 1.—(Special.)—Reorganization plans of eight state banks in the Pittsburgh district have been approved by State Banking Secretary William D. Gordon. It is stated here. When the terms, which in most cases require the selling of stock to raise additional capital, are complied with they will be permitted to reopen. The local banks were among 18 throughout the state granted approval. With the reorganization of the banks between \$7,000,000 and \$9,000,000 in "frozen" assets will be released. It is estimated that at least 50,000 depositors will be involved.

Thirty-five other state banks which have not completed their reorganization plans were given until Dec. 1 to work out details. The state announced closing for liquidations of 15 other banks.

GREYHOUND LINES IN SOUTHWEST TO BE MERGED

Formation of the Southwestern Greyhound lines by merger of the Southland Greyhound and Western Greyhound companies will become effective today, claims P. W. Tibbets, president of the Greyhound corporation and last night.

P. W. Tibbets of San Antonio, Tex., he said, will become president of the new Greyhound subsidiary, which will have headquarters in Fort Worth, Tex. Tibbets is now president of the Southern Greyhound lines.

Bogan said some railroad interests and parts of other divisions of the Greyhound system would be included in the merger but that details of the formation of the new organization will not be made public until today.

HIGH TAXES HELP CAUSE UTILITY TO OMIT DIVIDEND

New York, Oct. 1.—P. A. Schoellkopf, president of the Mohawk Hudson Power corporation, an important unit in the Niagara Hudson system, has announced that because of decreased revenues from operating subsidiaries, increased taxes, and higher operating expenses as a result of the NRA program the dividend due tomorrow has not been declared.

**HOLDS SECURITY
ACT BLOCKS ALL
REFINANCING****Lawyer Tells Effect
on Realty Bonds.**

BY AL CHASE.

Reorganization of defaulted real estate bond securities has become virtually impossible since the passage of the Federal Securities Act of 1933 on July 27, according to Clifford R. Edmister, of the law firm of Kirkland, Fleming, Green & Martin. The new law so hedges against any proposed refinancing plan with countless restrictions that reorganizations are practically at a standstill, Mr. Edmister declared. When it is remembered that in Cook county alone real estate securities in excess of a billion dollars have been foreclosed in the last three and one-half years the seriousness of these statements becomes evident.

Restrictions and Liabilities.

"The act may be said to place the committee which serves the bondholders in exactly the same position as an underwriter of investments, subject to the same restrictions and the same liabilities," Mr. Edmister said. "If bonds are called for deposit prior to proposing a specific plan of reorganization, which is ordinarily the case, three separate registrations are necessary. First, when the bonds are called for deposit; second, when the reorganization plan is submitted; and third, when the new securities are prepared. For these three distinct registrations the committee has prepared several forms. One form alone consists of 64 questions and six exhibits. The committee, at its discretion, may modify any plan."

"If any registration statement 'omits to state a material fact—necessary to make the statement not misleading,' the person acquiring the security may sue. First, every person who signed the registration statement; second, every director of the issuer at the time of the filing; third, every person named as about to become a director of the issuer; fourth, every accountant, engineer, appraiser or person who certified any part of the registration statement or any statement used in connection with it; and fifth, every underwriter."

Hope is held out by those interested in getting defaulted issues reorganized that the federal trade commission at its meeting tomorrow in Washington will define the limitations of the act. Unless it does so, according to Mr. Edmister, completion of reorganizations will be indefinitely delayed and additional hardship placed on the holders of defaulted bonds.

Hindered by New Laws.

"The bondholders' committees, already having to contend with the problems of non-paying bondholders, non-cooperating equity owners, sharpshooters attorneys who try to harass them, and lack of refinancing funds, are now hindered further by this inept law," said Mr. Edmister. "Every state has securities regulations of its own, but congress has now superimposed this federal law upon them. Since it became effective, on July 27, new financing throughout the nation has been negligible and the refinancing of outstanding securities has become virtually impossible. The reason for this is that while most people believed the law intended to regulate the sale of new offerings, it actually placed these same restrictions on committees which are trying to restore securities already defaulted."

Everybody on the Spot.

"Thus, any committee member, no matter how innocent, can be held liable if a jury later finds any 'material information' was omitted. It may not seem important or necessary, in times like these, to state that there are five vacant flats in a forty flat building, yet several years from now a bondholder may sue and a jury may hold that this was a 'material fact,' and each and every committee member personally will be liable for the bonds of that issue."

"This act, it is said, doesn't apply to those issues where all the bondholders live within the state. But the number of such issues is negligible. In Cook county, from Jan. 1, 1930, to July 31, 1932, the amount involved in real estate foreclosures was \$1,278,371,200. Bondholders in these issues averaged less than \$1,000 each in any one issue and were scattered from Maine to the Pacific coast and from Canada to the Gulf of Mexico. "The federal trade commission at its Washington meeting on Tuesday should definitely state whether the provisions of this act are intended to include reorganizations of real estate undertaken by bondholders' committees. If so, it is safe to assume that the reorganization of defaulted property has come to a standstill."

**RFC Interest
Cut Plan Gets
Roosevelt O.K.**

Washington, D. C., Oct. 1.—(AP)—President Roosevelt has agreed to a plan of Chairman Jesse H. Jones of the Reconstruction Finance corporation calling for a reduction in dividend rates or interest on preferred bank stock or capital notes bought by the RFC in an effort to enable more banks to expand their loans to business.

In a letter written at Hyde Park and made public by Jones, the President approved the proposal that the dividend rate be cut from 5 to 4 per cent if banks retire the preferred stock in three years.

In doing so the President said: "I appreciate that many banks are more liquid than they would like to be, and that they want to make loans, but for one reason or another are hesitant. No one wants them to make unsound loans, but they should provide the normal credit requirements for business. Otherwise the recovery program must suffer."

Seeks to Restore Credit.

The move approved by the chief executive is one of a series being made by the administration in an effort to bring about a betterment of credit conditions.

The Reconstruction corporation yesterday issued rules under which it will supply money to banks at 3 per cent to be reloaned to business on short term notes, for six months or less, at not to exceed 5 per cent interest. These loans are to be made only to firms complying fully with NRA codes. "Certainly no class of our citizenship is more interested in the recovery of business than the bankers," Mr. Roosevelt said in his letter, "and we need their confident cooperation in restoring credit, livable conditions for all of our people. Through participation in the RFC preferred stock plan all banks will be aiding in an extra effort to provide credit."

Denies Bank Control Report.

President Roosevelt denied the truth of reports the government seeks to control banks through purchases of preferred stock by the RFC. In this connection he said:

"I understand the question has been raised in some quarters that the government wants to control the banks through the ownership of preferred stock. Nothing could be farther from the truth. The government only wants to help provide banking capital adequate to meet the credit needs of the country, and through buying and lending upon preferred stock and capital debentures, it accomplishes this without undue demand upon present stockholders."

"The sole purpose is to strengthen our entire bank capital structure so that all banks will be in better position to assist in the recovery program, as well as to qualify for deposit insurance as provided in the Glass-Steagall act of 1933. If all banks participate, each encouraging the other, local rivalries because of the advantages or disadvantages, will be eliminated."

**FRANCE TURNS
DOWN INFLATION,
BONNET ASSERTS**

PARIS, Oct. 1.—(AP)—In a speech at Perigueux today, Georges Bonnet, minister of finance, gave France the first official statement that the government has turned its back on inflation. "Categorical hostility to any inflation is the dominating sentiment of public opinion," he declared. "The government knows its duty and will not fail." The finance minister said the government was preparing to attack the problems of its unbalanced budget and the cost of living, pointing out that the French people were insistent upon protection of the franc.

The minister of commerce, reaching for fresh markets as an aid to deflation, today issued new import quotas for October. Instead of drastic cuts which were expected, the figures were as large and in some cases larger than previous ones. The quota applicable to American cardboard was 68 per cent higher, and there on gears, drills, taps and dyes were increased fourteen times. Where United States quotas were raised those of Germany were correspondingly reduced. The quotas were set for one month only instead of the customary three months period.

**Williamson to Address
Railroad Safety Meeting**

(Chicago Tribune Press Service.) New York, Oct. 1.—T. F. Williamson, president of the New York Central railroad, will address the annual convention of the safety section of the American Railway association, which will be held in Chicago from Tuesday to Thursday. Among the other speakers will be M. O. Lorenz, director of the interstate commerce commission's bureau of statistics; Lew R. Palmer, conservation engineer of the Equitable Life Assurance society, and C. B. Boulet, director of safety of the Wisconsin Public Service corporation. Charles D. Hill, general agent of the New York Central, will preside at the meetings.

**VAST U. S. PLANS
TO LIFT GRAINS
ESCAPE TRADER****Doubt Over Money
Policy Uppermost.**

BY CHARLES MICHAELS.

Leading wheat traders are of the opinion that the very vastness of the government's program designed to lift grain prices to the 1909-14 parity with other commodities has caused the trade as a whole to forget that such a movement is under way. Uncertainty as to the administration's monetary policy is causing limited speculative interest in the markets, and is largely responsible for extremely erratic fluctuations. With uncertainty out of the way they feel that supply and demand will again come to the fore. Comparatively few traders have an opinion as to the immediate trend of the markets, but taken as a whole many operators look for much higher prices ultimately, especially those who believe the administration will make every effort to establish grain and other commodities at the parity which prevailed during the 1909-14 period.

See Wheat Still Too Low.

It is pointed out that at the present time it would take a price of around \$1.19 per bushel for wheat, net to the producer, to put the farmer in the position he enjoyed previous to the war as far as purchasing power is concerned. This was about 20 cents a bushel above the 50 cents which prevailed for the December delivery in Chicago on Saturday. This price would have to be reduced around 20 cents a bushel to arrive at the figure received by the farmer. On Sept. 15 Nebraska farmers were receiving an average of 67 cents a bushel for their wheat, or 21 cents below the Chicago price. The administration is regarded as far as the grain markets are concerned. On one hand it is believed that an advance in prices would materially hamper any program to curtail acreage of wheat and corn. On the other hand is the fear that unless grain advances congress may take matters into its own hands when it assembles in January.

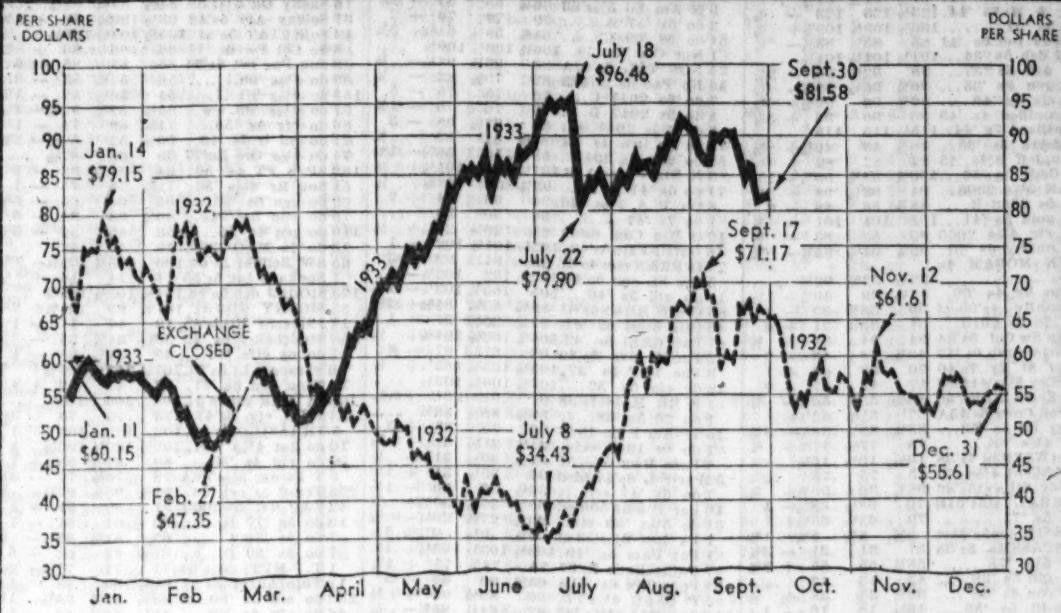

Southern Hemisphere Factor.

Once the monetary policy of the government is defined it is expected the outlook for the new southern hemisphere wheat crop will become a factor in the market. The size of the Argentine and Australian crops will be determined to a large extent by the rainfall in October, according to leading experts. In addition there is a large area in the American southwest that needs rain immediately to give the crop a good start.

The government's program among other things calls for a reduction of 15 per cent in the wheat acreage, or about 2,600,000 acres. With few exceptions this contemplated reduction actually exceeds the loss occasioned by winter killing. In addition to this deliberate cut in the seeded area there is the possibility of heavy winter kill in this season, which might reduce the area materially. In recent years around 12 per cent of the winter wheat seeded has been abandoned.

Local experts who have made an analysis of the situation incline to the belief that in view of the known shortages in subsoil moisture over a large area, the prospect of the United States raising sufficient wheat during the 1934 season to cover domestic requirements is not very bright. However, they regard this in the light of a factor for the trade to consider later.

(Continued on page 29, column 8.)

**Average Daily Closing Prices of 50 Leading
Stocks on the New York Stock Exchange****INFLATION PROSPECT
CAUSES BUYING WAVE
IN CHICAGO STORES**

Increasing demands placed upon stocks of local retailers, a new rise in the volume of wholesale business, a slight letup in production of steel in the local mills, continued gains in employment and pay rolls in the seven federal reserve district, renewed improvement in railroad carloadings, further expansion in automobile distribution, and a slight recession in electric power output characterized the last week in Chicago, according to trade observers of the Chicago Association of Commerce.

A new fear on the part of the buyers that inflation would soon boost retail prices to higher levels was the chief cause of larger crowds at the stores and more activity. Though retail sales throughout the country, in comparison with the same period last year, are only slightly higher in dollar volume, Chicago's sales continue to run about 25 per cent better.

Increases in the various departments of the stores have been somewhat irregular. Purchases of women's coats and suits have increased more than 95 per cent over last year, while several lines of household articles have increased only 17 per cent. Furniture has been selling unusually well, increasing in sales more than 50 per cent over a year ago.

Thirty-seven railroads last week reported an income of more than 100 per cent over last year. Although the output of electric power slowed during the last week, production is still more than 9 per cent ahead of last year.

**Steamship Line Transfers
Repair Work to Seattle**

Seattle, Wash., Oct. 1.—(AP)—Promising to add thousands of dollars to waterfront pay rolls, all future voyage repairs and drydocking of the 22 ships of the Luckenbach Steamship company, formerly based in Boston, will be made here, Executive Vice President Lewis Luckenbach disclosed today.

**National Paper Trade
Group to Meet Wednesday**

Another convention to be held at the Stevens hotel is the National Paper Trade association, opening on Wednesday. Two hundred manufacturers and distributors of both fine and coarse paper will attend the semi-annual meeting of both the national and divisional groups.

**Am. Smelting
6 Months Net
Is \$2,030,209**

(Chicago Tribune Press Service.)

New York, Oct. 1.—The American Smelting and Refining company reports for the six months ended on June 30 a net income of \$2,030,209 after all charges and reserves, including a revaluation of excess stocks of metal then on hand, which resulted in a credit to earnings of \$1,916,908. Before giving effect to the inventory revaluation the net profit was \$113,301. For the first six months of 1932 the company reported a net loss of \$3,442,047, including inventory revaluation, and a loss of \$329,548 before giving effect to inventory revaluation. Profit and loss account as of June 30 was \$17,533,193, compared with \$15,552,990 at the beginning of the year.

Value of Stocks Rises.

Simon Guggenheim, president, states that the increase in the market value of the company's metal stocks, both normal and excess, as of June 30, against market value on Dec. 31, 1932, was \$10,897,340. In addition to the write-up of excess metal stocks, the normal metal stocks have similarly been adjusted to cost, which was lower than market. This write-up of normal stocks amounted to \$2,392,220, which was added to the metal stock reserve account. Had these stocks been written up to market instead of cost, the reserve would have been increased by \$3,294,500. Had the excess metal stocks been similarly written up there would have been a total appreciation of about \$5,226,000.

The balance sheet as of June 30 shows current assets of \$70,417,796, including cash on hand and in transit of \$4,760,154, and United States government securities of \$16,630,902. Current liabilities were \$10,611,249, of which current accounts, notes, drafts, and wages payable amounted to \$6,549,437. As of Dec. 31, current assets were \$60,475,526 and current liabilities \$7,361,701.

Adds to Holdings.

In the first six months of the year the investment account increased \$540,689. Mr. Guggenheim explains that this was due principally to acquiring 51 per cent interest in Tarkwa Gold Mines, Ltd., owning and operating gold mine in the Gold Coast colony, West Africa, and the purchase of 90,000 shares of the 8 per cent debenture stock of Mount Isa Mines, Ltd. The company has outstanding 500,000 shares of 7 per cent cumulative preferred stock of \$100 par, 200,000 shares of 6 per cent cumulative preferred stock of \$100 par, and 1,323,665 shares of common stock without par value.

**TRADE REVIVAL
SLOW TO ARRIVE;
STOCKS WAVER****Market Averages in
Sharp Decline.**

(Chicago Tribune Press Service.)

New York, Oct. 1.—The share market turns into the new month with a heavy load of care and uncertainty aboard. September has come and gone and that "autumn trade revival," about which so much was heard in the late summer, is yet to put in its appearance. The latest statistics, in fact, indicate that the line of industrial activity has begun to turn down rather abruptly.

Steel output is declining week by week. It dropped from 47 per cent of capacity to 41 during September. Spreading strikes are tying up industries of various kinds throughout the country and numbers of factories which had reopened after long periods of idleness in anticipation of great things from the administration's NRA program are preparing to shut down anew.

Market Averages Drop.

Popular disappointment over the trend of affairs is showing up sharply in the market averages. The Dow Jones index of fifty representative issues showed a loss of 4½ points last week, making a net decline for the month of about 9½ points. The figures at the close of trading Saturday stood at 81.58, which compares with the July high of 98.05. The year's low so far was recorded on March 2 at 48.85.

Price levels generally are back down to those bumped in the big shakeout of mid-July. A tier of those bottoms is being eagerly awaited by the range and file as an indication of the market's trend in the nearby future.

All Groups Hit.

All groups suffered severely in the heavy selling of last week, with the gold mining, utility, steel and railroad issues coming in for a shade the worst of it. The yellow metals were upset by Washington advices indicating a

All Groups of Stocks Hit by Heavy Selling.

[Continued from page 27, column 8.]

swing of sentiment in administration circles against inflation.

Midweek statements by White House "spokesmen" gave the impression that the President might come out definitely for monetary stabilization at an early date and this had some effect on steadying the group, although the President's remarks were from the leader of the section, sold off 40 points before it regained its balance.

In the last two or three sessions of the week it rebounded somewhat, but the week's trading was mostly a loss. Silver issues were strong in the latter part of the week on comment indicating that the white metal might be used to finance the balance in the forthcoming debt parleys.

Repeat stocks were sold rather heavily on three or four trading sessions of the week, but the market was not so much shaken as it was on the issues seen to have decided long since that they had been overbilled and that they must settle a little nearer the general level. National Distillers was the one over, in particularly large volume.

Causes Some Buying.

The President's new plans for extending credit to railroads for use in buying rails and rail equipment brought some buying into the equipment shares such as American and Baldwin Locomotive, General Railway Signal, Pullman and the like, but failed to enhance materially the rating of the steel group in public estimation. Feeding figures on steel output outweighed any influence the development might have had apparently.

The utilities had a bad week, omission of the dividend on People's Gas being one of the counts. But the gas industry was not hurt. But the auto and American Telephone were factors in unsettling the list on more than one occasion.

Market letter comment indicates that brokerage opinion on the market's future is hinging more than anything else on the government's monetary course. Some definite announcement on this course would improve the visibility wonderfully.

W. T. Grant Co. Earnings Reported in Increase

New York, Oct. 1.—Net earnings of W. T. Grant company for the six months ended July 31 were \$661,972, equal to 55 cents a share, compared with \$148,137, or 12 cents a share in the corresponding period of the previous fiscal year. Dollar sales declined 3.9 per cent during the period as compared with a year ago, but the company reports that the decrease was caused by heavy losses in February and March, "recent months having shown an increase over corresponding months of 1932."

Interlake Iron.
Investors' Guide: Please send me information concerning Interlake Iron corporation.—E. A. B.

Answer: The main source of Interlake Iron corporation's revenues is ordinarily the sale of merchant pig iron. The market for this product is afforded by foundries and manufacturers of special steel that supply fabricators of agricultural implements, railroad equipment, building and machinery concerns. Next in importance is the coke business. A secondary source of revenue is the sale of by-

There has been a steady improvement in operations this year. First and second quarter losses were less than in 1932 and loss for the first half of 1933 was \$434,000, against loss of \$946,000 for the first six months of 1932. The improvement was due to the pickup of the pig iron business, which had been practically dormant for months. It was expected in July that the third quarter would be the best three month period since the first quarter of 1931, when profit of \$69,000

Cash on June 30, 1933, was reported to be about \$800,000 and current ratio was about 10 to 1. There were no bank loans, but it was thought possible that the corporation would seek to borrow money to finance larger

Sales in 1932 dropped to \$8,921,000 from \$13,400,000 in 1931 and \$2,600,000 in 1930. Most of the revenue last year came from the sale of coke. Loss in 1932, after all charges, was \$2,170,000, against loss of \$1,376,000 for 1931. In 1930 net income was \$2,066,000, or \$1.03 per share. Predecessor companies reported earnings of \$1,162,000 for 1929 and \$1,354,000 for 1928.

At the close of 1932 current assets, including \$560,000 cash assets, aggregated \$1,470,000 and current liabilities were \$1,123,000.

Funded debt, none of it due prior to 1945, totaled \$13,606,000. There are outstanding 2,000,000 shares of no par common stock on which nothing has been paid since the 15 cent disbursement on March 25, 1931.

The stock is a speculation.

Cleveland Union Terminals.
 Important Guide: How do you rate

Investors' Guide. How do you rate Cleveland Union Terminal bonds, 5½% of 1972 and 4½% of 1977? Thank you. —G. J.

Answer: Cleveland Union Terminals company 5½s due 1972, 6s due 1973, and 4½s due 1977, are all issued under the same indenture.

They are unconditionally guaranteed as to principal and interest by New York Central railroad, Cleveland, Cincinnati, Chicago and St. Louis Railway company, and New York, Chicago and St. Louis railway.

MARKET NEWS

Double Over Money Policy Is Chief Influence.

[Continued from page 27, column 3.]

rather than a market factor at the moment.

There is a growing feeling of confidence in the cash situation, as millers are said to control the bulk of the grain. The movement from the interior to primary markets has fallen off, but it exceeds last year's, and shipments are below a year ago. Chicago received a cargo of 200,000 bushels of No. 2 red wheat from Toledo last week, the grain being shipped to fill September sales and to create storage room for wheat that the National Live Stock association is said to have coming in from interior elevators.

Price Range About 5 Cents.

Wheat futures covered a range of about 5 cents for the week, and closed with net losses of 2 to 2½ cents, September being 86½ to 86½ cents, December 80 to 90½ cents, May 84 to 84½ cents.

Winnipeg wheat closed with net losses for the week of 5 to 5½ cents, October being 61½ cents, December 62½ cents, and May 67½ to 67½ cents. Liverpool showed a loss for the week of 1½ to 4½ cents, closing at 66½ cents, December 63½ cents, and May 73½ cents. Prices in Chicago for the week follow:

	September.	October.	May.
Monday	86½-87½	89½-92½	92½-95½
Tuesday	86½-89½	89½-93½	94½-97½
Wednesday	85½-89½	88½-91½	92½-95½
Thursday	85½-87½	88½-91½	92½-95½
Friday	86½-88	89½-91½	93½-95½
Saturday	85½-87½	88½-90½	92½-95½
Sunday	85½-89	88½-93½	92½-97½
Prev. week	84-93½	87½-97½	91½-102
Last year	90½-97	91½-102	97½-107
2 yrs. ago	45½-48½	48½-51½	49½-52½
Season	45½-120	46½-124	48½-128½
1922	48½-49½	51½-52½	58-60

Private crop estimates, due today, are expected to show little change for the last month. They cover spring wheat, corn, and oats.

No Uneasiness Over Corn.

Favorable weather over a large part of the corn belt practically put the finishing touches on the crop. There will be no serious damage from frost, although there were reports of frost from parts of Iowa during the week. The crop has matured in fairly good shape, and a good part of it has already been harvested.

Speculative opinions are mixed, with many professionals bearish and selling on every sharp advance, while those who believe in the scarcity of markets for the exports are inclined to take advantage of price declines to buy liberally. In the cash market business was only fair, and liberal quantities were shipped east. Net losses for the week were 2½ to 2½ cents, with September closing at 50½ cents, December at 50½ to 50½ cents, and May at 56½ cents. Prices for the week follow:

	September.	December.	May.
Monday	47½-48½	50½-52½	57½-59½
Tuesday	47-48½	50½-52½	56½-58½
Wednesday	46-47½	49½-51½	55½-57½

Season	20½-71½	40½-73½	57½-82½
1922	45-45½	46½-47½	50½-51½

Oats Longs Take Profits.

Speculative holders of oats futures were free sellers most of the week, especially on bulges, while buyers brought fair liquidation on stop orders. Farmers are selling their crop as liberally as in seasons of large production, instead of hoarding it like the present. There were net losses of 1½ to 1½ cents, after a range of less than 1 cent. September finished at 35½ cents, December 35½ to 39 cents, and May 42½ to 42½ cents. Prices for the week follow:

	September.	December.	May.
Monday	38-37	39½-40½	42½-44½
Tuesday	38-37	39½-40½	42½-44½
Wednesday	38-37	39½-40½	42½-44½
Thursday	38-37	39½-40½	42½-44½
Friday	38-37	39½-40½	42½-44½
Saturday	38-37	39½-40½	42½-44½
Sunday	38-37	39½-40½	42½-44½
Prev. week	35½-37	38½-40½	41½-43½
Last year	35½-37	38½-40½	41½-43½
2 yrs. ago	20-21½	20½-22½	23½-25½
Season	18½-19½	19½-20½	21½-22½
1922	14½-20½	17½-23½	29½-33

Millers, distillers, and speculators bought rice futures on all breaks, creating an active market for securities. However, there was an unsettling feeling, although the market had support on weak spots. The close was unchanged to 1½ cents lower. September closed at 81 cents, December 70½ cents, and May 77½ cents.

BANK HOLDING CONCERN IN MINNESOTA

St. Paul, Minn., Oct. 1. — District Judge Gustavus Loevinger has ruled the First Bank Stock corporation was not operating illegally and cleared it and the First National bank, an affiliate, of fraud charges.

George S. Grimes, Minneapolis attorney, filed suit seeking cancellation of an agreement by which he traded First National stock for securities of the corporation and an injunction on the grounds that a branch banking system was being operated illegally by the latter.

Judge Loevinger held there was no fraud or misrepresentation in the stock transactions and that the corporation operated a group banking business as distinguished from branch banking, and did not offend the laws on public policy of the United States, Minnesota or Delaware, where it is incorporated.

TO THE HOLDERS OF DEUTSCHE LANDESBANKENZENTRALE AKTIENGESELLSCHAFT (Central Bank of German Land & Prov. and Sinking Fund Bonds Series B 9½ % of June 1, 1931.)

In accordance with demand dated June 9, 1933, the undersigned has been prohibited by law from transmitting to the Paying Agents for the above issue the funds necessary to pay the interest due thereon on October 1, 1933, and has accordingly, with the consent of the German Reich, established and supervised the German Reichsbank, which is now equivalent at rates of exchange current on that date to 100 marks of the Reichsbank. At such time as the transfer of foreign exchange will again become permissible hereafter will be notified by the undersigned.

DEUTSCHE LANDESBANKENZENTRALE AKTIENGESELLSCHAFT. October 2, 1933.

U. S. Engineer Office, Rock Island, Illinois. This notice is hereby given that I received at this office until 2:00 p. m. October 24, 1933, and thereafter until the 27th of October, 1933, all plant, labor and materials for, and constructing on, the Rock Island and Gulf of Mexico Railway at Lock No. 16 near Muscatine, Iowa. Further information will be furnished on request.

FOREIGN TRADE
OF NATIO
1ST HALF OF '33

Report Made by Chamber
of Commerce.

Washington, D. C., Oct. 1.—(Special.)—Reviewing the American export trade figures for the first six months of 1933, the Chamber of Commerce of the United States, in a report issued today, found an upward trend continuing since February.

The report does not touch upon the trend in the third quarter ended yesterday, and no figures were made available to show whether the slump in production in this country has had a dampening effect on foreign trade.

The chamber's economists assigned three factors for the first half year's rise in exports, as follows:

"A stronger competitive status of American exporters due to the depreciation of the dollar, the general improvement in business tone and purchasing power of many of America's important foreign customers."

"Increased industrial activity in the United States."

"Total Is Below 1932."

The report shows export lower than in 1932, but with sharp increases noted for the last two months of the half year, which is held in contrast to a year ago when the trend was definitely downward.

"Exports for the second quarter of 1933," the chamber reports, "were 3 per cent larger by value than those of the first quarter. Normally, there is a seasonal falling off of some 10 per cent of the dollar value of exports in May. Exports were 11 per cent above April; June, 5 per cent above May. June also registered the first monthly gain over a corresponding month of the preceding year since September, 1929."

"The total value of our exports for the first six months of 1933 amounted to \$669,384,000, which was about 20 per cent below the value for the same half 1932 and 63 per cent under the five year average. On value basis, 22 per cent of our 50 chief exports, all manufactured products, were larger in the first half of this year than a year ago, as follows: Lard, coal tar products, agricultural machinery and implements, aircraft, motor trucks, automobiles, radio receiving sets, radio tubes, power pumps, type setting machines, cameras, unexposed motion picture films, platinum, broad silk, silk hosiery."

"More than one-fifth (21.4 per cent) of our exports by value consisted of unmanufactured cotton, the most dominant position for the first half in a year this leading export held in the last decade. During the first half of 1933 we exported 1,897,000 pounds, which, although 16 per cent smaller than the heavy shipments of the first six months of 1932, exceeded the five year average by 16 per cent. The value of these half year's exports, \$140,697,000, was 12 per cent below last year and 42 per cent below the five year average. Exports of automobiles, motor trucks, aircraft, aircraft engines, guns, adding, accounting, and calculating machines, radio receiving sets, radio tubes, power pumps, type setting machines, cameras, unexposed motion picture films, platinum, broad silk, silk hosiery."

"Automobiles and parts constituting 6.3 per cent of the total value of exports, advanced over gasoline to second place among our exports, having an upturn in the export trade in cars and trucks and a heavy decline in gasoline exports. During the first half of 1933 we exported 33,620 passenger cars, 25 per cent more than in 1932, although 72 per cent under the five year average. Exports of motor trucks, 10,325, were 32 per cent greater than a year ago and 69 per cent below the five year average quantity. Automobile tire exports were 15 per cent less than in 1932 and 63.3 per cent below the five year average quantity."

FLIGHT OF U. S.
MONEY ABROAD
TOTALS BILLION

New York, Oct. 1.—Because of the uncertainty of the monetary policy of this country, according to the New York Times, the financial community that approximately one billion dollars has left the United States during the last six months. Foreign balances in London are estimated currently at about \$1,800,000,000, down from \$2,000,000,000 in June, 1932, according to the flight of that much capital to that center from various quarters of the world.

Although part of this came from central Europe and countries outside of the United States, it is believed that slightly more than half came from the United States. The amount of United States money invested in gold abroad and in French and other European countries is believed to be large.

Although there has been some restriction of foreign exchange dealings and an embargo on gold from this country it is understood that the transfer of funds from the United States has been accomplished through the purchase of commodities and foreign securities here and then reselling them abroad and also through the sale of American securities through European brokers.

The flight of American capital abroad is said to be continuing, but in somewhat lesser volume than a few weeks ago. The feeling is that this capital will return as soon as the administration establishes a definite monetary policy.

OIL DEARTH IN
RUSSIA, RUMANIA
AIDS U. S. EXPORT

New York, Oct. 1.—American oil exporters are enjoying a revival in their European trade owing to an acute shortage in soviet and Rumanian supplies, according to companies active in foreign markets. As a result the price of gasoline in car lots at Gulf ports has advanced more than 15 cents a gallon in the last six weeks. It is quoted at 6 cents today, compared with 4 cents in the middle of August.

Shippers of American oil to Europe are predicting still higher prices because there is no indication of any increase in foreign supplies, with the result that all European consuming countries are looking increasingly to the United States to fill their wants. Orders for American gasoline are pouring in from France, Germany, Italy, Spain, the United Kingdom and other smaller countries, and there is no sign of a letup.

The situation has wholly changed within a year's time. Last summer American oil exporters were in conference with foreign interests to limit production and stabilize the markets which had been demoralized by a flood of surplus Russian and Rumanian oil. It was only with the greatest persuasion that they succeeded in obtaining cooperation of the Rumanian industry. The soviets flatly refused to cooperate.

Orders for Machine Tools
Reported Disappointing

The American Machine Tool report that the drop in orders for machine tools and heavy equipment last month has been disappointing. "One bright spot in the general gloom," it adds, "is the rush of business in the textile and knitting machine plants, some of which are booked solid well into next year."

Gains in 42 Items.

"On a quantity basis, 42 per cent of the exports showed an increase. Out of 95 items, 41 made gains ranging from 0.5 per cent to 1.59 per cent. Most of these gains of increased trade occur in manufactured articles. Following is the list: Crude petroleum, lubricating oil, natural gasoline, paraffin wax, boards, planks and saws, aircraft, aircraft engines, guns, adding, accounting, and calculating machines, radio receiving sets, radio tubes, power pumps, type setting machines, cameras, unexposed motion picture films, platinum, broad silk, silk hosiery."

"More than one-fifth (21.4 per cent) of our exports by value consisted of unmanufactured cotton, the most dominant position for the first half in a year this leading export held in the last decade. During the first half of 1933 we exported 1,897,000 pounds, which, although 16 per cent smaller than the heavy shipments of the first six months of 1932, exceeded the five year average by 16 per cent. The value of these half year's exports, \$140,697,000, was 12 per cent below last year and 42 per cent below the five year average. Exports of automobiles, motor trucks, aircraft, aircraft engines, guns, adding, accounting, and calculating machines, radio receiving sets, radio tubes, power pumps, type setting machines, cameras, unexposed motion picture films, platinum, broad silk, silk hosiery."

ANTOS AND PARTS 63 PER CENT.

"Automobiles and parts constituting 6.3 per cent of the total value of exports, advanced over gasoline to second place among our exports, having an upturn in the export trade in cars and trucks and a heavy decline in gasoline exports. During the first half of 1933 we exported 33,620 passenger cars, 25 per cent more than in 1932, although 72 per cent under the five year average. Exports of motor trucks, 10,325, were 32 per cent greater than a year ago and 69 per cent below the five year average quantity. Automobile tire exports were 15 per cent less than in 1932 and 63.3 per cent below the five year average quantity."

Wool Goods Slow.

Wool goods markets have shown a slight improvement in the last week, according to the New York Times. Mills show a reluctance to accept further orders on spring goods and demand for women's wear, dresses and dress goods has slowed down as garment makers await the anticipated upturn in retail sales.

CHICAGO DAILY TRIBUNE MONDAY, OCTOBER 2, 1933.

OFFICIAL WEATHER FORECAST

The official forecast for today and tomorrow and yesterday's table of records follow:

Place	Forecast	Actual	Record
Chicago	Cloudy, light rain, 60-65	Cloudy, 60-65	60-65

WANTED—MALE HELP.

As members of the NRA and a business increase of over 500% as against the corresponding period of 1932, again.

We are forced to expand our organization in Chicago and the Middle West. We will place six men to represent our products. INVESTIGATOR IMMEDIATELY.

Three new inventions have added to our sales volume tremendously, and because of the exclusiveness of these products and our unique method of merchandising, our sales are comparing favorably with 1932 figures.

Cash being paid to our representatives is almost unbelievable; you must see and analyze the following CASH paid to a few men LAST WEEK HERE IN CHICAGO:

S. T. P., \$250.25; E. P., \$101.10; W. R., \$212.10; D. M., \$115.50; H. C. B., \$190.00; C. E., \$91.27; W. P. E., \$187.50; B. L., \$78.20.

We invite the verification by anybody of the above weekly cash income.

The men selected will establish themselves in a BUSINESS OF THEIR OWN using our money. You won't make a fortune, but you should not from \$38 to \$71 a week after a short period of training.

ABSOLUTELY NO INVESTMENT.

We pay the rent, light, heat, telephone, etc., plus cost of everything the business is, and pay you weekly.

We can only spare time to interview men of good appearance and who have a sincere desire to locate a permanent connection. This is no stop-over proposition. We are here to investigate this profitable business immediately.

Monday A. M. 9 to 12 ONLY. No Interviews after noon. Apply Room 601, Mather Tower, 75 N. Wacker-dr.

Men for Garvey Investment, Room 101, 120 N. Bank Bldg., 9 to 12 noon.

Men in Evanston investigate, Room 403, State Bank Bldg., 9 to 12 noon.

We can use a few men in Hammond, South Bend, Rock Island, and Peoria. Write for appointment.

AN OPPORTUNITY

for a few experienced salesmen capable of handling a protected territory in Chicago or suburbs. A complete quality line of

WESTINGHOUSE

appliances. Refrigerators, ranges, laundry equipment. Our product is a leader in Chicago. Our business is good and full co-operation and instruction is given our men. Our setup for the salesman is the finest in the industry. Interviews 10 a. m. to 4 p. m. Mon. and Tues.

WESTINGHOUSE

601 GROVE ST., EVANSTON, MR. PETERSON, 100 N. WESTERN, MR. J. J. JOHNS, 431 N. IRVING PARK-BLDG., MR. THURMAN, 100 N. PARK-APART., MR. HUEBELT, 101 N. CLAYTON-APART., MR. CRITCHFIELD, 701 N. ASHLAND-APART., MR. CRITCHFIELD, 238 N. LA SALLE, E. 904 N. HENSLER.

Commercial Salesmen

to complete our organization in established factory territory in Chicago and suburbs. We are seeking 3 salesmen in our commercial division. Experience not necessary. Graduate students are prepared to render educational and field training. Leads furnished. No salary advance. If you are interested in becoming associated with a company that is showing a steady increase in volume, we are offering you an attractive proposition. See MR. KNIGHT, 10 to 12 noon, Monday.

SERVEL SALES, INC.

549 W. RANDOLPH ST.

MEN.

Two clean cut men with pleasant personality will be added to each of our eight salesmen for customer contact work. Men selected will be used permanently. Graduate students are prepared to render educational and field training. Leads furnished. No salary advance. If you are interested in becoming associated with a company that is showing a steady increase in volume, we are offering you an attractive proposition. See MR. KNIGHT, 10 to 12 noon, Monday.

WE HAVE OPENING

for 3 ambitious young men, 21-25 years of age, to write orders for large Public Service Co. These positions are permanent. For a salary and benefits, apply Monday, 9-11 a. m., Room 251, 140 S. Dearborn St.
